(3) *Suspension of first-phase periods.* The 20-year, 15-year, or 10-year period described in subparagraph (1)(i) of this paragraph (whichever applies) shall be suspended during the pendency of any judicial proceeding which is brought and diligently litigated by the private foundation described in such subparagraph and which is necessary to reform, or to excuse such foundation from compliance with, its governing instrument or any other instrument (as in effect on May 26, 1969) in order to allow disposition of any excess business holdings held by the foundation on May 26, 1969.

(4) *Election to shorten the period during which certain holdings of private*

V38-1 JAN 3 73 XUM

foundations are treated as held by disqualified persons—(i) *In general.* If, on May 26, 1969, the combined holdings of a private foundation and all disqualified persons (with respect to such foundation) in any one business enterprise exceed 75 percent of the voting power or a 75-percent interest in the value of all outstanding shares of all classes of stock (or more than a 75-percent capital interest, in the case of a partnership or joint venture) in such enterprise, and if, on such date, the foundation's holdings do not exceed 95 percent of the voting power in such enterprise, then the 15-year periods referred to in subparagraph (1)(i)(*b*) and (*c*) of this paragraph are, with respect to such foundation to be shortened to 10-year periods, if, at any time before January 1, 1971, one or more individuals—

(*a*) Who are substantial contributors (as described in section 507(d)(2)) or members of the family within the meaning of section 4946(d) of one or more substantial contributors to such private foundation, and

(*b*) Who on May 26, 1969, held in the aggregate more than 15 percent of the voting power in the enterprise,

made an election in the manner described in 26 CFR 143.6 (revised as of January 1, 1972), 35 F.R. 6962 (T.D. 7038, 1970).

(5) *Permitted holdings during first phase*—(i) *In general.* Except as provided in subdivisions (ii) and (iv) of this subparagraph and paragraphs (e) and (f) of this section, and without regard to the applicability of section 4943(c)(2)(C), during the first phase the permitted percentage of holdings of a private foundation described in subparagraph (1)(i) of this paragraph acquired on or before May 26, 1969, in a business enterprise (with respect to which such foundation has excess business holdings, as determined under § 53.4943–3, on such date) shall be—

(*a*)(*1*) The percentage of voting power in such enterprise held by the foundation and all disqualified persons (with respect to such foundation) together, on May 26, 1969, reduced by

(2) The percentage of voting power in such enterprise held by all disqualified persons (with respect to such foundation) without regard to section 4943(c)(4)(B); and, separately,

(*b*)(*1*) The percentage of the value of all outstanding shares of all classes of stock in such enterprise held by the foundation and all disqualified persons (with respect to such foundation) together on May 26, 1969, reduced by

(2) The percentage of the value of all outstanding shares of all classes of stock in such enterprise held by all disqualified persons (with respect to such foundation) without regard to section 4943(c)(4)(B).

In no event shall such permitted holdings be less than zero.

(ii) *Fifty-percent limitation.* Except as provided in subdivision (iii) of this subparagraph, in no event shall the percentage described in subdivision (i) (*a*)(*1*) or (*b*)(*1*) of this subparagraph exceed 50 percent.

(iii) *Special rule for certain private foundations.* In the case of a private foundation—

(*a*) Which was incorporated before January 1, 1951;

(*b*) Substantially all of the assets of which on May 26, 1969, consisted of more than 90 percent of the stock of an incorporated business enterprise which is licensed and regulated, the sales or contracts of which are regulated, and the professional representatives of which are licensed, by State regulatory agencies in at least 10 States;

(*c*) Which acquired such stock solely by gift, devise, or bequest;

(*d*) Which does not purchase any stock or other interest in such enterprise after May 26, 1969, and does not acquire any stock or other interest in any other business enterprise which constitutes excess business holdings under § 53.4943–3; and

(*e*) Which, in the last 5 taxable years ending on or before December 31, 1970, expended substantially all of its adjusted net income (as defined in section 4942(f)) for the purpose or function for which it is organized and operated,

subdivision (ii) of this subparagraph shall be applied with respect to the holdings of such foundation in the incorporated business enterprise described in (*b*) of this subdivision by substituting "51 percent" for "50 percent," and section 4943(c)(4)(D) shall not apply with respect to such holdings. For purposes of the preceding sentence, stock of such enterprise in a trust created before May 27, 1969, of which the foundation is the remainder beneficiary shall be deemed to be held by such foundation on May 26, 1969, if such foundation held (without regard to such trust) more than 20 percent of the stock of such enterprise on May 26, 1969.

(iv) *Sole proprietorship.* During the first phase and thereafter, a private foundation shall have no permitted holdings in a sole proprietorship. For the treatment of a sole proprietorship, see § 53.4943–9(e).

(6) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Assume that F, a private foundation, owns, on May 26, 1969, 50 shares of voting stock in corporation X representing 50 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X. Assume further that A and B, the only disqualified persons with respect to F, own five shares each of voting stock in X on such date. The 10 shares of voting stock in X owned by A and B together represent 10 percent of the voting power in X and 5 percent of the value of all outstanding shares of all classes of stock in X. Under the provisions of § 53.4943–3, and without regard to the provisions of section 4943(c)(2)(B), the excess business holdings of F in X as of such date are, therefore, 40 percent of X voting power. Accordingly, since F has excess business holdings in X as of May 26, 1969, under § 53.4943–3, and since the combined holdings of F, A, and B in X are, on such date, less than 75 percent of the voting power in X and less than 75 percent of the value of all outstanding shares of all classes of stock in X, under the provisions of subparagraph (1)(i)(d) of this paragraph all holdings of F in X (i.e., 50 shares of X voting stock) will be deemed held by a disqualified person until May 26, 1979.

Example (2). Assume the facts as stated in Example (1), except that F, on December 15, 1969, purchases an additional 10 shares of voting stock in X representing 10 percent of X voting power. Assume, further, that F, A, or B have not sold, transferred, or otherwise disposed of any of the stock held by them in X on May 26, 1969. While the 50 shares of X voting stock held by F on May 26, 1969, will be deemed held by a disqualified person until May 26, 1979, the additional 10 shares of X voting stock acquired by purchase by F on December 15, 1969, will not, under the provisions of subparagraph (2)(iv) of this paragraph, be deemed to be so held. Accordingly, since, under the provisions of § 53.4943–3, such 10 shares represent additional excess business holding of F in X, such 10 shares will be subject to the imposition of tax under the provisions of section 4943(a).

Example (3). Assume the facts as stated in Example (1), except that F, on December 15, 1971, acquires an additional 10 shares of voting stock in X representing 10 percent of X voting power under the terms of a will which was executed before May 26, 1969. While the 50 shares of X voting stock held by F on May 26, 1969, will be deemed held by a disqualified person until May 26, 1979, the additional 10 shares of X voting stock acquired by F on December 15, 1971, will, under the provisions of subparagraph (2)(ii) of this paragraph and section 4943(c)(5), be deemed held by a disqualified person until December 15, 1981.

Example (4). Assume that F, a private foundation, owns, on May 26, 1969, 50 shares of voting stock in corporation Y representing 50 percent of the voting power in Y. Assume further that C and D, the only disqualified persons with respect to F, own, on such date, 15 shares each of Y voting stock and that the 30 shares of Y voting stock owned by C and D together represent 30 percent of the voting power in Y. Under the provisions of § 53.4943–3, and without regard to section 4943(c)(2)(B), the excess business holdings of F in Y as of such date are, therefore, 50 percent of Y voting power. Accordingly, since F has excess business holdings in Y as of May 26, 1969, and since the combined holdings of F, C, and D in Y represent, on such date, more than 75 percent of the voting power in Y, under the provisions of subparagraph (1)(i)(*b*) of this paragraph all holdings in Y (i.e., 50 shares of Y voting stock) will be deemed held by a disqualified person until May 26, 1984.

Example (5). F, a private foundation, owns, on May 26, 1969, 30 shares of voting stock in corporation Z representing 30 percent of the voting power in Z and 15 percent of the value of all outstanding shares of all classes of stock in Z, and owns, on such date, 10 shares of nonvoting stock in Z representing 10 percent of the value of all outstanding shares of all classes of stock in Z. E and G, the only disqualified persons with respect to F, own, on such date, five shares each of nonvoting stock in Z. The 10 shares of nonvoting stock in Z owned by E and G together represent 10 percent of the value of all outstanding shares of all classes of stock in Z. The provisions of subparagraph (1)(i)(*d*) of this paragraph apply with respect to F, and a disqualified person is deemed to hold all 30 shares of stock owned by F in Z during the 10-year period beginning on May 26, 1969. It is assumed that the provisions of paragraph

(e) of this section do not apply. During such period the permitted holdings by F in Z with respect to the stock in Z held by F on May 26, 1969, are 30 percent of the voting power in Z and 25 percent of the value of all outstanding shares of all classes of stock in Z, determined as follows:

	Percent
(i) The percentage of voting power in Z held by F, E, and G together on May 26, 1969	30
Less: the percentage of voting power in Z held by E and G	0
Permitted holdings of voting power by F in Z	30
(ii) The percentage of the value of all outstanding shares of all classes of stock in Z held by F, E, and G, together on May 26, 1969	35
Less: the percentage of the value of all outstanding shares of all classes of stock in Z held by E and G	10
Permitted holdings of value by F and Z	25

In addition, since the entire interest of F in Z is deemed to be held by a disqualified person until May 26, 1979 (under subparagraph (1)(i)(*d*) of this paragraph), F can have no excess business holdings in Z until such date.

Example (6). Assume the facts as stated in Example (5), except that E and G acquire, on February 1, 1970, 10 shares of Z voting stock representing 10 percent of the voting power in Z and 5 percent of the value of all outstanding shares of all classes of stock in Z. During the first phase, as of February 1, 1970, the permitted holdings by F in Z with respect to the stock in Z held by F on May 26, 1969, are 20 percent of the voting power in Z and 20 percent of the value of all outstanding shares of all classes of stock in Z, determined as follows:

	Percent
(i) The percentage of voting power in Z held by F, E, and G together on May 26, 1969	30
Less: the percentage of voting power in Z held by E and G	10
Permitted holdings of voting power by F in G as of February 1, 1970	20
(ii) The percentage of the value of all outstanding shares of all classes of stock in Z held by F, E, and G together on May 26, 1969	35
Less: the percentage of the value of all outstanding shares of all classes of stock in Z held by E and G	15
Permitted holdings of value by F in Z as of February 1, 1970	20

Since all holdings by F in Z are deemed held by a disqualified person during the first phase, F will not be subject to tax under section 4943(a) on excess business holdings until the termination of the first phase. Therefore, F must dispose of an amount of holdings (or E and G must dispose of an equivalent amount) during the first phase in order for F to avoid taxation on such holdings under section 4943(a).

Example (7). F, a private foundation, owns, on May 26, 1969, 50 shares of voting stock in corporation X representing 50 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X, and owns, on such date, 20 shares of nonvoting stock in X representing 20 percent of the value of all outstanding shares of all classes of stock in X. A and B, the only disqualified persons with respect to F, own, on such date, 10 shares each of voting stock in X. The 20 shares of voting stock in X owned by A and B together represent 20 percent of the voting power in X and 10 percent of the value of all outstanding shares of all classes of stock in X. The provisions of subparagraph (1)(i)(*d*) of this paragraph apply with respect to F, and a disqualified person is deemed to hold all stock owned by F in X during the 10-year period beginning on May 26, 1969. It is assumed that paragraph (e) of this section does not apply. During such period the permitted holdings by F in X with respect to the stock in X held by F on May 26, 1969, are 30 percent of the voting power in X and 40 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(i) (*a*) The percentage of voting power in X held by F, A, and B together on May 26, 1969	70
(*b*) Lower of 50 percent or item (*a*)	50
(*c*) The percentage of voting power in X held by A and B	20
(*d*) Permitted holdings of voting power by F in X (item (*b*) less item (*c*))	30
(ii) (*a*) The percentage of the value of all outstanding shares of all classes of stock in X held by F, A, and B together on May 26, 1969	55
(*b*) Lower of 50 percent or item (*a*)	50
(*c*) The percentage of the value of all outstanding shares of all classes of stock in X held by A and B	10
(*d*) Permitted holdings of value by F in X (item (*b*) less item (*c*))	40

Since all holdings by F in X are deemed held by a disqualified person during the first phase, F will not be subject to tax under section 4943(a) on excess business holdings until the termination of the first phase. Therefore, F must dispose of an amount of holdings (or A and B must dispose of an equivalent amount) during the first phase in order for F to avoid taxation on such holdings under section 4943(a).

Example (8). Assume that M, a private foundation, owns, on May 26, 1969, sole proprietorship S. Since, under the provisions of § 53.4943–3, M's ownership of S constitutes excess business holdings as of May 26, 1969, and since M's interest in S is greater than 95 percent on such date, under the provisions of subparagraph (1)(i)(*a*) of this paragraph a disqualified person will be deemed the owner of S for the 20-year period beginning on such date. However, during such period, M's ownership of S will not constitute permitted holdings. If M disposes of part of its interest in S, the provisions of section 4943(c)(3)(A) rather than the provisions of section 4943(c)(3)(B) shall apply from the date of the first such disposition; however, that portion of the interest in S retained by M, even though less than a 95-percent interest, shall continue to be deemed held by a disqualified person until May 26, 1989.

(c) *Second phase*—(1) *In general.* For purposes of section 4943 and this section, the term "second phase" means the 15-year period immediately following the first phase.

(2) *Permitted holdings during second phase*—(i) *In general.* Except as provided in subdivision (ii) of this subparagraph and paragraphs (e) and (f) of this section, and without regard to the applicability of section 4943(c)(2)(C), during the second phase the permitted percentage of holdings of a private foundation described in paragraph (b)(1)(i) of this section, acquired on or before May 26, 1969, in a business enterprise (with respect to which such foundation has excess business holdings, as determined under § 53.4943–3, on such date) shall be determined in the manner specified in paragraph (b)(5)(i) of this section, except that—

(*a*) The percentage specified in (*a*)(*1*) thereof shall be the percentage of voting power in such enterprise held by the foundation and all disqualified persons (with respect to such foundation) together at the close of the first phase, and

(*b*) The percentage specified in (*b*)(*1*) thereof shall be the percentage of the value of all outstanding shares of all classes of stock in such enterprise held by the foundation and all disqualified persons (with respect to such foundation) together at the close of the first phase.

(ii) *Twenty-five percent limitation.* For purposes of this subparagraph, in no event shall the permitted holdings (described in subdivision (i) of this subparagraph) of a private foundation (other than a foundation described in paragraph (b)(5)(iii) of this section) include more than 25 percent of the voting power or 25 percent of the value of all outstanding shares of all classes of stock in a business enterprise, if, at any time during the second phase, all disqualified persons (with respect to such foundation) together hold (actually or constructively) more than 2 percent of the voting power in such enterprise. The limitations of the preceding sentence shall apply for the time remaining in the second phase and occurring after the first day during the second phase on which such disqualified persons together hold more than 2 percent of such voting power. For special rules with respect to the disposition of excess business holdings created, under this subdivision, solely by reason of acquisitions made by disqualified persons after the first phase, see § 53.4943–2(a)(1).

(3) *Example.* The provisions of this paragraph may be illustrated by the following example.

Example. On May 26, 1969, F, a private foundation, has excess business holdings (as determined under § 53.4943–3) in corporation X. A and B, the only disqualified persons with respect to F, have no holdings in X on such date. Assume that, under paragraph (b)(1)(i)(*d*) of this section, a disqualified person is deemed the owner of all holdings by F in X for the 10-year period beginning on May 26, 1969 (i.e., the first phase) and that, under paragraph (b)(5) of this section, the holdings by F in X (with respect to stock held on May 26, 1969) at the close of such period are 35 percent of the voting power in X and 40 percent of the value of all outstanding shares of all classes of stock in X. On Feb-

V38-1 JAN 73 XUM

ruary 1, 1981, A and B together acquire 6 shares of the voting stock in X representing 6 percent of the voting power in X and 3 percent of the value of all outstanding shares of all classes of stock in X. Assume that paragraph (e) of this section does not apply.

(i) The permitted holdings by F in X from May 26, 1979, to February 1, 1981, are 35 percent of the voting power in X and 40 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(a) Permitted holdings of voting power from May 26, 1979, to February 1, 1981 (35 percent–0 percent)	35
(b) Permitted holdings of value from May 26, 1979, to February 1, 1981 (40 percent–0 percent)	40

(ii) The permitted holdings by F in X for the period beginning on February 1, 1981, are 25 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(a)(1) Combined holdings of voting power by F, A, and B on May 26, 1979	35
(2) Percentage of voting power held by A and B on February 1, 1981	6
(3) Item (1) less item (2)	29
(4) Permitted holdings of voting power for the period beginning on February 1, 1981 (lower of 25 percent or item (3))	25
(b)(1) Combined holdings of value by F, A, and B on May 26, 1969	40
(2) Percentage of value held by A and B on February 1, 1981	3
(3) Item (1) less item (2)	37
(4) Permitted holdings of value for the period beginning on February 1, 1981 (lower of 25 percent or item (3))	25

(d) *Third phase*—(1) *In general.* For purposes of section 4943 and this section, the term "third phase" means all periods following the second phase.

(2) *Permitted holdings during third phase*—(i) *In general.* Except as provided in subdivision (ii) of this subparagraph and paragraphs (e) and (f) of this section, and without regard to the application of section 4943(c)(2)(C) during the third phase the permitted percentage of holdings of a private foundation described in paragraph (b)(1)(i) of this section, acquired on or before May 26, 1969, in a business enterprise (with respect to which such foundation has excess business holdings, as determined under § 53.4943–3, on such date) shall be determined in the manner specified in paragraph (b)(5)(i) of this section, except that—

(*a*) The percentage specified in (*a*)(*1*) thereof shall be the percentage of voting power in such enterprise held by the foundation and all disqualified persons (with respect to such foundation) together at the close of the second phase, and

(*b*) The percentage specified in (*b*)(*1*) thereof shall be the percentage of the value of all outstanding shares of all classes of stock in such enterprise held by the foundation and all disqualified persons (with respect to such foundation) together at the close of the second phase.

(ii) *Thirty-five-percent limitation.* If immediately before the close of the second phase the "25-percent limitation" as defined in paragraph (c)(2)(ii) of this section did not apply with respect to a business enterprise, then the permitted holdings described in subdivision (i) of this subparagraph shall not exceed—

(*a*) Thirty-five percent of the voting power in the enterprise, reduced by the percentage of voting power in such enterprise held by all disqualified persons (with respect to such foundation); and, separately,

(*b*) Thirty-five percent of the value of all outstanding shares of all classes of stock in the enterprise, reduced by the percentage of the value of all outstanding shares of all classes of stock in such enterprise held by all disqualified persons (with respect to such foundation).

In no event shall such permitted holdings be less than zero. For purposes of this subparagraph, if the provisions of this subdivision apply with respect to a private foundation, then in no event shall the permitted holdings (described in subdivision (i) of this subparagraph) of such foundaton include more than 25 percent of the voting power or 25 percent of the value of all outstanding shares of all classes of stock in a business enterprise, if, at any time during the third phase, all disqualified persons (with respect to such foundation) together hold (actually or constructively) more than 2 percent of the voting power in such enterprise. The limitations of the preceding sentence shall apply for the period occurring after that day during the third phase on which such disqualified persons together hold more than 2 percent of such voting power. The provisions of this subdivision shall not apply with respect to a private foundation described in paragraph (b)(5)(iii) of this section. For special rules with respect to the disposition of excess business holdings created under this subdivision, solely by reason of acquisitions made by disqualified persons after the second phase, see § 53.4943–2(a)(1).

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). On May 26, 1969, F, a private foundation, has excess business holdings (as determined under § 53.4943–3) in corporation X. A and B, the only disqualified persons with respect to F, own, on such date, 2 shares of voting stock in X representing 2 percent of the voting power in X and 1 percent of the value of all outstanding shares of all classes of stock in X. Under paragraph (b)(1)(i)(*d*) of this section, a disqualified person is deemed the owner of all holdings by F in X for the 10-year period beginning on May 26, 1969. The combined holdings by F, A, and B in X (with respect to stock held on May 26, 1969) at the close of such period and immediately prior to the close of the second phase are 50 percent of the voting power in X and 50 percent of the value of all outstanding shares of all classes of stock in X. Assume that the provisions of paragraph (e) of this section do not apply and that A and B do not acquire any additional interests in X. The permitted holdings by F in X for the period beginning on May 26, 1994, are 33 percent of the voting power in X and 34 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(1)(a) Combined holdings of voting power by F, A, and B in X at close of second phase	50
(b) Maximum allowable combined holdings of voting power by F, A, and B in X for the period beginning on May 26, 1994 (lower of 35 percent or item (a))	35
(c) Percentage of voting power held by A and B	2
(d) Permitted holdings of voting power for the period beginning on May 26, 1994 (item (b) less item (c))	33
(ii)(a) Combined holdings of value by F, A, and B in X at close of second phase	50
(b) Maximum allowable combined holdings of value by F, A, and B in X for the period beginning on May 26, 1994 (lower of 35 percent and item (a))	35
(c) Percentage of value held by A and B	1
(d) Permited holdings of value for the period beginning on May 26, 1994 (item (b) less item (c))	34

Example (2). Assume the facts as stated in Example (1), except that, on March 1, 1996, A and B acquire an additional 4 shares of voting stock in X representing 4 percent of the voting power in X and 2 percent of the value of all outstanding shares of all classes of stock in X. Assume that paragraph (e) of this section does not apply.

(i) The permitted holdings by F in X for the period beginning on May 26, 1994, and ending on February 28, 1996, are 33 percent of the voting power in X and 34 percent of the value of all outstanding shares of all classes of stock in X, determined as provided in Example (1).

(ii) Assume that A and B do not acquire any other additional interests in X. The permitted holdings by F in X for the period beginning on March 1, 1996, are 25 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(a)(1) Maximum allowable combined holdings of voting power by F, A, and B in X for the period beginning on May 26, 1994	35
(2) Percentage of voting power held by A and B on March 1, 1996	6
(3) Item (1) less item (2)	29
(4) Permitted holdings of voting power for the period beginning on March 1, 1996 (lower of 25 percent and item (3))	25
(b)(1) Maximum allowable combined holdings of value by F, A, and B in X for the period beginning on May 26, 1994	35
(2) Percentage of value held by A and B on March 1, 1996	3
(3) Item (1) less (2)	32
(4) Permitted holding of value for the period beginning on March 1, 1996 (lower of 25 percent and item (3))	25

(e) *Effect of decrease in holdings*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph, and subject to the provisions of subparagraph (3) of this paragraph—

(i) If, at any time during the first, second, or third phase, the percentage specified in paragraph (b)(5)(i) (*a*)(*1*) or (*b*)(*1*) of this section decreases for any reason, then for all periods thereafter such decreased percentage shall be substituted for the percentage so specified, and

(ii) The percentage substituted under subdivision (i) of this subparagraph shall not be changed by any subsequent increase in the combined holdings of a private foundation and all disqualified persons (with respect to such foundation) together in a business enterprise.

(2) *One percent de minimis rule; etc.* If, during any taxable year of a private foundation occurring within the first, second, or third phase, there are one or more decreases in the percentage holdings of such foundation and all disqualified persons (with respect to such foundation) as specified in paragraph (b)(5)(i) (*a*)(*1*) or (*b*)(*1*) of this section, and if such decreases are attributable to issuances of stock (or such issuances coupled with redemptions), then, unless the aggregate of such decreases equals or exceeds 1 percent, the determination whether, for purposes of this paragraph, there is a decrease in such percentage holdings shall be made only at the close of such taxable year. If, however, the aggregate of such decreases equals or exceeds 1 percent, then such percentage holdings shall be decreased as each such decrease occurs to the extent of such decrease. In addition, no decrease shall be treated as occurring, for example, solely by reason of the death of a disqualified person if his holdings pass through his estate to a beneficiary who is also a disqualified person.

(3) *Limitation.* In no event shall the percentage substituted under subparagraph (1) of this paragraph be less than 20 percent.

(4) *Special rule for termination of private foundation status under section 507.* If an organization gives the notification described in section 507(b)(1)(B)(ii) of the commencement of a 60-month termination period and fails to terminate for the entire such period, then, only for purposes of sections 4943(c)(4)(A)(ii) and 4946(a)(1)(H), such organization will be treated as a private foundation during such 60-month period. For example, X, a private foundation, gives notification of the commencement of a 60-month termination commencing on January 1, 1972. X and Y, another private foundation, are effectively controlled by the same persons within the meaning of section 4946(a)(1)(H). X and Y hold 20 percent each of the voting power of Z corporation on May 26, 1969. If X meets the requirements of section 509(a)(1), (2), or (3) for the entire 60-month period, section 4946(a)(1)(H) is inapplicable to X, and Y is treated as holding only 20 percent of the Z voting power, at the end of this period. On the other hand, if X meets the requirements of section 509(a)(2) for its taxable years 1972 and 1973, but fails to meet the requirements of section 509(a)(1), (2), or (3) in 1974, 1975, and 1976, then solely for purposes of section 4943(c)(4)(A)(ii) X will be treated as a disqualified person with respect to Y and Y will be treated as a disqualified person with respect to X for taxable years 1972 through 1976 pursuant to section 4946(a)(1)(H). Thus, for purposes of section 4943(c)(4)(A)(ii), the holdings (as of May 26, 1969) of X and Y in Z will not be treated as decreased by reason of the fact that X was attempting to terminate under section 507(b)(1)(B).

(5) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). F, a private foundation, owns, on May 26, 1969, 50 shares of voting stock in corporation X representing 50 percent of the voting power in X and 25 percent of the value of all outstanding shares of all classes of stock in X. A and B, the only disqualified persons with respect to F, together own, on such date, 2 shares of voting stock in X representing 2 percent of the voting power in X and 1 percent of the value of all outstanding shares of all classes of stock in X. In addition, on such date, F owns 30 shares of nonvoting stock in X, representing 30 percent of the value of all outstanding shares of all classes of stock in X, and A and B together own 15 shares of nonvoting stock in X representing 15 percent of the value of all outstanding shares of all classes of stock in X. The provisions of paragraph (b)(1)(i)(*d*) of this section apply with respect to F and, during the 10-year period beginning on May 26, 1969, a disqualified person is deemed to hold all interests of F in X. Assume that on February 1, 1972, F sells to C, an unrelated individual, 12 shares of voting stock in X representing 12 percent of the voting power in X and 6 percent of the value of all outstanding shares of all classes of stock in X.

(i) For the period beginning on May 26, 1969, and ending on January 31, 1972, the permitted holdings of F in X are 48 percent of the voting power in X and 34 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(a)(1) Combined holdings of voting power by F, A, and B on May 26, 1969	52
(2) Lower of 50 percent or item (1)	50
(3) Percentage of voting power held by A and B	2
(4) Permitted holdings of voting power (item (2) less item (3))	48
(b)(1) Combined holdings of value by F, A, and B on May 26, 1969	71
(2) Lower of 50 percent or item (1)	50
(3) Percentage of value held by A and B	16
(4) Permitted holdings of value (item (2) less item (3))	34

(ii) For the period beginning on February 1, 1972, the permitted holdings of F in X are 38 percent of the voting power in X and 34 percent of the value of all outstanding shares of all classes of stock in X, determined as follows:

	Percent
(a)(1) Combined holdings of voting power by F, A, and B on Feb. 1, 1972	40
(2) Lower of 50 percent or item (1)	40
(3) Percentage of voting power held by A and B	2
(4) Permitted holdings of voting power (item (2) less item (3))	38
(b)(1) Combined holdings of value by F, A, and B on Feb. 1, 1972	65
(2) Lower of 50 percent or item (1)	50
(3) Percentage of value held by A and B	16
(4) Permitted holdings of value (item (2) less item (3))	34

Example (2). F, a private foundation on the calendar year basis, holds, on May 26, 1969, 30 percent of the voting power in corporation Y. C and D, the only disqualified persons with respect to F, together hold, on such date, 10 percent of the voting power in Y. Assume that the provisions of paragraph (b)(1)(i)(*d*) apply with respect to F and that C and D are deemed to own all holdings by F in Y for the 10-year period beginning on May 26, 1969. On February 1, 1973, a stock issuance by Y causes the combined holdings of voting power by F, C, and D in Y to decrease by 0.3 percent. On June 1, 1973, another such issuance causes such combined holdings to decrease by 0.5 percent. On September 1, 1973, an unrelated stock redemption by Y causes such combined holdings to increase by 0.4 percent. Under the provisions of subparagraph (2) of this paragraph, the determination whether there is a decrease in the combined holdings of voting power by F, C, and D (as of May 26, 1969) shall not be made before January 1, 1974, since the aggregate of the decreases occurring on February 1 and June 1 of 1973 is less than 1 percent. Therefore, the maximum combined holdings of voting power by F, C, and D for purposes of computing the permitted holdings of voting power by F in Y as of January 1, 1974, are 39.6 percent (i.e., 40 percent—[(0.3 percent+0.5 percent)—0.4 percent]).

Example (3). Assume the facts as stated in Example (2), except that, on October 1, 1973, a stock issuance by Y causes the combined holdings of voting power by F, C, and D in Y to decrease by 0.3 percent. Since the aggregate of the decreases occurring on February 1, June 1, and October 1, of 1973 exceeds 1 percent, the determination whether there is a decrease in the combined holdings of voting power by F, C, and D (as of May 26, 1969) shall be made as each such decrease occurs. Therefore, the maximum combined holdings of voting power by F, C, and D for purposes of computing the permitted holdings of voting power by F in Y as of February 1, 1973, shall be 39.7 percent (i.e., 40 percent—0.3 percent); such maximum combined holdings for purposes of computing such permitted holdings as of June 1, 1973, shall be 39.2 percent (i.e., 39.7 percent—0.5 percent; and such maximum combined holdings for purposes of computing such permitted holdings as of October 1, 1973, shall be the lower of 39.3 percent (i.e., 39.2 percent+0.4 percent—0.3 percent), the actual combined holdings as of October 1, 1973, or 39.2 percent, the lowest combined holdings during 1973. Thus, such maximum combined holdings are 39.2 percent. If the redemption had been related to one or more of the issuances, such maximum would have been 39.3 percent.

(f) *Special rules for corporate readjustments and certain corporate distributions.* (1)(i) If a private foundation, its disqualified persons, or both together have holdings in a corporation to which section 4943(c)(4)(B) applies, stock of a corporation received by the foundation, its disqualified person, or both together

V 38 - 1 JAN 3 73 XUM

in a corporate readjustment (as defined in subparagraph (6) of this paragraph) in exchange for such stock to which section 4943(c)(4)(B) applies shall, except to the extent provided in subparagraph (2) of this paragraph, be treated as the stock surrendered in the exchange for purposes of section 4943(c) (4) or (5).

(ii) If a private foundation, its disqualified persons, or both together have holdings in a corporation to which section 4943(c)(4)(B) applies, stock of a corporation received by the foundation, its disqualified persons, or both together pursuant to a distribution in redemption of stock to which section 302(a) or 331 applies, or a distribution to which section 355 applies, shall, except to the extent provided in subparagraph (3) of this paragraph, be treated as the stock with respect to which the distribution was made for purposes of section 4943(c) (4) or (5).

(2)(i) Except as provided in subdivision (iii) of this subparagraph, if, as the result of an exchange of stock pursuant to a corporate readjustment described in subparagraph (1)(i) of this paragraph, the percentage of voting power of a private foundation, its disqualified persons, or both together in a corporation a party to such readjustment exceeds their percentage of voting power in the corporation the holdings of which were surrendered in the exchange, then—

(*a*) That portion of the stock received in the exchange which represents such excess is to be treated as having been acquired other than by purchase for purposes of, and subject to the provisions of, section 4943(c)(6); and

(*b*) Only the remaining portion of the stock received in the exchange is to be treated as the stock surrendered in the exchange.

(ii) Except as provided in subdivision (iii) of this subparagraph, if, as the result of an exchange of stock pursuant to a corporate readjustment described in subparagraph (1)(i) of this paragraph, the stock received by the private foundation, its disqualified persons, or both together in the exchange represents a greater portion of the fair market value of all classes of the outstanding stock of the issuing corporation than their stock surrendered represented of all classes of the outstanding stock of a corporation a party to such readjustment immediately preceding the exchange, then—

(*a*) That portion of the stock received in the exchange which represents such excess is to be treated as having been acquired other than by purchase for purposes of, and subject to the provisions of, section 4943(c)(6); and

(*b*) Only the remaining portion of the stock received in the exchange is to be treated as the stock surrendered in the exchange.

(iii) If, as the result of an exchange of stock pursuant to a corporate readjustment described in subparagraph (1)(i) of this paragraph, there is an increase in both the percentage of voting power (referred to in subdivision (i) of this subparagraph) and the value ratio (referred to in subdivision (ii) of this subparagraph), then—

(*a*) That portion of the stock received in the exchange which represents the greater excess is to be treated as having been acquired other than by purchase for purposes of, and subject to the provisions of, section 4943(c)(6); and

(*b*) Only the remaining portion of the stock received in the exchange is to be treated as the stock surrendered in the exchange.

(iv) For purposes of this subparagraph, it will be presumed, in the absence of clear evidence to the contrary, that stock received by a private foundation, its disqualified persons, or both together pursuant to a corporate reorganization described in section 368(a)(1) (in which gain is either not recognized or recognized only in part) represents the same proportion of the fair market value of all classes of the outstanding stock of the issuing corporation that their stock surrendered represented of all classes of the outstanding stock of a corporation a party to the reorganization immediately preceding the exchange.

(3)(i) Except as provided in subdivision (iii) of this subparagraph, if, as the result of a distribution of stock described in subparagraph (1)(ii) of this paragraph, the percentage of voting power of a private foundation, its disqualified persons, or both together in the corporation the stock of which was so distributed exceeds their percentage of voting power in the distributor corporation, then—

(*a*) That portion of the stock distributed which represents such excess is to be treated as having been acquired other than by purchase for purposes of, and subject to the provisions of, section 4943(c)(6); and

(*b*) Only the remaining portion of the stock distributed is to be treated as the stock with respect to which the distribution was made.

(ii) Except as provided in subdivision (iii) of this subparagraph, if, as the result of a distribution of stock described in subparagraph (1)(ii) of this paragraph, the stock held by the private foundation, its disqualified persons, or both together in both the issuing and distributor corporations represents, immediately after such distribution, a greater proportion of the fair market value of all classes of such corporations' outstanding stock than their stock with respect to which such distribution was made represented, immediately prior to such distribution, of all classes of the distributor corporation's outstanding stock, then—

(*a*) That portion of the stock held by such persons, immediately after such distribution, in both the distributor and issuing corporations which represents such excess is to be treated as having been acquired other than by purchase for purposes of, and subject to the provisions of, section 4943(c)(6); and

(*b*) Only the remaining portion of the stock so held is to be treated as the stock with respect to which the distribution was made.

(iii) If, as the result of a distribution of stock described in subparagraph (1)(ii) of this paragraph, there is an increase in both the percentage of voting power (referred to in subdivision (i) of this subparagraph) and the value ratio (referred to in subdivision (ii) of this subparagraph), then—

(*a*) That portion of the stock distributed (or held, immediately after the distribution, in both the distributor and issuing corporations) which represents the greater excess is to be treated as having been acquired other than by purchase for purposes of, and subject to the provisions of, section 4943(c)(6); and

(*b*) Only the remaining portion of the stock distributed (or so held) is to be treated as the stock with respect to which the distribution was made.

(4) If, as a result of an exchange of stock described in subparagraph (1)(i) of this paragraph or a distribution of stock described in subparagraph (1)(ii) of this paragraph, the percentage of voting power referred to in subparagraph (2)(i) or (3)(i) of this paragraph or the value ratio referred to in subparagraph (2)(ii) or (3)(ii) of this paragraph is reduced, then such reduction in voting power or value ratio shall be subject to the provisions of section 4943(c)(4)(A)(ii).

(5) If stock received in an exchange described in subparagraph (1)(i) of this paragraph (or received or held pursuant to a distribution described in subparagraph (1)(ii) of this paragraph) is, for purposes of section 4943(c) (4) or (5), treated as the stock surrendered in such exchange (or the stock with respect to which such distribution was made), the stock received (or received or held) shall be treated in accordance with the rules of section 4943(c)(4) for the shortest first and second phase periods which would have applied to the stock surrendered in the exchange (or the stock with respect to which the distribution was made) determined as if such exchange (or such distribution) had never occurred.

(6) For purposes of this paragraph, the term "corporate readjustment" includes, but is not limited to:

(i) A merger or consolidation;

(ii) The acquisition by one corporation in exchange for all or a part of its stock of stock or assets of another corporation;

(iii) A recapitalization; or

(iv) A change in identity, form, or place or organization, however effected.

(7) For special rules relating to the determination whether a corporation constructively owns an interest in another business enterprise for such corporation's shareholders, see § 53.4943–7(c)(1)(i).

(8) The provisions of this paragraph may be illustrated by the following examples:

Example (1). (i) K, a private foundation, owns 50 percent of the one class of outstanding stock in A corporation which it has held continuously since June 1, 1935. No disqualified person with respect to K owns any stock in A. Neither K nor any disqualified person with respect to K owns any stock in B corporation. On July 1, 1972, A and B enter into an agreement to consolidate their businesses in a reorganization to which section 368(a)(1)(A) will apply. As a result of the contemplated consolidation, K will own 60 percent of the voting stock in C, the resulting corporation. In addition, parties unrelated to K will own the remaining 40 percent of the C voting stock and 100 percent of a new issue of nonvoting preferred stock in C. Assume, for purposes of subparagraph (2)(iv) of this paragraph, that there is no clear evidence that the 60 percent of the voting stock to be held by K in C will represent a greater proportion of the fair market value of the outstanding C stock than the 50 percent of A stock held by K on May 26, 1969, represents of the outstanding A stock.

(ii) Under the provisions of subparagraph (2)(i) of this paragraph, that portion of the C voting stock to be held by K which will represent a percentage of voting power equivalent to that held by F in A immediately prior to the consolidation (i.e., 50 percent) will be treated as the A stock held by K on May 26, 1969, for purposes of section 4943(c)(4). The remaining portion of the C voting stock to be held by K (i.e., 10 percent) will be subject to the provisions of section 4943(c)(6).

Example (2). (i) F, a private foundation, owns 60 percent of the one class of outstanding stock in D corporation, which it has held continuously since April 15, 1958. No disqualified person with respect to F owns any stock in D. The 60 percent of D stock held by F has a fair market value of $3 million. The fair market value of all of the outstanding stock in D is $5 million. On May 1, 1972, D, pursuant to a recapitalization under section 368(a)(1)(E), converts its one class of outstanding stock into two classes, voting common and nonvoting preferred. As a result of the recapitalization, F, in exchange for the D stock held on May 26, 1969, receives 20 percent of D voting stock with a fair market value of $400,000, and 100 percent of D nonvoting preferred stock with a fair market value of $3 million. The fair market value of all of the outstanding stock in D immediately after the recapitalization remains $5 million.

(ii) Except as provided in (iii) of this example, the D stock received by F in the exchange shall, under subparagraph (1)(i) of this paragraph, be treated as the D stock held by F on May 26, 1969, for purposes of section 4943(c)(4). However, since, as a result of the exchange, the percentage of voting power held by F in D has been reduced from 60 percent to 20 percent, such reduction shall, under subparagraph (4) of this paragraph, be subject to the provisions of section 4943(c)(4)(A)(ii) and paragraph (e) of this section.

(iii) As a result of the exchange, the D stock received by F represents a greater proportion of the fair market value of both classes of the outstanding stock in D than the D stock surrendered by F represented of the one class of outstanding stock in D immediately preceding the exchange. In other words, immediately preceding the exchange, the ratio of the value of all D stock held by F (i.e., $3 million) to the value of all of the outstanding stock in D (i.e., $5 million) was 3:5; immediately after the exchange, the ratio of the value of all D stock held by F (i.e., $400,000 plus $3 million equal $3.4 million) to the value of all of the outstanding stock in D (i.e., $5 million) is 3.4:5. Accordingly, under subparagraph (2)(ii)(*a*) of this paragraph, an amount of D stock held by F immediately after the exchange representing such increase in value (i.e., $400,000) shall not be treated as the D stock held by F on May 26, 1969, for purposes of section 4943(c)(4), but shall, instead, be subject to the provisions of section 4943(c)(6) and treated as held by a disqualified person for the 5-year period beginning on May 1, 1972. The presumption contained in subparagraph (2)(iv) of this paragraph is overruled by the presence of clear evidence to the contrary.

Example (3). (i) F, a private foundation, owns 50 percent of the one class of outstanding stock in C corporation, which it has held continuously since January 1, 1960. No disqualified person with respect to F owns any stock in C. In addition, C owns 60 percent of the voting stock in D corporation. On July 1, 1972, the full amount of the D voting stock held by C is distributed to F in complete liquidation of C. Assume that the D voting stock received by F represents the same proportion of the fair market value of all classes of the outstanding stock of D that the C stock held by F represented of all of C's outstanding stock.

(ii) Under subparagraph (3)(i) of this paragraph, that portion of the D voting stock received by F which represents a percentage of voting power equivalent to that held by F in C immediately prior to the distribution (i.e., 50 percent) is treated as the C stock held by F on May 26, 1969, for purposes of section 4943(c)(4). The remaining portion of the D voting stock received by F (i.e., 10 percent) is subject to the provisions of section 4943(c)(6) and is treated as held by a disqualified person for the 5-year period beginning on July 1, 1972.

(g) *Special rule for entities which become private foundations subsequent to May 26, 1969.* (1) The present holdings rules set forth in section 4943(c)(4) and this section are applicable to a private foundation even though such foundation was neither a private foundation, as defined in section 509(a), nor treated as such under section 4947(a)(1), on May 26, 1969: *Provided*, That on such date, such entity was in existence and, together with all disqualified persons, held more than 20 percent of the voting power in the business enterprise.

(2) The provisions of this paragraph may be illustrated by the following example:

Example. A, a nonprofit research organization described in section 501(c)(3), was organized in 1966. On May 26, 1969, A held 50 percent of the stock of corporation B. For its taxable years 1970, 1971, and 1972, A is classified as an organization described in section 509(a)(2). However, for 1973 and subsequent years, A fails to satisfy the gross investment income limitation of section 509(a)(2)(B), and is thus classified as a private foundation. In determining the period within which A must dispose of stock of B held by it on May 26, 1969, section 4943(c)(4) shall apply.

(h) *Special rule for nonvoting stock.* (1) In no event shall the provisions of section 4943(c)(4)(A)(iii) and this section require a disposition of nonvoting stock by a private foundation where no such disposition would be required under § 53.4943–3(b)(2). However, in order for a foundation to retain certain voting stock and at the same time satisfy the provisions of section 4943(c)(4)(A)(iii) and this section, it may be necessary for such foundation, at its election, to dispose of, or cause the disposition of certain nonvoting stock.

(2) The provisions of this paragraph may be illustrated by the following example:

Example. (i) F, a private foundation, owns, on May 26, 1969, 40 shares of voting stock in corporation X representing 40 percent of the voting power in X and 20 percent of the value of all outstanding shares of all classes of stock in X, and owns, on such date, 60 shares of nonvoting stock in X, representing 30 percent of the value of all outstanding shares of all classes of stock in X. A, the only disqualified person with respect to F, owns, on such date, 10 shares of voting stock in X, representing 10 percent of the voting power in X and 5 percent of the value of all outstanding shares of all classes of stock in X. Under paragraph (b)(1)(i)(*d*) of this section, a disqualified person is deemed the owner of all holdings by F in X for the 10-year period beginning on May 26, 1969. Assume that there are no acquisitions of X stock (by purchase or otherwise) by either F or A after May 26, 1969, and that the provisions of paragraph (e) of this section do not apply.

(ii) On May 26, 1979 (i.e., the beginning of the second phase), the permitted holdings of F in X are 25 percent of the voting power and 25 percent of the value of all outstanding shares of all classes of stock, since, under paragraph (c)(2)(ii) of this section, A holds in excess of 2 percent of the voting power in X on such date. Nevertheless, F may retain its full 60 shares of nonvoting stock in X, since, under § 53.4943–3(b)(2), A holds less than 20 percent of the voting power in X. However, in order to retain its full permitted holdings of 25 shares of X voting stock (representing 25 percent of X voting power), F may wish to dispose of 35 shares of X nonvoting stock, so that the value of its retained voting shares (i.e., 12.5 percent) plus the value of its remaining 25 nonvoting shares (i.e., 12.5 percent) will be equivalent to its permitted holdings of 25 percent of value in X (i.e., 12.5 percent plus 12.5 percent equal 25 percent).

§ 53.4943–5 Present holdings acquired by trust or will.

(a) *Holdings acquired by trust or will.* Under section 4943(c)(5), if any interest in a business enterprise is actually or constructively acquired by a private foundation under the terms of a trust which was irrevocable on May 26, 1969, or under the terms of a will executed on or before May 26, 1969, which are in effect on May 26, 1969, and at all times thereafter, section 4943(c)(4) (other than section 4943(c)(4)(B)(i)) shall apply to such interest as if it were held by the foundation on May 26, 1969. See section 4943(d)(1) and the regulations thereunder for rules relating to constructive ownership with respect to certain estates and trusts. The interest acquired by the private foundation under the terms of such trust or will shall be considered held by disqualified persons (and not the private foundation) under section 4943(c)(4)(B) on the first date on which the foundation is considered to constructively own such interest under section 4943(d)(1). However, the first phase described in clause (ii) or (iii) of section 4943(c)(4)(B) with respect to the business interest acquired by a private foundation under the terms of such trust or will does not commence until the date on which actual distribution of such interest occurs under the terms of such trust or will in lieu of May 26, 1969. Thus, if a foundation acquires 50 percent of the voting stock in a taxable cor-

V 38 1 JAN 3 73 XUM

poration on January 4, 1973, under the terms of a will executed before May 26, 1969, and such terms are in effect at all times thereafter, the 10-year first phase with respect to such stock begins on January 4, 1973. The date of distribution of an interest in a business enterprise received under the terms of a will or trust shall be deemed to occur no later than the date on which the estate or trust is considered to be terminated under § 1.641(b)–3.

(b) *Modification of will.* For purposes of section 4943(c)(5) and paragraph (a) of this section, an amendment or republication of a will which was executed on or before May 26, 1969, does not prevent any interest in a business enterprise which was to pass under the terms (which were in effect on May 26, 1969, and at all times thereafter) of such will from being treated as a present holding under section 4943(c)(4) or (5) solely because there is a reduction in the interest in the business enterprise which the foundation was to receive under the terms of the will (for example, if the foundation is to receive the residuary estate, and if one class of stock is disposed of by the decedent during his lifetime or by a subsequent codicil), solely because such amendment or republication is necessary in order to comply with section 508(e) and the regulations thereunder, solely because there is a change in the executor of the will, or solely because of any other change which does not otherwise change the rights of the foundation with respect to such interest in the business enterprise. However, if under such amendment or republication there is an increase in the interest in the business enterprise which the foundation was to receive under the terms of the will in effect on May 26, 1969, such increase shall not be treated as present holdings under section 4943(c)(4) or (5), but under such circumstances the interest which would have been acquired before such increase shall remain present holdings. See section 4943(c)(6) and the regulations thereunder with respect to the treatment of such increase in holdings of a private foundation.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). On April 1, 1973, A, an individual, dies and bequeaths 55 shares of the voting stock in X corporation to the Z foundation pursuant to a will which was in effect on May 26, 1969. Such 55 shares represent 55 percent of the voting power and 55 percent of the value of all outstanding shares of all classes of stock in X. On June 5, 1975, A's estate distributes the X shares to Z. Under section 4943(d)(1), Z is considered to be the constructive owner of the X stock on April 1, 1973. However, under paragraph (a) of this section, the provisions of section 4943(c)(5) apply and the X stock constructively held by Z is considered to be present holdings. The 10-year first phase does not begin until June 5, 1975, the date on which the X stock is distributed to Z by A's estate.

Example (2). On May 9, 1985, A modifies by codicil his will which was in effect on May 26, 1969, and was unchanged until such modification. The purpose of the codicil was the event of A's death would pass to the W foundation from 70 percent of all the voting power and value to 80 percent. Under these facts, if A dies without further modifying the terms of the will which apply to W's interest in X, section 4943(c)(5) will apply to 70 percent of the X voting power and value and section 4943(c)(6) will apply to 10 percent of the X voting power and value since 10 percent of the X voting power and value would not pass under a provision of the will which was in effect on May 26, 1969, and at all times thereafter. Accordingly, if the stock is distributed to W on July 6, 1988, then an amount of such stock representing 70 percent of X voting power and value shall be deemed to be held by a disqualified person until July 6, 1998, and an amount of such stock representing 10 percent of X voting power and value shall be deemed to be held by a disqualified person until July 6, 1993.

Example (3). Assume the facts as stated in Example (2), except that the sole purpose of the codicil was to change the executor of the will. Under paragraph (b) of this section, such codicil will not prevent the X voting stock which was bequeathed to W from being treated as present holdings of W under section 4943(c)(4) or (5).

§ 53.4943–6 Five-year period to dispose of gifts, bequests, etc.

(a) *In general.* (1) Except as provided in section 4943(c)(5) and the regulations thereunder (relating to certain holdings acquired by trust or will), and except as provided in paragraph (c) of this section, if, after May 26, 1969, there is a change in the holdings in a business enterprise (other than by purchase by the private foundation or by a disqualified person) which causes the private foundation to have—

(i) Excess business holdings in such enterprise, or

(ii) An increase in excess business holdings in such enterprise (determined without regard to subdivision (i) of this subparagraph),

the interest of the foundation in such enterprise (determined immediately after such change) is (while actually held by the foundation) treated as held by a disqualified person (rather than by the the foundation) during the 5-year period beginning on the date of such change in holdings, except that if subdivision (ii) of this subparagraph applies the excess holdings immediately preceding the increase is not treated under this section, solely because of such increase, as held by a disqualified person (rather than by the foundation).

(2) For purposes of subparagraph (1) of this paragraph, the term "purchase" shall not include any acquisition by gift, devise, bequest, legacy, or similar transfer, nor shall such term include any acquisition received pursuant to a corporate readjustment or distribution described in § 53.4943–4(f) if, with respect to such acquisition—

(i) Section 53.4943–4(f)(2)(i)(*a*) or (ii)(*a*), or § 53.4943–4(f)(3)(i)(*a*) or (ii)(*a*) applies, and

(ii) The transitional rules of section 4943(c)(4) or (5) do not apply.

(b) *Special rule for acquisition by will or trust.* For purposes of section 4943(c)(6), the acquisition of holdings in a business enterprise by a private foundation pursuant to the terms of a will or trust (other than one described in section 4943(c)(5)) is not considered to be a purchase by the foundation or a disqualified person. Consequently, such business holdings are treated as held by a disqualified person under section 4943(c)(6). However, the 5-year period described in section 4943(c)(6) shall not commence until the date on which distribution of such holdings from the estate or trust to the foundation occurs. See § 53.4943–5(a) for rules relating to the determination of the date of distribution under the terms of a will or trust. See § 53.4943–7 for rules relating to the constructive ownership by a private foundation of business holdings held in an estate or trust for the foundation.

(c) *Exception.* With respect to any transfer of holdings in a business enterprise by one private foundation to another private foundation which is related to the first foundation within the meaning of section 4946(a)(1)(H), no 5-year grace period commencing with the date of transfer shall apply to the transferee by reason of section 4943(c)(6) or this section.

(d) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). On January 4, 1985, A, an individual, makes a contribution to F, a private foundation, of 200 shares of X Corporation common stock. Assume that under section 4943(c)(1) the receipt of the X stock by F causes the 200 shares of the X stock to be classified as excess business holdings. However, since the contribution of the X stock to F is a gift and not a purchase, under paragraph (a) of this section the X stock in F's hands is treated as held by disqualified persons and not by F until January 4, 1990.

Example (2). Assume the facts as stated in Example (1) except that F receives the X stock as a bequest pursuant to the terms of A's will executed on April 1, 1980. A dies on June 3, 1984, and the stock is distributed to F on February 16, 1985. As in Example (1), the bequest of the X stock to F is not a purchase under paragraph (a) of this section. Consequently, the X stock in F's hands is treated as held by disqualified persons and not by F until February 16, 1990.

Example (3). (i) C, a corporation, has one class of stock with 100,000 shares outstanding. As of May 26, 1969, the ownership of C is distributed in the following manner: F, a private foundation, owns 50,000 shares; X and Y, unrelated third parties, each owns 25,000 shares. On March 15, 1972, following X's death, 20,000 of the 25,000 shares in X's estate are redeemed under section 303 by C, leaving 80,000 shares outstanding. On April 15, 1973, following Y's death, 5,000 of the 25,000 shares in Y's estate are redeemed under section 303 by C, leaving 75,000 shares outstanding.

(ii) The effect of the redemption of the 20,000 shares from X's estate is to increase F's percentage of voting power from 50 percent (50,000/100,000) to 62.5 percent (50,000/80,000). The increase of 12.5 percent (62.5 percent to 50 percent) is represented by 10,000 shares (12.5 percent of 80,000). Accordingly, prior to April 15, 1973, under paragraph (a)(1) of this section, the 10,000 shares will be treated as held by a disqualified person for the 5-year period beginning on March 15, 1972, and the other 40,000 shares (50 percent of 80,000) would represent the interest held by F on May 26, 1969.

(iii) However, the effect of the redemption of the 5,000 shares from Y's estate is to increase F's percentage of voting power from 62.5 percent to 66.667 percent (50,000/75,000). The increase of 4.167 percent (66.667%—62.500%) is represented by 3,125 shares (4.167 percent of 75,000). Accordingly, under paragraph (a)(1) of this section the 3,125 shares will be treated as held by a disqualified person for the 5-year period beginning on April 15, 1973. Similarly, 9,375 shares (12.5 percent of 75,000) will be treated as held by a disqualified person for the 5-year period beginning on March 15, 1972, and 37,500 shares (50 percent of 75,000) would represent the interest held by F on May 26, 1969.

§ 53.4943–7 Business holdings; constructive ownership.

(a) *In general.* For purposes of section 4943, section 4943(d)(1) provides that an interest in a business enterprise owned by either a private foundation or a disqualified person (as defined in section 4946) includes stock or another interest in a business enterprise constructively owned by such persons under the rules set forth in such section. Constructive ownership rules are established for partnerships and their partners, estates and their beneficiaries, trusts and their beneficiaries, and corporations and their stockholders. See paragraph (c) of this section. If any person has an option to acquire stock, such stock is not considered as owned by such person until the stock is received upon the exercise of such option.

(b) *Estates and Trusts*—(1) *Estates.* For purposes of applying section 4943(d)(1) to estates, property of a decedent shall be considered as owned by his estate if such property is subject to administration by the executor or administrator for the purpose of paying claims against the estate and expenses of administration notwithstanding that, under local law, property vests in the decedent's heirs, legatees or devisees immediately upon death. The term "beneficiary" includes any person (including a private foundation) entitled to receive property of a decedent pursuant to a will or pursuant to laws of descent and distribution. A person shall no longer be considered a beneficiary of an estate when all the property to which he is entitled has been received by him, when he no longer has a claim against the estate arising out of having been a beneficiary, and when there is only a remote possibility that it will be necessary for the estate to seek the return of property or seek payment from him by contribution or otherwise to satisfy claims against the estate or expenses of administration. When, pursuant to the preceding sentence, a person (including a private foundation) ceases to be a beneficiary, stock or another interest in a business enterprise owned by the estate shall not thereafter be considered owned by such person. If any person is the constructive owner of an interest in a business enterprise actually held by an estate, the date of death of the testator or decedent intestate shall be the first day on which such person shall be considered a constructive owner of such interest. See § 53.4943–5 for the rules relating to wills executed on or before May 26, 1969. Where there is a court contest over an interest in a business enterprise between the foundation and persons who are beneficiaries of the estate either under the will (or any prior wills) or under the laws of descent and distribution, the will shall not be considered to take effect until the date on which such contest is settled.

(2) *Trusts.* (i) Except as provided in subdivisions (ii) and (iii) of this subparagraph, any interest in a business enterprise owned by a trust will be considered as being owned by its remainder beneficiaries. Thus, if a trust owns 100 percent of the stock of corporation A, and if, on an actuarial basis, W's life interest in the trust is 15 percent, Y's life interest is 25 percent, and Z's remainder interest is 60 percent, under this subdivision Z will be considered to be the owner of 100 percent of the stock of corporation A.

(ii) In the case of an interest in a business enterprise which was transferred to a trust described in section 4947(a)(2) after May 26, 1969, for the benefit of a private foundation, no portion of such interest shall be considered as owned by the private foundation—

(*a*) If the foundation holds only an income interest in the trust, or

(*b*) If the foundation holds only a remainder interest in the trust (unless the foundation can exercise primary investment discretion with respect to such interest.

until all intervening interests in the trust expire. For the rules with respect to split-interest trusts which are subject to section 4943, and for the definition of "income interest" and "remainder interest," see sections 4947(a)(2) and (b)(3) and the regulations thereunder.

(iii) *Amounts transferred in trust on or before May 26, 1969.* In the case of an interest in a business enterprise which was transferred to a trust described in section 4947(a)(2) (without regard to section 4947(a)(2)(C)) on or before May 26, 1969, for the benefit of a private foundation, no portion of such interest shall be considered as owned by the foundation until it is actually distributed to the foundation or until the trust ceases to be so described, except as provided in section 4943(c)(5) and § 53.4943–5.

(c) *Application of rules*—(1) *In general.* For purposes of section 4943—

(i) (*a*) *In general.* Any interest in any business enterprise owned by a corporation which is not actively engaged in a trade or business shall be deemed to be constructively owned by such corporation's shareholders. Thus, for example, if a passive holding company owns an interest in another business enterprise, such interest shall be deemed to be constructively owned by the shareholders of such holding company. However, except as provided in (*b*) of this subdivision, any interest owned by a corporation which is actively engaged in a trade or business shall not be deemed to be constructively owned by such corporation's shareholders.

(*b*) *Special rules.* For purposes of (*a*) of this subdivision—

(*1*) In the case of a corporation which both owns passive holdings and is actively engaged in a trade or business, such corporation shall not be considered to be actively engaged in a trade or business if the assets used in such trade or business are insubstantial when compared to such passive holdings;

(*2*) Any interest owned by a corporation which is actively engaged in a trade or business in a second corporation which is also actively engaged in a trade or business shall be deemed to be owned by such first corporation's shareholders if the assets used in such first corporation's trade or business are insubstantial when compared to the assets used in the second corporation's trade or business;

(*3*) Any assets acquired by a corporation which is actively engaged in a trade or business shall be deemed to be owned by such corporation's shareholders if the assets used in such corporation's trade or business prior to such acquisition are insubstantial when compared to the assets used in such corporation's trade or business after such acquisition;

(*4*) Any interest owned by a corporation which is used as a device to acquire or retain excess business holdings shall be treated as constructively owned by its shareholders, whether or not such corporation is actively engaged in a trade or business. For example, if a foundation—shareholder of a corporation makes a contribution to the capital of such corporation, and as a direct result of such contribution such corporation acquires an interest in a second corporation as a device to acquire indirectly or to retain excess business holdings, then such interest so acquired shall be deemed owned by the foundation; and

(*5*) In the case of a corporate readjustment or distribution described in § 53.4943–4(f) pursuant to which a private foundation, its disqualified persons, or both together acquire an interest in a corporation other than one in which such private foundation, its disqualified persons, or both together held an interest prior to such readjustment or distribution, rules similar to those set forth in this subdivision (*b*) shall apply with respect to such newly acquired interest. Thus, for example, if any interest is owned or acquired by a corporation a party to such a reorganization or distribution which corporation is used as a device to acquire or retain excess business holdings, such interest shall be treated as owned by its shareholders, whether or not such corporation is actively engaged in a trade or business, and whether or not a corporation owning such corporation is actively engaged in a trade or business.

(ii) In determining whether a partnership constructively owns an interest in another business enterprise for the partners in such partnership, any interest in any business enterprise, which interest is owned by such partnership, shall be deemed to be constructively owned by such partners.

V38-1 JAN 3 73 XUM

(iii) In determining whether an estate in which a private foundation, disqualified person, corporation, trust, or estate is a beneficiary owns an interest in a business enterprise for such persons, any interest in such enterprise actually or constructively held by the estate is considered constructively held for such persons. In addition, in determining whether a trust in which a private foundation, disqualified person, corporation, trust, or estate is a beneficiary constructively owns an interest in a business enterprise for such persons, any interest in such enterprise actually or constructively held by the trust is considered constructively held for such persons.

(iv) In applying section 4943(d)(1), any interest in a business enterprise actually or constructively owned by a shareholder of a corporation, a partner of a partnership, or a beneficiary of an estate or trust is not considered constructively held by the corporation, partnership, trust or estate.

(2) *Determination of extent of constructive ownership.* If an interest in a business enterprise owned by a corporation or partnership is considered constructively owned by a stockholder or partner, the interest shall be considered constructively held only to the extent of such person's ownership in the corporation or partnership. Accordingly, in the case of an interest in a business enterprise considered constructively held by a corporation for one of its shareholders, the shareholder's proportionate interest in the business enterprise is computed on the basis of the voting power he has in the corporation.

(d) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). P, a private foundation, owns 90 percent of the voting stock in X corporation, a passive holding company. X owns 50 percent of the voting stock in Y corporation, an active business enterprise. Since X actually owns 50 percent of the voting stock in Y and since P actually owns 90 percent of the voting stock in X, for purposes of section 4943 P is considered to own constructively 45 percent of the voting stock in Y (90 percent of 50 percent).

Example (2). Assume the facts as stated in Example (1) except that Y is also a passive holding company which owns 100 percent of the voting stock in two corporations, V and W, both of which are active business enterprises. Since P constructively owns 45 percent of the voting stock in Y, P is also considered to hold constructively 45 percent of the voting stock in V and W (45 percent of 100 percent).

Example (3). F, a private foundation, and C, a private foundation which is effectively controlled by F within the meaning of section 4946(a)(1)(H), are both beneficiaries of a trust. F actually owns 40 percent of the voting stock of X corporation. Under paragraph (c)(1)(iv) of this section, the X stock held by F is not considered constructively held by the trust. Consequently, C is not considered to own constructively any stock in X by virtue of F's being a beneficiary of the trust.

Example (4). On May 26, 1969, P, a private foundation, actually owns 100 percent of the voting stock in X corporation, a passive holding company. X actually owns 50 percent of the voting stock in Y corporation. The other 50 percent of the voting stock in Y on such date is held by a trust. A, a disqualified person with respect to P, has 50 percent of the remainder interest in the trust. Under paragraph (c)(1)(i) of this section, P is considered to own constructively 50 percent of the stock in Y (100 percent interest in X times X's 50 percent interest in Y). In addition, under paragraph (c)(1)(iii) of this section, A is considered to own 25 percent of the stock in Y corporation (A's 50 percent remainder interest in the trust times the 50 percent interest in Y actually held by the trust). Consequently, under section 4943(c)(4)(A)(i), P and A together have 75 percent of the voting stock in Y.

Example (5). F, a private foundation, owns 100 percent of the voting stock in X corporation, which is actively engaged in the manufacture and distribution of childrens' shoes. The value of X's shoe manufacturing business is $1.8 million. F makes a contribution of $2 million to the capital of X to enable X to acquire Y, a corporation actively engaged in the manufacture of refrigerators. On January 5, 1973, as a direct result of F's contribution to X's capital, X acquires 100 percent of the voting stock in Y. Accordingly, under paragraph (c)(1)(b)(4) of this section, as of such date F is considered to own constructively 100 percent of the voting stock in Y for purposes of section 4943.

Example (6). Assume the facts as stated in example (5), and assume further that X distributes its shoes through both subsidiaries and franchised distributors. In order to retain its position in the market, X decides to acquire a failing franchised distributor. However, F had received so much of X's income in the form of dividends that X does not have sufficient capital to acquire the distributor. F's contribution to the capital of X in order for X to acquire the distributor is not a device by which F is acquiring excess business holdings, and F will not constructively own the distributorship.

Example (7). F, a private foundation, on May 26, 1969, holds 100 percent of the only class of stock of M, a corporation engaged in an active business. In order to acquire control of a business engaged in by N, which is owned by unrelated third persons, F makes a large contribution to the capital of M. M merges into N and F acquires 90 percent of the control of N, as a result of such contribution to M. If it is determined that M was used as a device to acquire the business engaged in by N, then, under paragraph (c)(1)(b)(5) of this section, F's interest in such business shall be deemed owned directly by F, and shall not be treated as an interest held by F on May 26, 1969.

§ 53.4943–8 Business holdings; certain periods.

(a) *Taxable period*—(1) *In general.* For purposes of section 4943, the term "taxable period" means, with respect to any excess business holdings of a private foundation in a business enterprise, the period beginning with the first day on which there are such excess business holdings and ending on whichever of the following is the earlier:

(i) The date of mailing of a notice of deficiency under section 6212 with respect to the tax imposed on such holdings by section 4943(a); or

(ii) The date on which such excess is eliminated.

For example, M, a private foundation, first has excess business holdings in X, a corporation, on February 5, 1972. A notice of deficiency is mailed under section 6212 to M on June 1, 1974. With respect to M's excess business holdings in X, the taxable period begins on February 5, 1972, and ends on June 1, 1974.

(2) *Special rule.* Where a notice of deficiency referred to in subparagraph (1)(i) of this paragraph is not mailed because there is a waiver of the restrictions on assessment and collection of a deficiency, or because the deficiency is paid, the date of filing of the waiver or the date of such payment, respectively, shall be treated as the end of the taxable period.

(b) *Correction period*—(1) *In general.* For purposes of section 4943, the correction period shall begin with the first day on which the private foundation has excess business holdings in a business enterprise and end 90 days after the date of mailing of a notice of deficiency under section 6212 with respect to the tax imposed by section 4943(b).

(2) *Extentions of correction period.* (i) The correction period referred to in subparagraph (1) of this paragraph shall be extended by any period in which a deficiency cannot be assessed under section 6213(a). In addition, the correction period shall be extended in accordance with subdivisions (ii), (iii), and (iv) of this subparagraph, except that such subdivision (iii) or (iv) shall not operate to extend a correction period with respect to which a taxpayer has filed a petition with the Tax Court for redetermination of a deficiency within the time prescribed by section 6213(a).

(ii) The correction period referred to in subparagraph (1) of this paragraph may be extended by any period which the Commissioner determines is reasonable and necessary to permit orderly disposition of excess business holdings. The Commissioner ordinarily will not extend the correction period pursuant to this subdivision unless the following factors are present:

(*a*) The foundation or an appropriate State officer (as defined in section 6104(c)(2)) is actively in good faith seeking to dispose of such holdings;

(*b*) Orderly disposition of such holdings cannot reasonably be expected to result during the unextended correction period; and

(*c*) The failure to divest appears to have been an isolated occurrence which is unlikely to recur in the future.

(iii) If, within the unextended correction period, the tax imposed by section 4943(a) is paid and is accompanied by a statement of the taxpayer's intent to file a claim for refund with respect to such tax, then the Commissioner shall extend the correction period to the later of—

(*a*) A period of 90 days after the payment of such tax, or

(*b*) The period determined without regard to this subdivision.

(iv) If prior to the expiration of the correction period (including extensions) a claim for refund with respect to a tax imposed by section 4943(a) is filed, the Commissioner shall extend the correction period during the pendency of the

claim plus an additional 90 days. If within such time, a suit or proceeding referred to in section 7422(b) with respect to such claim is filed, the Commissioner shall extend the correction period during the pendency of such suit or proceeding. (See § 301.7422–1(d) of this chapter (Regulations on Procedure and Administration) for rules relating to pendency of such suit or proceeding.)

(c) *Correction.* For purposes of section 4943, correction shall be considered as made when no interest in the enterprise held by the foundation is classified as excess business holdings under section 4943(c)(1). In any case where the private foundation has excess business holdings which are constructively held for it under section 4943(c)(1), correction shall be considered made when the person which constructively holds such interest for the foundation or the foundation itself disposes of a sufficient interest in the enterprise (or in such person) so that no interest in the enterprise held by the foundation is classified as excess business holdings under section 4943(c)(1).

§ 53.4943–9 Business enterprise; definition.

(a) *In general.* Except as provided in paragraph (b) or (c) of this section, under section 4943(d)(4) the term "business enterprise" includes the active conduct of a trade or business, including any activity which is carried on for the production of income from the sale of goods or the performance of services and which constitutes an unrelated trade or business under section 513. For purposes of the preceding sentence, where an activity carried on for profit constitutes an unrelated trade or business, no part of such trade or business shall be excluded from such classification merely because it does not result in a profit.

(b) *Certain program-related activities.* For purposes of section 4943(d)(4) the term "business enterprise" does not include a functionally related business as defined in section 4942(j)(5). See § 53.4942(a)–2(c)(3)(iii). In addition, business holdings do not include program-related investments (such as investments in small businesses in central cities or in corporations to assist in neighborhood renovation) as defined in section 4944(c) and the regulations thereunder.

(c) *Income derived from passive sources.* For purposes of section 4943(d)(4), the term "business enterprise" does not include a trade or business at least 95 percent of the gross income of which is derived from passive sources: *Provided,* That in determining whether a trade or business in which a foundation has an interest has gross income from passive sources for any taxable year, such foundation may average the gross income on the basis of the 10 taxable years immediately preceding the taxable year in question or such shorter period of time as the entity has been in existence. Gross income from passive sources for purposes of this paragraph includes the items excluded by sections 512(b)(1) (relating to dividends, interest, and annuities), 512(b)(2) (relating to royalties), 512(b)(3)(A) (relating to rent, and 512(b)(5)) (relating to gains or losses from the disposition of certain property). Any income classified as passive under this paragraph does not lose its character merely because section 512(b)(4) or 514 (relating to unrelated debt-financed income) applies to such income. In addition, income from passive sources includes income from the sale of goods (including charges or costs passed on at cost to purchasers of such goods or income received in settlement of a dispute concerning or in lieu of the exercise of the right to sell such goods) if the seller does not manufacture, produce, physically receive or deliver, negotiate sales of, or maintain inventories in such goods. Thus, for example, where a corporation purchases a product under a contract with the manufacturer, resells it under contract at a uniform markup in price, and does not physically handle the product, the income derived from that markup meets the definition of passive income for purposes of this paragraph. On the other hand, income from individually negotiated sales, such as those made by a broker, would not meet such definition even if the broker did not physically handle the goods. In addition, stock in a passive holding company is not to be considered a business holding even if the holding company is controlled by the foundation. Instead, the foundation is treated as owning its proportionate share of the underlying assets of the holding company under section 4943(d)(1). In addition, the holding of a bond or other evidence of indebtedness is not a business holding unless such bond or indebtedness is otherwise determined to be stock. See section 385 and the regulations thereunder.

(d) *Application of section 4943(c)(6).* If a private foundation holds an interest which is not an interest in a business enterprise as defined in paragraphs (a), (b), and (c) of this section, and such interest later becomes an interest in a business enterprise solely by reason of failing one or more of the requirements of paragraph (b) or (c) of this section, such interest will then be subject to section 4943(c)(6) and § 53.4943–6 (regardless of then when it was originally acquired) but will not be treated as acquired by purchase for purposes of section 4943(c)(6).

(e) *Sole proprietorship.* For purposes of section 4943 and the regulations thereunder, the term "sole proprietorship" means any business enterprise (as defined in paragraphs (a), (b), and (c) of this section—

(1) Which is actually and directly owned by a private foundation,

(2) In which the foundation has a 100 percent equity interest, and

(3) Which is not held by a corporation, trust, or other business entity for such foundation.

A foundation may be considered to own a sole proprietorship even though the foundation is itself a corporation or a trust. However, a sole proprietorship which is owned by a foundation shall cease to be treated as a sole proprietorship when the foundation no longer has a 100-percent interest in the equity of the business enterprise. Thus, if and when a foundation sells a 10-percent interest in a sole proprietorship, such business enterprise shall be treated as a partnership under section 4943 and the regulations thereunder.

§ 53.4943–10 Effective date.

(a) *In general.* Section 4943 and §§ 53.4943–1 through 53.4943–9 shall take effect for taxable years beginning after December 31, 1969, except as otherwise provided in such sections.

(b) *Special transitional rule.* In the case of any acquisition of excess holdings prior to the 30th day after January 3, 1972, section 4943(a)(1) shall not apply if correction occurs (within the meaning of § 53.4943–8(c)) within a period ending 90 days after [insert date on which final regulations under section 4943 are filed by the FEDERAL REGISTER], extended (prior to the expiration of the original period) by any period which the Commissioner determines is reasonable and necessary (within the meaning of § 53.4943–8(b)) to bring about such correction.

ENDOTHALL

Proposed Interim Tolerance

The Registration Division of the Environmental Protection Agency is evaluating data submitted in Pesticide Petition No. 1F1105, filed by the Pennwalt Corp., Post Office Box 1297, Tacoma, WA 98401, and other relevant material and has determined that an interim food additive tolerance of 0.2 part per million should be established for residues of the herbicide endothall in potable water resulting from use of its mono-*N,N*-dimethylalkylamine salt in the control of aquatic weeds in canals, lakes, ponds, and other potential sources of potable water.

NOTE: It has been concluded that interim tolerances should be established for petitions which are pending, provided there is a reasonable assurance that the public health will be protected. (See the FEDERAL REGISTER of May 6, 1972 (37 F.R. 9228).)

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 F.R. 15623), transferred (effective Dec. 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections

V 38 - 1 JAN 3 73 XUM

406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348).

Based on consideration given the data submitted in the pesticide petition and other relevant material, it is concluded that the proposed interim tolerance will protect the public health.

Therefore, pursuant to provisions of the act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), it is proposed that Part 121 be amended by adding the following new section to Subpart D:

§ 121.1248 Endothall.

An interim tolerance of 0.2 part per million is established for residues of the herbicide endothall (7-oxabicyclo[2.2.1] heptane-2,3-dicarboxylic acid) from use of its mono-*N,N*-dimethylalkylamine salt, wherein the alkyl group is the same as in the fatty acids of coconut oil, to control aquatic weeds in canals, lakes, ponds, and other potential sources of potable water.

Interested persons are invited to submit their views in writing, preferably in quintuplicate, regarding this proposal within 30 days following the date of publication of this notice in the FEDERAL REGISTER. Such views and comments should be addressed to the Hearing Clerk, Environmental Protection Agency, Room 3902A, Fourth and M Streets SW., Waterside Mall, Washington, D.C. 20460, and may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: December 22, 1972.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticides Programs.

BIOLOGICAL PRODUCTS

Proposed Revocation of Additional Standards for Adenovirus Vaccine and Revocation of Licenses; Opportunity for Hearing

The Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) provides the Commissioner of Food and Drugs with the authority to regulate through a system of licensure the interstate shipment of any virus, therapeutic serum, toxin, antitoxin, vaccine, blood, blood component or derivative, allergenic product, or analogous product, or arsphenamine or its derivatives, applicable to the prevention, treatment, or cure of diseases or injuries of man so as to insure the continued safety, purity, and potency of such products. Pursuant to that authority, additional standards designed to assure the safety, purity, and potency of a biological product known as Adenovirus Vaccine were published in the FEDERAL REGISTER on September 24, 1957 (22 F.R. 7560). Following the publication of these standards, several manufacturers were issued product licenses for Adenovirus Vaccine. In addition, two manufacturers received product licenses for Adenovirus and Influenza Virus Vaccine, Combined Aluminum Phosphate Adsorbed, which is a combination of the Adenovirus Vaccine with another licensed biological product.

During the years subsequent to the issuance of these licenses, it became evident that there were certain persistent problems concerning the contamination of Adenovirus with a newly discovered simian virus known as SV40. As a result, licensed manufacturers of these products were advised in October 1964 that no further lots of Adenovirus Vaccine could be released until these problems were resolved. They were so advised by the Division of Biologics Standards, National Institutes of Health, which was charged at that time with administering and enforcing section 351 of the Public Health Service Act. The Division of Biologics Standards was transferred on July 1, 1972 to the Food and Drug Administration where it is now the Bureau of Biologics (37 F.R. 12865).

There has been no evidence since 1964 that these problems are capable of resolution. Consequently, after a thorough evaluation of all the information before him with respect to Adenovirus Vaccine, both singly and in combination, the Commissioner concludes that the vaccines cannot be manufactured in a manner so as to assure their safety, purity, and potency.

Accordingly, the Commissioner concludes that the additional standards for Adenovirus Vaccine (21 CFR 273.1040–273.1045) should be deleted from the regulations governing biological products, and that all remaining licenses governing any of these Adenovirus Vaccines, either singly or in combination, namely those product licenses held by Parke, Davis & Co., Joseph Campau Avenue, At the River, Detroit, Mich. 48232, for Adenovirus Vaccine, Adenovirus Vaccine and Influenza Virus, and Vaccine Combined Aluminum Phosphate Adsorbed and by Wyeth Laboratories, Post Office Box 8299, Philadelphia, Pa. 19101, for Adenovirus Vaccine, should be revoked.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commissioner, it is proposed that 21 CFR Part 273 (formerly 42 CFR Part 73) be amended by revoking in their entirety §§ 273.1040 through 273.1045.

In accordance with the provisions of section 351 of the Public Health Service Act (42 U.S.C. 262) and the regulations promulgated thereunder (21 CFR Part 273), the Commissioner hereby gives a licensee and any other interested person who will be adversely affected by the revocation of 21 CFR 273.1040 through 273.1045 and the subsequent revocation of product licenses held by Parke, Davis & Co., Joseph Campau Avenue, At the River, Detroit, Mich. 48232, for Adenovirus Vaccine, Adenovirus Vaccine and Influenza Virus, and Vaccine Combined Aluminum Phosphate Adsorbed and by Wyeth Laboratories, Post Office Box 8299, Philadelphia, Pa. 19101, for Adenovirus Vaccine, an opportunity for a hearing to show why the biological products regulations should not be so amended, and/or why these product licenses should not be revoked.

Within 30 days after publication hereof in the FEDERAL REGISTER, a licensee and any other interested person may file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, either written comments on the proposal or a written appearance electing whether or not to avail himself of an opportunity for a hearing. Failure of a licensee and any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order amending 21 CFR Part 273 and revoking product licenses, as proposed.

If a licensee or other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why the biological products regulations should not be so amended, and/or why the identified product licenses should not be revoked, together with a well organized and full factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing.

If review of the data submitted by licensees and/or other interested persons in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine issue of fact precludes the actions contemplated, the Commissioner will publish an order amending the regulations as indicated, revoking the product licenses mentioned earlier and stating his findings and conclusions on such data.

If a hearing is requested and justified, the issues will be defined, an Administrative Law Judge will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. The hearing will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade

secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Written comments regarding the proposal, requests for a hearing, and/or elections not to request a hearing should be filed (preferably in quintuplicate) with the Hearing Clerk (address given above). Comments may be accompanied by a memorandum or brief in support thereof. Received comments, requests, and elections may be seen in the Office of the Hearing Clerk during regular business hours, Monday through Friday.

Dated: December 27, 1972.

Acting Associate Commissioner, for Compliance.

Social and Rehabilitation Service

[45 CFR Part 233]

COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

Dependent Children of Unemployed Fathers

Notice is hereby given that the regulation set forth in tentative, alternative form below is proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. Both alternatives would amend § 233.100 (a)(1), which provides a Federal definition of unemployed father under the AFDC program in terms of hours of work.

In applying the existing regulation, the Department policy has been to permit a State, at its option, to use a definition of unemployed father which imposes additional conditions relating to the reason for the unemployment, e.g., the State definition might exclude a father whose unemployment results from participation in a labor dispute or who is unemployed by reason of conduct or circumstances which result or would result in disqualification for unemployment compensation under the State's unemployment compensation law. In Davidson v. Francis, the U.S. Supreme Court on October 16, summarily affirmed the judgment of the district court which held, in effect, that while the Secretary has broad authority to define an unemployed father for purposes of section 407 of the Social Security Act, the existing Federal regulation provides only an hours-of-work test, and thus prohibits a State from excluding fathers who meet this test but are disqualified for unemployment compensation.

Accordingly, the proposed alternative A below would amend the regulation to make the prior Department policy explicit, by stating the options which are permitted to the States in defining an unemployed father. Alternative B, on the other hand, would amend the regulation to make clear that the hours-of-work test is intended as the exclusive definition of unemployed father, so that States may not have definitions which impose added conditions. This would be a change in Department policy, but would be consistent with the way that the existing regulation has been interpreted by the courts.

Davidson v. Francis attracted broad interest from States, assistance recipients, and industry and labor groups. The regulations are proposed in alternative form to give all those who are interested full information as to the various courses of action which are being considered.

Prior to the adoption of the proposed regulation, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, DC 20201, within a period of 30 days from date of publication of this notice in the FEDERAL REGISTER. Comments received will be available for public inspection in room 5120 of the Department's offices at 301 C Street SW., Washington, DC, on Monday through Friday of each week from 8:30 to 5 p.m. (area code 202–963–7361).

Secretary.

ALTERNATIVE A

Section 233.100(a)(1) of Chapter II of Title 45 of the Code of Federal Regulations is revised to read as follows:

§ 233.100 Dependent children of unemployed fathers.

(a) *Requirements for State plans.* • • •

(1) Include a definition of an unemployed father which shall apply only to families determined to be needy in accordance with the provisions in § 233.20. Such definition must include any father who:

(i) Is employed less than 100 hours a month; or

(ii) Exceeds that standard for a particular month, if his work is intermittent and the excess is of a temporary nature as evidenced by the fact that he was under the 100-hour standard for the 2 prior months and is expected to be under the standard during the next month; except that, at the option of the State, such definition need not include a father whose unemployment results from participation in a labor dispute or who is unemployed by reason of conduct or circumstances which result or would result in disqualification for unemployment compensation under the State's unemployment compensation law.

• • • • • •

ALTERNATIVE B

Section 233.100(a)(1) of Chapter II of Title 45 of the Code of Federal Regulations is revised to read as follows:

§ 233.100 Dependent children of unemployed fathers.

(a) *Requirements for State plans.* • • •

(1) Include a definition of an unemployed father which shall apply only to families determined to be needy in accordance with the provisions in § 233.20 and shall include any father who:

(ii) Exceeds that standard for a particular month, if his work is intermittent and the excess is of a temporary nature as evidenced by the fact that he was under the 100-hours standard for the 2 prior months and is expected to be under the standard during the next month.

This shall be the exclusive definition of an unemployed father.

ATOMIC ENERGY COMMISSION

[10 CFR Part 50]

[Docket RM-50-3]

ENVIRONMENTAL EFFECTS OF THE URANIUM FUEL CYCLE

Notice of Hearing

On November 15, 1972, the Atomic Energy Commission published in the FEDERAL REGISTER (37 F.R 24191) a notice of proposed rule making concerning possible amendments to 10 CFR Part 50, appendix D, that would deal specifically with the environmental effects associated with the uranium fuel cycle in the individual cost-benefit analyses for light water-cooled power reactors. The notice scheduled an informal rule making hearing on the possible amendments on February 1, 1973, at 10 a.m.

The location of the hearing will be New Executive Office Building, Room G–2008, 17th and H Streets NW., Washington, D.C.

A hearing board consisting of Max D. Paglin, Esq.—Chairman, Dr. Martin J. Steindler and Dr. John C. Geyer will preside.

As stated in the November 15, 1972, notice, the hearing will be part of a rule making, rather than an adjudicatory, proceeding and the provisions of Subpart G, "Rules of General Applicability," of 10 CFR Part 2, the Commission's rules of practice, will not be applicable.

The procedural format for the hearing will follow the legislative pattern, and no discovery or cross-examination will be utilized. It shoud be noted, however, that the report prepared by the Commission's regulatory staff, entitled 'Environmental Survey of the Nuclear Fuel Cycle," dated November 1972, which provides a basis for an informed consideration of the

V 38 - 1 JAN 3 73 XUM

generic question of the environmental impact associated with the uranium fuel cycle in light water-cooled nuclear power reactor licensing proceedings, is available to members of the public at the Commission's public document room at 1717 H Street NW., Washington, D.C. 20545. In addition, that report contains extensive references to background documents available to members of the public at the Commission's public document room.

The hearing will be conducted as informally and as expeditiously as practicable, consistent with affording the participants a reasonable opportunity to present their positions. Those participating in the hearing may, but need not be, represented by counsel.

Relevant written statements may be received for the record and those participating may, depending upon the number of requests received and the time available, be permitted to make brief oral statements of their views either in addition to, or in lieu of, written submissions. Persons making oral statements will not be sworn. Such persons, however, as well as persons offering written submissions at the hearing, will be subject to questioning by the presiding hearing board. All written comments and suggestions received pursuant to the invitation therefor set forth in the November 15, 1972, notice will be incorporated in the record of the proceeding.

The hearing board is authorized to take all necessary and appropriate action to control the course of the hearing, including, among other things, the holding of one or more procedural planning sessions. A transcript of the hearing will be made, and a copy of the transcript, together with copies of all documents presented at the hearing, will be placed in the Commission's public document room, 1717 H Street NW., Washington, D.C., where they will be available for inspection by members of the public.

At the conclusion of the hearing the record will be held open for a period of 30 days during which time any person may file such supplementary written statements as may be deemed appropriate in light of the hearing record. After the 30-day period expires, the presiding hearing board, without rendering any decision or making any recommendation, will forward the transcript of the hearing to the Commission together with an identification of issues raised at the hearing. The Commission will carefully consider the transcript of the hearing and the comments and suggestions submitted pursuant to the November 15, 1972, notice as well as other relevant considerations and factors, and, after reaching its determination in the rule making proceeding, will cause an appropriate notice to be published in the FEDERAL REGISTER.

CIVIL AERONAUTICS BOARD

[14 CFR Part 298]

[Docket No. 23988; EDR-239]

CLASSIFICATION AND EXEMPTION OF AIR TAXI OPERATORS

Transportation of Mail

DECEMBER 22, 1972.

Notice is hereby given that the Civil Aeronautics Board has under consideration proposed amendments to Part 298 of its Economic Regulations (14 CFR Part 298) which would (1) provide that air taxi operators may transport mail only pursuant to contracts with the Postal Service pursuant to 39 U.S.C. 5402 (b) or (c), except that operations under existing authority may be continued; and (2) delete the existing regulations which provide procedures for the establishment by the Board of rates for the transportation of mail by air taxi operators.

The background and principal features of the proposed amendments are described in the attached explanatory statement, and the proposed amendments are set forth in the proposed rule. The amendments are proposed under the authority of sections 204(a), 406, and 416 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 763 (as amended by 76 Stat. 145, 80 Stat. 942), 771; 49 U.S.C. 1324, 1376, 1386.

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before January 30, 1973, will be considered before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue NW., Washington, DC upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

EXPLANATORY STATEMENT

Under Part 298 of the Board's Economic Regulations, air taxi operators may carry mail, subject to certain conditions.[1] In a noncompetitive market,[2] an air taxi operator has no authority to carry mail until there is in effect for such carriage a final mail rate, or until the Postal Service and the air taxi operator have jointly filed a petition with the Board setting forth a mutually agreed-upon rate and requesting the Board to fix a final rate. In a competitive market, no air taxi operator may carry mail until there is in effect for such carriage a notice of intent to use air taxi mail service filed by the Postal Service pursuant to § 298.24, and either a final rate has been established or a mutually agreed-upon rate has been filed along with a request that the Board fix a final rate.

However, since July 1, 1971, the Postal Service has had authority under the Postal Reorganization Act,[3] to contract directly with air taxi operators for the transportation of mail, in both noncompetitive[4] and competitive markets,[5] at rates specified in the contracts.[6]

In view of this authority, the Postal Service has not used Board procedure for the procurement of new air taxi mail service since July of 1971, and it has represented to the Board that it will arrange for all future air taxi mail service under its statutory contract authority rather than by utilizing the Board's procedures under Part 298. Moreover, the Postal Service therefore has requested Board that it will soon be in a position to use its statutory contract authority for the purpose of adjusting mail rates with respect to air taxi operations performed under existing Part 298 authority. The Posatl Service therefore has requested that we institute rule making proceedings seeking to eliminate the Part 298 procedures relating to mail carriage by air taxis.

We are of the tentative view that retention of the Part 298 provisions relating to the carriage of mail by air taxi operators would serve no useful purpose, in view of the expressed intention of the Postal Service to rely exclusively upon its own statutory contract authority, which, as previously indicated, may be used in lieu of Board ratemaking and licensing procedures.

Accordingly, the proposed rule would delete regulations prescribing Board procedures for determination of air taxi mail rates and providing for notices of intent. Under the proposed rule, air taxi operators would, in the future, be authorized to carry mail only pursuant to contracts with the Postal Service pursuant to 39 U.S.C. 5402 (b) or (c). However, in order to avoid disruption of existing air taxi mail arrangements, we would permit the continuation of operations performed under outstanding Part 298 authority. These operations would continue in accordance with final rates in effect pursuant to Part 298 at the effective date of the amendatory rule. However, a petition filed with the Board for a rate adjustment after the effective date of the rule would be regarded as the institution of a new proceeding and the outstanding authority of the air taxi operator under Part 298 to carry mail affected by such proceeding would automatically be terminated.[7]

Finally, the proposed rule would delete the portion of § 298.21(b) which generally prohibits the carriage of mail by air taxi operators in markets served by certificated helicopter carriers. This is because the Postal Service may, under the Postal Reorganization Act, contract with an air taxi operator in such a market if the Postal Service finds that service by certificated air carriers is not adequate for its purposes, and as aforesaid, carriage of mail pursuant to contract is the only type of air taxi mail carriage which will be authorized in the future.

PROPOSED RULE

It is proposed to amend Part 298 of the Board's Economic Regulations (14 CFR Part 298), as follows:

1. Amend the table of contents by deleting and reserving the title of § 298.24 under Subpart C—Limitations on Exemptions, the table as amended to read as follows:

Sec.
298.24 [Reserved]

2. Amend § 298.21 by revising paragraphs (b) and (f), the section as amended to read as follows:

§ 298.21 Scope of service authorized; geographical, equipment and mail service limitations; insurance and reporting requirements.

• • • • •

(b) *Prohibition of regular service in markets served by certificated helicopter carriers.* An air taxi operator is prohibited from providing air transportation of persons or property, or holding out to the public expressly or by course of conduct, that it provides such transportation regularly or with a reasonable degree of regularity between any points where scheduled helicopter passenger service, or community center and interairport service, is provided by the holder of a certificate of public convenience and necessity either in accordance with such certificate or pursuant to exemption order of the Board: *Provided, however,* • • •

• • • • •

(f) *Limitations on carriage of mail.* (1) Except as provided in subparagraphs (2) and (3) of this paragraph, no air taxi operator shall be authorized to carry mail except pursuant to contract with the Postal Service, entered into pursuant to chapter 54 of the Postal Reorganization Act (39 U.S.C. 5402 (b) or (c)).

(2) In a noncompetitive market within 48 contiguous States, Alaska, and Hawaii, an air taxi operator shall be authorized to carry mail, if before [effective date of rule], there is in effect for such carriage a final mail rate. On and after [effective date of rule], the filing of a petition by the air taxi operator or the Postal Service for a change in the mail rate for such carriage shall nullify the authority of the operator to continue to carry mail in such market, except pursuant to contract with the Postal Service as provided in subparagraph (1) of this paragraph.

(3) In a competitive market within the 48 contiguous States, Alaska, and Hawaii, no air taxi operator shall be authorized to carry mail unless, before [effective date of rule], there is in effect for such carriage a notice of intent to use air taxi mail service, and a final mail rate for such carriage has been established. On and after [effective date of rule], the filing of a petition by the air taxi operator or the Postal Service for a change in the mail rate for such carriage shall nullify the authority of the operator to continue to carry mail in such market, except pursuant to contract with the Postal Service as provided in subparagraph (1) of this paragraph.

• • • • •

§ 298.24 [Reserved]

3. Delete and reserve § 298.24.

[FR Doc.73-88 Filed 1-2-73;8:45 am]

[1] The exemption authority to carry mail is due to terminate on June 30, 1974. (§ 298.13).

[2] A "noncompetitive market" is one which is not served by a certificated air carrier.

[3] 39 U.S.C. 101, et seq. Public Law 91-375, August 12, 1970.

[4] 39 U.S.C. 5402(b). In a noncompetitive market, the contract must be canceled in whole or in part, to the extent that the market becomes a competitive one.

[5] 39 U.S.C. 5402(c). In a competitive market, the contract may be entered into if the Postal Service determines that service by certificated air carriers is not adequate for its purposes, but the contract must be canceled if an additional carrier is certificated in the market and the new schedules are adequate for the Postal Service's purposes.

[6] Although the statutory provisions governing contracts for the two types of market differ in certain respects, in both cases the Postal Service is empowered to contract "in such manner and under such terms and conditions as it may deem appropriate • • •."

[7] Since the authority to carry mail under Part 298 expires in any event on June 30, 1974, outstanding Part 298 authorizations will have to be converted to contracts under 39 U.S.C. 5402 if continued service is desired.

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 326]

INSURED NONMEMBER BANKS

Minimum Security Devices and Procedures

1. Notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation, under the authority conferred by section 3 of the Bank Protection Act of 1968 (82 Stat. 295; 12 U.S.C. 1882), is considering amending Appendix A of Part 326 of the Corporation's rules and regulations (12 CFR Part 326), to read as follows:

APPENDIX A

MINIMUM STANDARDS FOR SECURITY DEVICES

In order to assure realization of maximum performance capabilities, all security devices utilized by a bank should be regularly inspected, tested, and serviced by competent persons. Actuating devices for surveillance systems and robbery alarms should be operable with the least risk of detection by unauthorized persons that can be practicably achieved.

(1) *Surveillance systems*—(i) *General.* Surveillance systems should be:

(A) Equipped with one or more photographic, recording, monitoring, or like devices capable of reproducing images of persons in the banking office with sufficient clarity to facilitate (through photographs capable of being enlarged to produce a 1-inch vertical head-size of persons whose images have been reproduced) the identification and apprehension of robbers or other suspicious persons;

(B) Reasonably silent in operation; and

(C) So designed and constructed that necessary services, repairs, or inspections can readily be made.

Any camera used in such a system should be capable of taking at least one picture every 2 seconds and, if it uses film, should contain enough unexposed film at all times to be capable of operating for not less than 3 minutes, and the film should be at least 16 mm.

(ii) *Installation and operation of surveillance systems providing surveillance of other than walk-up or drive-in teller's stations or windows.* Surveillance devices for other than walk-up or drive-in teller's stations or windows should be:

(A) Located so as to reproduce identifiable images of persons either leaving the banking office or in a position to transact business at each such station or window; and

(B) Capable of actuation by initiating devices located at each teller's station or window.

(iii) *Installation and operation of surveillance systems providing surveillance of walk-up or drive-in teller's stations or windows.* Surveillance devices for walk-up or drive-in teller's stations or windows should be located in such a manner as to reproduce identifiable images of persons in a position to transact business at each such station or window and areas of such station or window that are vulnerable to robbery or larceny. Such devices should be capable of actuation by one or more initiating devices located within or in close proximity to such station or window. Such devices may be omitted in the case of a walk-up or drive-in teller's station or window in which the teller is effectively protected by a bullet-resistant barrier from persons outside the station or window. However, if the teller is vulnerable to larceny or robbery by members of the public who enter the banking office, the teller should have access to a device to actuate a surveillance system that covers the area of vulnerability or the exits to the banking office.

(2) *Robbery and burglary alarm systems*—(i) *Robbery alarm systems.* A robbery alarm system should be provided for each banking office at which the police ordinarily can arrive within 5 minutes after an alarm is actuated; all other banking offices should be provided with appropriate devices for promptly notifying the police that a robbery has occurred or is in progress. Robbery alarm systems should be:

(A) Designed to transmit to the police, either directly or through an intermediary, a signal (not detectable by unauthorized persons) indicating that a crime against the banking office has occurred or is in progress;

(B) Capable of actuation by initiating devices located at each teller's station or window (except walk-up or drive-in teller's stations or windows in which the teller is effectively protected by a bullet-resistant barrier and effectively isolated from persons, other than fellow employees, inside a banking office of which such station or window may be a part);

(C) Safeguarded against accidental transmission of an alarm;

(D) Equipped with a visual and audible signal capable of indicating improper functioning of or tampering with the system; and

(E) Equipped with an independent source of power (such as a battery) sufficient to assure continuously reliable operation of the system for at least 24 hours in the event of failure of the usual source of power.

(ii) *Burglary alarm systems.* A burglary alarm system should be provided for each banking office. Burglary alarm systems should be:

(A) Capable of detecting promptly an attack on the outer door, walls, floor, or

ceiling of each vault, and each safe not stored in a vault, in which currency, negotiable securities, or similar valuables are stored when the office is closed, and any attempt to move any such safe;

(B) Designed to transmit to the police, either directly or through an intermediary, a signal indicating that any such attempt is in progress; and for banking offices at which the police ordinarily cannot arrive within 5 minutes after an alarm is actuated, designed to actuate a loud-sounding bell or other device that is audible inside the banking office and for a distance of approximately 500 feet outside the banking office;

(C) Safeguarded against accidental transmission of an alarm;

(D) Equipped with a visual and audible signal capable of indicating improper functioning of or tampering with the system; and

(E) Equipped with an independent source of power (such as a battery) sufficient to assure continuously reliable operation of the system for at least 80 hours in the event of failure of the usual source of power.

(3) *Walkup and drive-in teller's stations or windows.* Walkup and drive-in teller's stations or windows contracted for after February 15, 1969, should be constructed in such a manner that tellers are effectively protected by bullet-resistant barriers from robbery or larceny by persons outside such stations or windows. Such barriers should be of glass at least $1^3/_{16}$ inches in thickness,[1] or of material of at least equivalent bullet resistance. Pass-through devices should be so designed and constructed as not to afford a direct line of fire at a person inside the station.

(4) *Vaults, safes, safe deposit boxes, night depositories, and cash dispensing machines.* Vaults, safes (if not to be stored in a vault), safe deposit boxes, night depositories, and cash dispensing machines, in any of which currency, negotiable securities, or similar valuables are to be stored when banking offices are closed, should meet or exceed the standards expressed in this section.

(i) *Vaults.* A vault is defined as a room or compartment that is designed for the storage and safekeeping of valuables and which has a size and shape which permits entrance and movement within by one or more persons. Vaults contracted for after (*effective date to be designated*)[2] should have walls, floor, and ceiling of reinforced concrete at least 12 inches in thickness.[3] The vault door should be made of steel at least $3\frac{1}{2}$ inches in thickness, or other drill and torch resistant material, and be equipped with dual combination locks, a time lock, and a substantial lockable day-gate. Electrical conduits into the vault should not exceed $1\frac{1}{2}$ inches in diameter and should be offset within the walls, floor, or ceiling at least once so as not to form a direct path of entry. A vault ventilator, if provided, should be designed with consideration of safety to life without significant reduction of the strength of the vault wall to burglary attack. Alternatively, vaults should be so designed and constructed as to afford at least equivalent burglary resistance.[4]

(ii) *Safes.* Safes contracted for after February 15, 1969, should weigh at least 750 pounds empty, or be securely anchored to the premises where located. The body should consist of steel, at least 1 inch in thickness, either cast or fabricated, with an ultimate tensile strength of 50,000 pounds per square inch and be fastened in a manner equal to a continuous ¼ inch penetration weld having an ultimate tensile strength of 50,000 pounds per square inch. The door should be made of steel that is at least $1\frac{1}{2}$ inches in thickness, and at least equivalent in strength to that specified for the body; and the door should be equipped with a combination lock, and with a relocking device that will effectively lock the door if the combination lock is punched. One hole not exceeding ¼-inch diameter may be provided in the body to permit insertion of electrical conductors, but should be located so as not to permit a direct view of the door or locking mechanism. Alternatively, safes should be constructed of materials that will afford at least equivalent burglary resistance.

(iii) *Safe deposit boxes.* Safe deposit boxes used to safeguard customer valuables should be enclosed in a vault or safe meeting at least the above-specified minimum protection standards.

(iv) *Night depositories.* Night depositories (excluding envelope drops not used to receive substantial amounts of currency) contracted for after February 15, 1969, should consist of a receptacle chest having cast or welded steel walls, top, and bottom, at least 1 inch in thickness; a steel door at least $1\frac{1}{2}$ inches in thickness, with a combination lock; and a chute, made of steel that is at least 1 inch in thickness, securely bolted or welded to the receptacle and to a depository entrance of strength similar to the chute. Alternatively, night depositories should be so designed and constructed as to afford at least equivalent burglary resistance.[5] The depository entrance should be equipped with a lock. Night depositories should be equipped with a burglar alarm and be designed to protect against the "fishing" of a deposit from the deposit receptacle, and to protect against the "trapping" of a deposit for extraction.

(v) *Cash dispensing machines.* Except as hereinafter provided, cash dispensing machines (including those machines which also accept deposits) contracted for after [*effective date to be designated*] should weigh at least 750 pounds empty or be securely anchored to the premises where located. These machines should contain, among other features, a storage chest having cast or welded steel walls, top, and bottom, at least 1 inch in thickness, with a tensile strength of at least 50,000 pounds per square inch. The door should be constructed of steel at least equivalent in strength to the storage chest and be equipped with a combination lock and with a relocking device that will effectively lock the door if the combination lock is punched. The housing covering the cash dispensing opening (and, when applicable, deposit receiving opening), in the storage chest, and the housing covering the mechanism for removing the cash from the storage chest, should be so designed as to provide burglary resistance at least equivalent to the storage chest and should also be designed to protect against the "fishing" of cash from the storage chest. The cash dispensing control and delivery mechanism (and, when applicable, cash deposit receipt mechanism) should be protected by steel, at least ½ inch in thickness, securely attached to the storage chest. The cash dispensing machine should be designed so as to be protected against actuation by unauthorized persons, should be protected by a burglar alarm, and should be located in a well-lighted area. Alternatively, cash dispensing machines should be so designed and constructed as to afford at least equivalent burglary resistance.[6] A cash dispensing machine which is used inside a bank's premises only during bank business hours, and which is empty of currency and coin at all other times, should at least provide safeguards against "jimmying", unauthorized opening of the storage chest door, and against actuation by unauthorized persons.

2. The purpose of the proposed amendment is to revise and clarify the minimum standards of security devices which each insured State nonmember bank must consider installing, maintaining, and operating in banking offices in areas with a high incidence of crime. Included in the proposed appendix A are a definition of "vaults" as distinguished from "safes," modified standards of vault construction, and protection standards for cash dispensing machines. The proposed appendix A also makes clear that, to meet the minimum security standards, safe deposit boxes must be stored in an approved vault or safe.

3. This notice is published pursuant to section 553(b) of title 5, United States Code, and §§ 302.1–302.5 of the rules and regulations of the Federal Deposit Insurance Corporation.

4. Interested persons are invited to submit written data, views, or arguments regarding the proposed amendment to the Secretary, Board of Directors of the Federal Deposit Insurance Corporation, Washington, D.C. 20429, within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

By order of the Board of Directors, December 18, 1972.

FEDERAL DEPOSIT INSURANCE CORPORATION,

Secretary.

[FR Doc.73-79 Filed 1-2-73;8:45 am]

[1] It should be emphasized that this thickness is merely bullet resistant and not bulletproof.

[2] Vaults contracted for previous to this date should be constructed in conformance with all applicable specifications then in effect.

[3] The reinforced concrete should have: 2 grids of No. 5 (⅝ inch diameter) deformed steel bars located in horizontal and vertical rows in each direction to form grids not more than 4 inches on center; or 2 grids of expanded steel bank vault mesh placed parallel to the face of the walls, weighing at least 6 pounds per square foot to each grid, having a diamond pattern not more than 3 inches by 8 inches; or 2 grids of any other fabricated steel placed parallel to the face of the walls, weighing at least 6 pounds per square foot to each grid and having an open area not exceeding 4 inches on center. Grids are to be located not less than 6 inches apart and staggered in each direction. The concrete should develop an ultimate compression strength of at least 3,000 pounds per square inch.

[4] Equivalent burglary-resistant materials for vaults do *not* include the use of a steel lining, either inside or outside a vault wall, in lieu of the specified reinforcement and thickness of concrete.

[5] Equivalent burglary-resistant materials for night depositories include the use of ¼-inch steel plate encased in 6 inches or more of concrete or masonry building wall.

[6] Equivalent burglary-resistant materials for cash dispensing machines include the use of ⅜-inch thick, 8-percent nickel stainless steel alloy in place of 1-inch thick steel, if other criteria are satisfied.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 563a]

[No. 72-1528]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Minimum Standards for Security Devices

DECEMBER 21, 1972.

Notice is hereby given that the Federal Home Loan Bank Board proposes to revise appendix A of Part 563a of the rules and regulations for insurance of accounts (12 CFR Part 563a), entitled "Minimum Standards for Security Devices."

As part of its responsibilities under the Bank Protection Act of 1968 (82 Stat. 294, 12 U.S.C. 1881), the Board conducts a continuing review of the minimum standards for security devices of institutions whose accounts are insured by the Federal Savings and Loan Insurance Corporation. Based on its review, the proposed appendix A revises and clarifies the minimum standards with which each such insured institution must comply with respect to the installation, maintenance, and operation of security devices to discourage robberies, burglaries, and larcenies and to assist in the identification and apprehension of persons who commit such acts.

Among the proposed revisions are a definition of vaults as distinguished from safes, modified standards of vault construction, and protection standards for cash dispensing machines. The proposed revision also makes clear that, to meet the minimum security standards, (1) safe deposit boxes must be stored in an approved vault or safe and (2) fully automated satellite offices are not required to have surveillance and robbery alarm systems.

The proposed revisions would be accomplished by amending appendix A to read as set forth below.

This notice is published pursuant to section 553 of title 5 of United States Code and § 508.12 of the general regulations of the Federal Home Loan Bank Board (12 CFR 508.12).

To aid in the consideration of the proposed revision by the Board, interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, DC 20552, by February 3, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

APPENDIX A

MINIMUM STANDARDS FOR SECURITY DEVICES

In order to assure realization of maximum performance capabilities, all security devices utilized by an insured institution should be regularly inspected, tested, and serviced by competent persons. Actuating devices for surveillance systems and robbery alarms should be operable with the least risk of detection by unauthorized persons that can be practicably achieved.

1. *Surveillance systems*—(a) *General.* Surveillance systems should be:

(1) Equipped with one or more photographic, recording, monitoring, or like devices capable of reproducing images of persons in the institution's office with sufficient clarity to facilitate (through photographs capable of being enlarged to produce a 1-inch vertical head-size of persons whose images have been reproduced) the identification and apprehension of robbers or other suspicious persons;

(2) Reasonably silent in operation; and

(3) So designed and constructed that necessary services, repairs, or inspections can readily be made.

Any camera used in such a system should be capable of taking at least one picture every 2 seconds and, if it uses film, should contain enough unexposed film at all times to be capable of operating for not less than 3 minutes, and the film should be at least 16mm.

(b) *Installation and operation of surveillance systems providing surveillance of other than walkup or drive-in teller's stations or windows and fully automated stations.* Surveillance devices for other than walkup or drive-in teller's stations or windows and fully automated stations should be:

(1) Located so as to reproduce identifiable images of persons either leaving the office or in a position to transact business at each such station or window; and

(2) Capable of actuation by initiating devices located at each teller's station.

(c) *Installation and operation of surveillance systems providing surveillance of walkup or drive-in teller's stations or windows.* Surveillance devices for walkup or drive-in teller's stations or windows should be located in such a manner as to reproduce identifiable images of persons in a position to transact business at each such station or window and areas of such station or window that are vulnerable to robbery or larceny. Such devices should be capable of actuation by one or more initiating devices located within or in close proximity to such station or window. Such devices may be omitted in the case of walkup or drive-in teller's station or window in which the teller is effectively protected by a bullet-resistant barrier from persons outside the station or window. However, if the teller is vulnerable to larceny or robbery by members of the public who enter the office, the teller should have access to a device to actuate a surveillance system that covers the area of vulnerability or the exists to the office.

2. *Robbery and burglary alarm systems*—(a) *Robbery alarm systems.* A robbery alarm system should be provided for each office which is vulnerable to robbery and at which the police ordinarily can arrive within 5 minutes after an alarm is actuated; all other such offices should be provided with appropriate devices for promptly notifying the police that a robbery has occurred or is in progress. Robbery alarm systems should be:

(1) Designed to transmit to the police, either directly or through an intermediary, a signal (not detectable by unauthorized persons) indicating that a crime against the office has occurred or is in progress;

(2) Capable of actuation by initiating devices located at each teller's station (except walkup or drive-in teller's stations or windows in which the teller is effectively protected by a bullet-resistant barrier and effectively isolated from persons, other than fellow employees, inside an office of which such station or window may be a part);

(3) Safeguarded against accidental transmission of an alarm;

(4) Equipped with a visual and audible signal capable of indicating improper functioning of or tampering with the system; and

(5) Equipped with an independent source of power (such as a battery) sufficient to assure continuously reliable operation of the system for at least 24 hours in the event of failure of the usual source of power.

(b) *Burglary alarm systems.* A burglary alarm system should be provided for each office. Burglary alarm systems should be:

(1) Capable of detecting promptly an attack on a fully automated station and on the outer door, walls, floor, or ceiling of each vault, and each safe not stored in a vault, in which currency, negotiable securities, or similar valuables are stored when any station or office is closed, and any attempt to move any such safe;

(2) Designed to transmit to the police, either directly or through an intermediary, a signal indicating that any such attempt is in progress; and for fully automated stations and other offices at which the police ordinarily cannot arrive within 5 minutes after an alarm is actuated, designed to actuate a loud sounding bell or other device that is audible inside the office and for a distance of approximately 500 feet outside the station or office;

(3) Safeguarded against accidental transmission of an alarm;

(4) Equipped with a visual and audible signal, capable of indicating improper functioning of or tampering with the system; and

(5) Equipped with an independent source of power (such as a battery) sufficient to assure continuously reliable operation of the system for at least 80 hours in the event of failure of the usual source of power.

3. *Walkup and drive-in teller's stations or windows.* Walkup and drive-in teller's stations or windows contracted for after February 15, 1969, should be constructed in such a manner that tellers are effectively protected by bullet-resistant barriers from robbery or larceny by persons outside such stations or windows. Such barriers should be of glass at least $1^3/_{16}$ inches in thickness,[1] or of material of at least equivalent bullet resistance. Pass-through devices should be so designed and constructed as not to afford a person outside the station a direct line of fire at a person inside the station.

4. *Vaults, safes, safe deposit boxes, night depositories, and cash dispensing machines.* Vaults, safes (if not to be stored in a vault), safe deposit boxes, night depositories, and cash dispensing machines, in any of which currency, negotiable securities, or similar valuables are to be stored in fully automated stations or when offices are closed, should

[1] It should be emphasized that this thickness is merely bullet resistant and not bulletproof.

[2] Vaults contracted for previous to this date should be constructed in conformance with all applicable specifications then in effect.

[3] The reinforced concrete should have: two grids of No. 5 (⅝" diameter) deformed steel bars located in horizontal and vertical rows in each direction to form grids not more than 4 inches on center; or two grids of expanded steel bank vault mesh placed parallel to the face of the walls, weighing at least 6 pounds per square foot to each grid, having a diamond pattern not more than 3" by 8"; or two grids of any other fabricated steel placed parallel to the face of the walls, weighing at least 6 pounds per square foot to each grid and having an open area not exceeding 4 inches on center. Grids are to be located not less than 6 inches apart and staggered in each direction. The concrete should develop an ultimate compression strength of at least 3,000 pounds per square inch.

V 38-1 JAN 3 73 XUM

meet or exceed the standards expressed in this section.

(a) *Vaults.* A vault is defined as a room or compartment that is designed for the storage and safekeeping of valuables and which has a size and shape which permits entrance and movement within by one or more persons. Vaults contracted for after (effective date to be designated)[2] should have walls, floor, and ceiling of reinforced concrete at least 12 inches in thickness.[3] The vault door should be made of steel at least 3½ inches in thickness, or other drill and torch resistant material, and be equipped with dual combination locks, a time lock, and a substantial lockable day-gate. Electrical conduits into the vault should not exceed 1½ inches in diameter and should be offset within the walls, floor, or ceiling at least once so as not to form a direct path of entry. A vault ventilator, if provided, should be designed with consideration of safety to life without significant reduction of the strength of the vault wall to burglary attack. Alternatively, vaults should be so designed and constructed as to afford at least equivalent burglary resistance.[4]

(b) *Safes.* Safes contracted for after February 15, 1969, should weigh at least 750 pounds empty, or be securely anchored to the premises where located. The body should consist of steel, at least 1 inch in thickness, either cast or fabricated, with an ultimate tensile strength of 50,000 pounds per square inch and be fastened in a manner equal to a continuous ¼-inch penetration weld having an ultimate tensile strength of 50,000 pounds per square inch. The door should be made of steel that is at least 1½ inches in thickness, and at least equivalent in strength to that specified for the body; and the door should be equipped with a combination lock, and with a relocking device that will effectively lock the door if the combination lock is punched. One hole not exceeding ½-inch diameter may be provided in the body to permit insertion of electrical conductors, but should be located so as not to permit a direct view of the door or locking mechanism. Alternatively, safes should be constructed of materials that will afford at least equivalent burglary resistance.

(c) *Safe deposit boxes.* Safe deposit boxes used to safeguard customer valuables should be enclosed in a vault or safe meeting at least the above specified minimum protection standards.

(d) *Night depositories.* Night depositories (excluding envelope drops not used to receive substantial amounts of currency) contracted for after February 15, 1969, should consist of a receptacle chest having cast or welded steel walls, top, and bottom, at least 1 inch in thickness; a steel door at least 1½ inches in thickness with a combination lock; and a chute, made of steel that is at least 1 inch in thickness, securely bolted or welded to the receptacle and to a depository entrance of strength similar to the chute. Alternatively, night depositories should be so designed and constructed as to afford at least equivalent burglary resistance.[5] The depository entrance should be equipped with a lock. Night depositories should be equipped with a burglar alarm and be designed to protect against the "fishing" of a deposit from the deposit receptacle, and to protect against the "trapping" of a deposit for extraction.

(e) *Cash dispensing machines.* Except as hereafter provided, cash dispensing machines (including those machines which also accept payments on savings accounts and/or loans) contracting for after [effective date to be descontracted for after [effective date to be designated] should weigh at least 750 pounds empty or be securely anchored to the premises where located. These machines should contain, among other features, a storage chest having cast or welded steel walls, top, and bottom, at least 1 inch in thickness with a tensile strength of at least 50,000 pound per square inch. The door should be constructed of steel at least equivalent in strength to the storage chest and be equipped with a combination lock and with a relocking device that will effectively lock the door if the combination lock is punched. The housing covering the cash dispensing opening and, when applicable, payment receiving opening, in the storage chest, and the housing covering the mechanism for removing the cash from the storage chest, should be so designed as to provide burglary resistance at least equivalent to the storage chest and should also be designed to protect against the "fishing" of cash from the storage chest. The cash dispensing control and delivery mechanisms (and, when applicable, cash payment receipt mechanism) should be protected by steel, at least one-half inch in thickness, and by steel, at least ¼ inch in thickness, securely attached to the storage chest. The cash dispensing machine should be designed so as to be protected against actuation by unauthorized persons, should be protected by a burglar alarm, and should be located in a well-lighted area. Alternatively, cash dispensing machines should be so designed and constructed as to afford at least equivalent burglary resistance.[6]

A cash dispensing machine which is used inside an insured institution's premises only during business hours, and which is empty of currency and coin at all other times, should at least provide safeguards against "jimmying," unauthorized opening of the storage chest door, and against actuation by unauthorized persons.

[Reg. P]

FEDERAL RESERVE BANKS AND STATE MEMBER BANKS

Minimum Security Devices and Procedures

Notice is hereby given that the Board of Governors of the Federal Reserve System proposes to revise appendix A, "Minimum Standards for Security Devices," of Part 216 entitled "Minimum Security Devices and Procedures for Federal Reserve Banks and State Member Banks."

As part of its responsibilities under the Bank Protection Act of 1968 (82 Stat. 294), the Board of Governors conducts a continuing review of the minimum standards for bank security devices. Based on its review, the proposed appendix A revises and clarifies the minimum standards with which each Federal Reserve bank and each State member bank must comply with respect to the installation, maintenance, and operation of security devices to discourage robberies, burglaries, and larcenies and to assist in the identification and apprehension of persons who commit such acts.

Among the proposed revisions are a definition of vaults as distinguished from safes, modified standards of vault construction, and protection standards for cash dispensing machines. The proposed revision also makes clear that, to meet the minimum security standards, safe deposit boxes must be stored in an approved vault or safe.

The proposed revisions would be accomplished by amending appendix A to read as follows:

APPENDIX A

MINIMUM STANDARDS FOR SECURITY DEVICES

In order to assure realization of maximum performance capabilities, all security devices utilized by a bank should be regularly inspected, tested, and serviced by competent persons. Actuating devices for surveillance systems and robbery alarms should be operable with the least risk of detection by unauthorized persons that can be practicably achieved.

(1) *Surveillance systems*—(i) *General.* Surveillance systems should be:

(A) Equipped with one or more photographic, recording, monitoring, or like devices capable of reproducing images of persons in the banking office with sufficient clarity to facilitate (through photographs capable of being enlarged to produce a 1-inch vertical head-size of persons whose images have been reproduced) the identification and apprehension of robbers or other suspicious persons;

(B) Reasonably silent in operation; and

(C) So designed and constructed that necessary services, repairs or inspections can readily be made.

Any camera used in such a system should be capable of taking at least one picture every 2 seconds and, if it uses film, should contain enough unexposed film at all times to be capable of operating for not less than 3 minutes, and the film should be at least 16mm.

(ii) *Installation and operation of surveillance systems providing surveillance of other than walkup or drive-in teller's stations or windows.* Surveillance devices for other than walkup or drive-in teller's stations or windows should be:

(A) Located so as to reproduce identifiable images of persons either leaving the banking office or in a position to transact business at each such station or window; and

(B) Capable of actuation by initiating devices located at each teller's station or window.

(iii) *Installation and operation of surveillance systems providing surveillance of walkup or drive-in teller's stations or windows.* Surveillance devices for walkup or drive-in teller's stations or windows should be located in such a manner as to reproduce

identifiable images of persons in a position to transact business at each such station or window and areas of such station or window that are vulnerable to robbery or larceny. Such devices should be capable of actuation by one or more initiating devices located within, or in close proximity to, such station or window. Such devices may be omitted in the case of a walkup or drive-in teller's station or window in which the teller is effectively protected by a bullet-resistant barrier from persons outside the station or window. However, if the teller is vulnerable to larceny or robbery by members of the public who enter the banking office, the teller should have access to a device to actuate a surveillance system that covers the area of vulnerability of the exits to the banking office

(2) *Robbery and burglary alarm systems*—(i) *Robbery alarm systems.* A robbery alarm system should be provided for each banking office at which the police ordinarily can arrive within 5 minutes after an alarm is actuated; all other banking offices should be provided with appropriate devices for promptly notifying the police that a robbery has occurred or is in progress. Robbery alarm systems should be:

(A) Designed to transmit to the police, either directly or through an intermediary, a signal (not detectable by unauthorized persons) indicating that a crime against the banking office has occurred or is in progress;

(B) Capable of actuation by initiating devices located at each teller's station or window (except walkup or drive-in teller's stations or windows in which the teller is effectively protected by a bullet-resistant barrier and effectively isolated from persons, other than fellow employees, inside a banking office of which such station or window may be a part);

(C) Safeguarded against accidental transmission of an alarm;

(D) Equipped with a visual and audible signal capable of indicating improper functioning of or tampering with the system; and

(E) Equipped with an independent source of power (such as a battery) sufficient to assure continuously reliable operation of the system for at least 24 hours in the event of failure of the usual source of power.

(ii) *Burglary alarm systems.* A burglary alarm system should be provided for each banking office. Burglary alarm systems should be:

(A) Capable of detecting promptly an attack on the outer door, walls, floor, or ceiling of each vault, and each safe not stored in a vault, in which currency, negotiable securities, or similar valuables are stored when the office is closed, and any attempt to move any such safe;

(B) Designed to transmit to the police, either directly or through an intermediary, a signal indicating that any such attempt is in progress; and for banking offices at which the police ordinarily cannot arrive within five minutes after an alarm is actuated, designed to actuate a loud-sounding bell or other device that is audible inside the banking office and for a distance of approximately 500 feet outside the banking office;

(C) Safeguarded against accidental transmission of an alarm;

(D) Equipped with a visual and audible signal capable of indicating improper functioning of or tampering with the system; and

(E) Equipped with an independent source of power (such as a battery) sufficient to assure continuously reliable operation of the system for at least 80 hours in the event of failure of the usual source of power.

(3) *Walk-up and drive-in teller's stations or windows.* Walk-up and drive-in teller's stations or windows contracted for after February 15, 1969, should be constructed in such a manner that tellers are effectively protected by bullet-resistant barriers from robbery or larceny by persons outside such stations or windows. Such barriers should be of glass at least 1⅜6 inches in thicknesses,[1] or of material of at least equivalent bullet resistance. Pass-through devices should be so designed and constructed as not to afford a person outside the station or window a direct line of fire at a person inside the station.

(4) *Vaults, safes, safe-deposit boxes, night depositories, and cash dispensing machines.* Vaults, safes (if not to be stored in a vault), safe-deposit boxes, night depositories, and cash dispensing machines, in any of which currency, negotiable securities, or similar valuables are to be stored when banking offices are closed, should meet or exceed the standards expressed in this section.

(i) *Vaults.* A vault is defined as a room or compartment that is designed for the storage and safekeeping of valuables and which has a size and shape which permits entrance and movement within by one or more persons. Vaults contracted for after [*effective date to be designated*][2] should have walls, floor, and ceiling of reinforced concrete at least 12 inches in thickness.[3] The vault door should be made of steel at least 3½ inches in thickness, or other drill and torch resistant material, and be equipped with dual combination locks, a timelock, and a substantial lockable daygate. Electrical conduits into the vault should not exceed 1½ inches in diameter and should be offset within the walls, floor, or ceiling at least once so as not to form a direct path of entry. A vault ventilator, if provided, should be designed with consideration of safety to life without significant reduction of the strength of the vault wall to burglary attack. Alternatively, vaults should be so designed and constructed as to afford at least equivalent burglary resistance.[4]

(ii) *Safes.* Safes contracted for after February 15, 1969, should weigh at least 750 pounds empty, or be securely anchored to the premises were located. The body should consist of steel, at least 1 inch in thickness, either cast or fabricated, with an ultimate tensile strength of 50,000 pounds per square inch and be fastened in a manner equal to a continuous ¼-inch penetration weld having an ultimate tensile strength of 50,000 pounds per square inch. The door should be made of steel that is at least 1½ inches in thickness, and at least equivalent in strength to that specified for the body; and the door should be equipped with a combination lock, and with a relocking device that will effectively lock the door if the combination lock is punched. One hole not exceeding ½-inch diameter may be provided in the body to permit insertion of electrical conductors, but should be located so as not to permit a direct view of the door or locking mechanism. Alternatively, safes should be constructed of materials that will afford at least equivalent burglary resistance.

(iii) *Safe deposit boxes.* Safe deposit boxes used to safeguard customer valuables should be enclosed in a vault or safe meeting at least the above-specified minimum protection standards.

(iv) *Night depositories.* Night depositories (excluding envelope drops not used to receive substantial amounts of currency) contracted for after February 15, 1969, should consist of a receptacle chest having cast or welded steel walls, top and bottom, at least 1 inch in thickness; a steel door at least 1½ inches in thickness with a combination lock; and a chute, made of steel that is at least 1 inch in thickness, securely bolted or welded to the receptacle and to a depository entrance of strength similar to the chute. Alternatively, night depositories should be so designed and constructed as to afford at least equivalent burglary resistance.[5] The depository entrance should be equipped with a lock. Night depositories should be equipped with a burglar alarm and be designed to protect against the "fishing" of a deposit from the deposit receptacle, and to protect against the "trapping" of a deposit for extraction.

(v) *Cash dispensing machines.* Except as hereinafter provided, cash dispensing machines (including those machines which also accept deposits) contracted for after [*effective date to be designated*] should weigh at least 750 pounds empty, or be securely anchored to the premises where located. These machines should contain, among other features, a storage chest having cast or welded steel walls, top, and bottom, at least 1 inch in thickness, with a tensile strength of at least 50,000 pounds per square inch. The door should be constructed of steel at least equivalent in strength to the storage chest and be equipped with a combination lock and with a relocking device that will effectively lock the door if the combination lock is punched. The housing covering the cash dispensing opening (and, when applicable, deposit receiving opening) in the storage chest, and the housing covering the mechanism for removing the cash from the storage chest, should be so designed as to provide burglary resistance at least equivalent to the storage chest and should also be designed to protect against the "fishing" of cash from the storage chest. The cash dispensing control and delivery mechanisms (and, when applicable, cash deposit receipt mechanism) should be protected by steel, at least ½-inch in thickness, securely attached to the storage chest. The cash dispensing machine should be designed so as to be protected against actuation by unauthorized persons, should be protected by a burglar alarm, and should be located in a well-lighted area. Alternatively, cash dispensing machines should be so designed and constructed as to afford at least equivalent burglary resistance.[6]

[1] It should be emphasized that this thickness is merely bullet resistant and not bullet-proof.

[2] Vaults contracted for previous to this date should be constructed in conformance with all applicable specifications then in effect.

[3] The reinforced concrete should have: two grids of No. 5 (⅝ inch diameter) deformed steel bars located in horizontal and vertical rows in each direction to form grids not more than 4 inches on center; or two grids of expanded steel bank vault mesh placed parallel to the face of the walls, weighing at least 6 pounds per square foot to each grid, having a diamond pattern not more than 3" x 8"; or two grids of any other fabricated steel placed parallel to the face of the walls, weighing at least 6 pounds per square foot to each grid and having an open area not exceeding 4 inches on center. Grids are to be located not less than 6 inches apart and staggered in each direction. The concrete should develop an ultimate compression strength of at least 3,000 pounds per square inch.

[4] Equivalent burglary-resistant materials for vaults do *not* include the use of steel lining, either inside or outside a vault wall, in lieu of the specified reinforcement and thickness of concrete.

[5] Equivalent burglary-resistant materials for night depositories include the use of ¼-inch steel plate encased in 6 inches or more of concrete or masonry building wall.

[6] Equivalent burglary-resistant materials for cash dispensing machines include the use of ⅜-inch thick 8 percent nickel stainless steel alloy in place of 1-inch thick steel, if other criteria are satisfied.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-9891]

NET CAPITAL RULE

Proposed Uniform and Comprehensive Regulation

The Securities and Exchange Commission announced today the first proposal to substantially revise Rule 15c3-1 (the net capital rule) [17 CFR 240.15c3-1] under the Securities Exchange Act of 1934 since the rule was first adopted on October 29, 1942. The revised capital rule would establish a uniform and comprehensive net capital regulation for the entire brokerage industry applicable to all brokers and dealers whether or not they are members of registered national securities exchanges, and contains standards tailored to meet the varying needs of brokers and dealers engaged in different segments of the securities business.

Historically net capital requirements have been fragmented and uneven in their application. Members of the major securities exchanges have operated under one set of capital requirements while the smaller firms, not having exchange memberships, have been subject to the Commission's net capital rule. Invariably inequities arose in this situation, and while the exchanges sought to provide a sound capital base for their members, some of them were unable in the 1968–70 period to cope with the threats to the financial solvency of certain of their members. Furthermore, the lines of responsibility for administering the capital rules were not always clear, and at times affirmative action was not taken to enforce the provisions of the net capital rules. Interpretations were made which undercut protective features of the net capital rules with a consequence that firms which would have been in violation of the Commission's net capital rule continued to function and expose customers to loss due to broker-dealer insolvency. The securities industry was compelled to pay a high price for the financial weaknesses of these members. The funding of the $140 million New York Stock Exchange trust fund to cover customer losses was borne by the industry.

A formal arrangement has now been conceived to insure all customer accounts through the creation of the Securities Investor Protection Corporation (SIPC) in December of 1970. The assessment on members is designed to build up an adequate fund to meet the obligations of SIPC to insure customers against loss up to $50,000 per customer. To the extent the fund is depleted through liquidation costs related to broker-dealers which fail because of undercapitalization or because of weaknesses in their capital structure, the assessment will continue to be an onerous burden upon the broker-dealer community. It is accordingly the objective of the uniform net capital rule not only to enhance the protection of customer funds and securities held by broker-dealers but to protect the SIPC fund by requiring all broker-dealers to operate under a sound capital base. The uniform net capital rule addresses itself to inadequacies and impermanence of capital, the injudicious employment of capital, particularly in the area of undue concentrations of resources, and a number of other facets of the financial structure of broker-dealers which are discussed below.

In proposing this revision to the net capital rule the Commission has drawn heavily from its own experiences during the 1968–70 period, the Commission's Study of Unsafe and Unsound Practices of Brokers and Dealers, the recommendations and improvements of the NASD and the other self-regulatory organizations in the net capital area as well as the recent report on the "Study of the Securities Industry" by the House Subcommittee on Commerce and Finance of the Committee on Interstate and Foreign Commerce (Securities Industry Study). This proposal also takes into account the many advances in the past several years in the area of clearance and settlement of securities transactions.

In the Commission's view this proposal for a uniform net capital rule will enhance the protective mosaic which has been established recently[1] to furnish protection for the integrity of customers' funds and securities as envisioned by Congress when it amended section 15(c)(3) of the Exchange Act by adopting section 7(d) of the SIPC Act.

This proposal to adopt a uniform capital rule is another step toward implementing the objective of a central marketplace which will retain the confidence of individual investors and provide liquidity. At the same time in developing the uniform net capital rule recognition has been given to the need to attract permanent commitments which will arise as the capital requirements of our Nation expand. In a sense, the construction of a sound net capital rule applicable to all broker-dealers is a balancing act, whereby the achievement of customer protection must be accomplished without inhibiting the flow of investment capital to the industry with the ultimate consequence of an industry unable to adequately serve its investor constituents.

THE NET CAPITAL RULE

The purpose of the net capital rule is to provide safeguards for public investors and other broker-dealers by setting standards of financial responsibility to be met by brokers and dealers. The basic although not exclusive concept of the revised rule is liquidity; the object being to require a broker or dealer to have at all times sufficient liquid assets to cover his current indebtedness to all persons. The applicability of the rule does not depend on whether a broker or dealer is required to be registered with the Commission, since the exemptive provisions of section 15(a)(1) of the Exchange Act provide exemptions only from the registration requirements of that section. In addition, section 15(c)(3) of the Exchange Act, as amended, applies to all brokers and dealers regardless of whether or not they confine their business to transactions with only other brokers and dealers.[2]

Rule 15c3-1 as revised may be subdivided into four parts: (1) Classifications of brokers and dealers for purposes of the minimum liquidity requirements deemed necessary for brokers or dealers who confine their business to various segments of the securities business as well as those who are engaged in a general securities business (i.e. a combination of the various segments); (2) Provisions for exemption from the rule for certain brokers and dealers and specialists; (3) Standards for purposes of determining liquidity under the rule; and (4) Minimum equity requirements for all brokers and dealers. Each portion of the rule will be discussed separately.

No attempt is made in this release to discuss every provision of rule 15c3-1 and the discussion which follows will be confined to the revisions of the present rule. The attached proposal clearly identifies new provisions by underlining them and deleted provisions by bracketing them. In commenting on the proposed rule specific reference should be made to the attached proposal. Specific comments are invited as to the impact of various provisions of the proposed revisions to the rule.

1. Classification of broker-dealers. The "Securities Industry Study" recommended that the Commission promulgate a capital rule to permit differing requirements for differing classifications of brokers and dealers so that less stringent rules would apply to those firms who confine their business to specific segments of the securities business and more comprehensive rules would apply to those broker-dealers who do a substantial volume of general brokerage business, underwriting, and market making.[3]

The Commission believes such an approach has merit and has therefore established six classifications of broker-dealers:[4]

(1) Broker-dealers engaged in a general securities business would be required to maintain minimum net capital of $25,000 with an 8:1 ratio of aggregate indebtedness to net capital during their first year of operation and a 15:1 ratio thereafter;[4]

(2) A $50,000 minimum net capital requirement and 15:1 ratio would be required for those broker-dealers who engage in a general securities business but who also endorse or write options, including but not limited to puts, calls, straddles, strips and straps;[5]

(3) A $25,000 minimum net capital requirement and a 15:1 ratio would be required for brokers and dealers engaged as market makers, or $5,000 for each security in which such broker-dealer makes a market up to a maximum of $500,000, whichever is greater. In the case where securities in which the broker-dealer makes a market sell for $5 or less the minimum shall be $500 for each such security;[6]

(4) A $5,000 minimum net capital requirement and 15:1 ratio would be required for those brokers who introduce their transactions as broker to another broker or dealer or a bank as provided in rule 17a-3(b), do not hold customers' funds and securities and do not otherwise carry accounts of customers. If such broker, in addition, sells subscriptions for securities in the manner outlined in the fifth classification below, section 15c3-1(a)(4), he shall not be deemed to be engaged in the general securities business and thus subject to the $25,000 minimum requirement.[7]

(5) A $5,000 minimum net capital requirement and a 15:1 ratio would be required for brokers whose exclusive activities consist of promptly transmitting subscriptions for securities to the issuer, underwriter, or other distributor who in turn delivers the security directly to the subscriber, if the broker does not otherwise hold funds or securities for or owe funds or securities to customers and does not otherwise carry customer accounts.[8]

(6) A $2,500 minimum capital requirement would continue to apply to those brokers or dealers who are engaged in the sale of mutual funds or are otherwise presently subject to this requirement. In addition, those broker-dealers who sell variable annuities and insurance company separate accounts will now be required to have minimum net capital of $2,500.[9]

While the 15:1 ratio of aggregate indebtedness to net capital would continue to apply to all brokers or dealers it should be noted that for brokers or dealers who come within the $5,000 and $2,500 minimums, aggregate indebtedness (AI) is generally an insignificant factor since most of the components of AI as defined in subparagraph (c)(1) of the rule (e.g., securities loaned, fails to receive, customer credit balances etc.), cannot be liabilities of such brokers or dealers.

2. Provisions for exemption of certain broker-dealers and specialists. The revised rule continues the general exemptive provisions of the rule which will continue to be applied as it is presently. This exemptive provision is strictly construed.[10]

The exemption for licensed insurance agents whose securities business is limited to the sale of variable annuity contracts if the issuer of such contract undertakes responsibility for valid claims of customers, has been eliminated and a $2,500 capital requirement has been substituted.[11]

The exception for registered national securities exchanges with capital rules that are more comprehensive than the Commission's has been eliminated. However, inasmuch as the uniform net capital rule constitutes minimum standards for financial responsibility it is expected that the self-regulatory organizations will supplement these minimum standards with their own additional standards of financial soundness to meet unique or differing business conditions of their respective members.

The recent amendment to section 15(c)(3) of the Exchange Act gives the Commission authority with regard to financial responsibility rules for all specialists even though they may not be required to register as broker-dealers under section 15(a)(1) of the Exchange Act. The securities industry is presently in a state of flux and the Commission feels it is not at the present time in a position to recommend minimum capital requirements for specialists different from those standards now applicable to specialists. In the absence of a central marketplace and given the difference in volume on the regional exchanges and in obligations of specialists on the various exchanges it has been decided to continue the exemption of specialists from the Commission's net capital rule so long as they have no public customers, provided that, the capital rules of those exchanges, applicable to specialists remain satisfactorily comprehensive to the Commission. This exemption for specialists differs from the earlier exemption given to exchanges in that the Commission would have authority to withdraw such exemption not only as to a particular exchange but also as to a particular specialist on 10 days written notice.

3. Standards for purposes of determining liquidity—A. Aggregate indebtedness (AI). The definition of AI under the revised rule remains unchanged. For purposes of streamlining the rule, clause (c)(1)(ii) has been eliminated as the Commission has determined that the exclusion from AI therein provided is encompassed in clause (c)(1)(i).

The exclusion from AI presently contained in clause (c)(1)(v), for indebtedness adequately collateralized by "exempted securities," has been eliminated. This exclusion apparently permitted the exclusion from AI of indebtedness simply because it is collateralized by exempted securities of customers. All other indebtedness where customers securities are collateral are includable in determining AI. We believe that the intent of section 15(c)(3) of the Exchange Act as amended, requires the inclusion of such indebtedness to accurately reflect a broker-dealers indebtedness to others. To the extent the "exempted securities" are owned by the firm the related indebtedness would continue to be excluded from AI under clause (c)(1)(i).

B. Net capital. In arriving at a broker-dealers net capital, deducted from net worth are those assets not readily convertible to cash. Clause (c)(2)(ii) has been revised to include as assets readily convertible to cash certain receivables which have previously been considered as unsecured and therefore not readily convertible to cash. With the recent advances in the clearance and settlement area and the concomitant decrease in securities movements the likelihood of such receivables being readily convertible to cash in a very short period of time has been improved. Therefore, dividends and interest receivable uncollected 15 days or less are to be considered assets readily convertible to cash. It is proposed that receivables which arise out of free shipments of securities outstanding less than 10 days will receive a deduction equal to 30 percent of the dollar value of such receivables, after 10 days the

full amount of such receivable shall be deducted.

The revised rule also makes clear that short security differences which remain unresolved 7 business days after discovery are charges to net worth. In addition, long security differences which are sold by the broker-dealer shall become a charge against net worth until such time as they are adequately resolved.

The Commission recently amended the net capital rule to permit clearing fund deposits in continuous net settlement clearing systems to be considered as assets readily convertible to cash. At the time the rule was amended we noted that this provision would be reconsidered in reviewing the entire net capital rule. The adoption of a uniform rule will put all clearing fund members in a position of equality and the minimum clearing fund deposit required to be made by a broker-dealer shall be considered an asset not readily convertible to cash. All amounts deposited above the minimum are variable depending upon the activity of each clearing member and will be considered an asset readily convertible to cash.

C. Securities haircuts. Rule 15c3–1 presently haircuts all long and all short securities positions in capital proprietary and other accounts of the broker or dealer. Some of the exchanges whose members are presently exempt from the Commission's rule do not presently haircut both the long and short positions. The Commission maintains that it is important to haircut both the long and short securities position to give full recognition to the liquidity concept and the unpredictable movement in price of particular securities. However, in order to prevent disruption which may result during the transition to a uniform rule we have provided a 12 month phase-in and will deduct only 50 percent of the deductions specified for the lesser of the long or short position during the phase-in period. The full deduction shall be applied on the greater of the long or short position during the phase-in period.

The Commission has determined that in order to meet its responsibilities under section 15(c)(3), as amended, it is necessary to haircut securities issued and guaranteed by the U.S. Government or any agency thereof as well as those securities issued by States and political subdivisions thereof in order to provide a cushion for market fluctuations and allow for the cost of liquidation of such securities. Short term promissory notes and evidence of indebtedness would also be haircut.

The haircuts for U.S. Government and Canadian securities would be 1 percent. Five percent would be deducted for securities of States and political subdivisions.[13]

With respect to nonconvertible debt securities including short term promissory notes and evidences of indebtedness the deductions shall be from 5 to 30 percent varying with the percentage the market value of the security is below its face value. In order to prevent some unusually large haircuts which result when debt securities are selling at deep discounts from par value because the fixed rate of interest is less than the prime rate, the revised rule limits such haircuts to 15 percent of the market value if it is less than 30 percent below par and 20 percent where the market value is more than 30 percent below par if the fixed rate of interest is less than the average prime rate in effect in the city of New York.[13]

Where a security is convertible or exchangeable for other securities within 90 days (formerly 30 days) and the broker-dealer is short the securities into which such security is convertible or exchangeable no deduction need be made.[14]

Undue Concentrations and Limited Numbers of Market Makers

Recently the Commission has discovered a number of situations in which either because there were a limited number of market makers in a security or a broker-dealer had an unusually large position in a particular security, it became unlikely that such securities given the existing market conditions, could be sold at prices at or near the market price quoted in a recognized interdealer quotation system or on an exchange. The Commission was thus faced with situations where the normal haircuts provided in rule 15c3–1 did not provide a sufficient cushion against market fluctuations or illiquid blocks of securities. The revised rule therefore includes a number of provisions which it is believed will correct the deficiencies in the present rule.[15] These are as follows:

(1) For securities (other than exempt securities, debt securities, or preferred securities) not: (1) traded on a registered national securities exchange; (2) listed on NASDAQ; (3) designated as OTC margin securities; (4) redeemable shares of registered investment companies, the haircut shall be 40 percent unless there are more than three bona fide market makers in which case the haircut shall be the normal 30 percent. Bid wanted, offer wanted or other one sided quotes shall not constitute bona fide quotations; [16]

(2) In the case of securities other than exempted securities or redeemable shares of registered investment companies having a market value in excess of 10 percent of net capital before haircuts there shall be an additional deduction equal to 50 percent of the deduction otherwise provided in subparagraph (c)(2)(iii) on that portion of the position in excess of 10 percent of net capital before haircuts. Such deduction shall be applied only on the market value of securities in excess of $10,000 or 500 shares, whichever is greater, in the case of equities and $25,000 in the case of debt securities.

(3) For securities in which there is no ready market or which cannot be publicly sold because of statutory, regulatory, or contractual agreements or are otherwise restricted as to sale, the deduction shall be 100 percent.[17]

(4) In the case of all options written or endorsed by the broker or dealer which result in open contractual commitments of such broker or dealer there shall be an additional deduction from net worth of 50 percent of the deductions otherwise provided by this rule for the amount by which the net long or short position contemplated by the option as well as all other proprietary positions in such issue exceeds 10 percent of net capital before haircuts.[18]

D. Commodities. A number of new provisions have been adopted with regard to commodities. It should be noted that provisions with regard to the net capital treatment of commodities were adopted subsequent to the failure of Ira Haupt & Co. and J. R. Williston & Bean by both the Commission and the various exchanges. We have drawn on some of the more comprehensive provisions of several exchanges in the commodities area. These provisions include the following:

(1) A deduction from net capital equal to the amount necessary to restore the initial margin requirements of the relevant commodity exchange or clearinghouse where the original margin has been depleted by 50 percent.[19]

(2) A deduction from net capital equal to the amount necessary to provide margin equal to 20 percent of the market value in customer commodity accounts with equity, containing spot commodities evidenced by warehouse receipts less than 90 days old. The deduction required shall be the amount necessary to provide 100-percent margin where warehouse receipts are over 90 days old.[20]

(3) A deduction from net capital equal to the amount necessary to provide margin equal to 10 percent of the market value in each customer's combined account with equity containing spot commodities evidenced by warehouse receipts less than 90 days old which are hedged by futures in the same commodity. The deduction required shall be the amount necessary to provide 100-percent margin when the warehouse receipts are more than 90 days old.[21]

(4) Where the daily limit fluctuation of all future commodity contracts for accounts controlled by a single customer exceeds 10 percent of the net worth of the broker-dealer, the dollar amount in excess of 10 percent of net worth shall be deducted in determining net capital.[22]

(5) A deduction from net worth is required for the amount of all credit lines granted for trade accounts on open commodity contracts.[23]

(6) A deduction equal to 30 percent of the market value of all spot commodities long or short in the capital proprietary or other accounts of the broker or dealer and in customers' accounts which liquidate to a deficit. The deduction shall be 10 percent when the spot commodities are hedged by future contracts in the same commodity.[24]

E. Other deductions. Most exchanges presently have maintenance margin requirements for customer accounts. The revised rule would require a deduction from net capital for any deficiencies in a customer margin account if the deficiency exists either by reason of an exchange requirement or a requirement of another regulatory body.[25]

Recent developments in the clearance and settlement area have already reduced the incidence of fails within the securities industry. The requirements of section 15c3–3 are expected to reduce the number of contracts failing even further. The revised rule therefore requires a deduction equal to 100 percent of the market value of all fails to deliver more than 30 calendar days old.[26]

4. Minimum equity requirements for all broker-dealers. One of the serious problems encountered by the securities industry during the 1968–70 period was the inadequacy and impermanence of capital. Much has been written concerning this problem in the past few years and is extensively discussed in the Commission's study of unsafe and unsound practices of brokers and dealers.[27] In an effort to increase the permanence of capital within the securities industry, the Commission is herein proposing a series of provisions with an objective of establishing a permanent capital base for all brokers and dealers.

The most significant of these provisions will require for the first time that broker-dealers have a minimum equity base equal to 30 percent of the total-capital base from which net capital is determined. The Commission has discovered a large number of instances in which broker-dealers were able to comply with the net capital rule although the firms net worth had been entirely depleted. Compliance with the rule was possible only because subordinated debt is a permissible form of capital. Such conditions rendered the firm technically insolvent since its liabilities exceeded its assets. The minimum equity provision requires that at least 30 percent of the total of net worth, subordinated equities of partners and subordinated indebtedness must be attributable to net worth of the broker or dealer.[28] A violation of this provision would not be permitted to continue for a period longer than 90 days and during the continuance of such violation no capital distributions, dividends, or redemptions of capital would be permitted.[29]

The revised rule also includes a number of other provisions which increase the permanence of subordinated debt. Insiders would have to contribute subordinated capital for a minimum of 3 years while outsiders would be required to subordinate capital for a period of 2 years.[30] Acceleration provisions would be permitted only on 6-months notice to the relevant self-regulatory organization but in no event could acceleration cause capital to be withdrawn earlier than the 2- or 3-year minimum time requirements of this section. Another provision would exclude from total capitalization 50 percent of the value of a subordinated loan 90 days prior to its maturity if the subordinated loan was not to be renewed.[31]

Where securities have been contributed as collateral for subordinated loans and the value of the securities after giving effect to the haircut provisions of this section falls below the amount of the loan the broker-dealer must notify the lender who may: (1) Contribute additional cash or securities to increase the collateral up to a point where it is sufficient to collateralize the loan; (2) be sold out by the broker-dealer if he does not contribute additional cash or securities; or (3) reduce the amount of the loan by up to 15 percent if the broker-dealers ratio of aggregate indebtedness to net capital will not exceed 1000 percent after such reduction.

In addition, the revised rule would lock-in subordinated capital if the effect of such a withdrawal would cause the broker-dealer's ratio of aggregate indebtedness to net capital to exceed 1,200 percent, or its withdrawal would reduce net capital below 120 percent of the minimum requirements of this rule. Also, if less than 50 percent of the firms' total capital base was in the form of net worth or its capital ratio is or would be above 10 to 1 as a result thereof, no dividends or distributions may be made and no proprietary capital shall be withdrawn.[32]

Finally, the revised rule would permit two temporary infusions of subordinated capital, for a minimum period of 45 days, annually for the purpose of engaging in unusually large underwritings under certain limited conditions.[33] At the time of such infusion the broker-dealer could not be in violation of any other provision of this section,[34] his aggregate indebtedness could not exceed 1,000 percent of net capital at the time of infusion and the broker-dealer may not have been subject to any of the reporting provisions of section 17a–11 during the 12 months prior to the temporary infusion. Such temporary infusions could not be withdrawn if its effect would be to increase the firm's ratio of aggregate indebtedness to net capital above 1,200 percent.

Commission Action

The Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934, and particularly sections 10(b), 15(c)(3), 17(a), and 23(a) thereof, and deeming it in the public interest and for the protection of investors, hereby proposes to amend § 240.15c3–1 of Chapter II of Title 17 of the Code of Federal Regulations as set forth below.

§ 240.15c3–1 Net capital requirements for brokers and dealers.

(a) No broker or dealer shall permit his aggregate indebtedness to all other persons to exceed 1,500 percent of his net capital, and every broker or dealer shall have the net capital necessary to comply with the following conditions:

(1) If he becomes registered as a broker or dealer on or after August 13, 1971, his aggregate indebtedness to all other persons on and after August 30, 1972, and for 12 months after becoming registered shall not exceed 800 percent of his net capital, and except as provided for in paragraphs (a)(3) and (4) of this section, he shall have and maintain net capital of not less than $25,000; and

(2) If he became registered as a broker or dealer before August 13, 1971, and he does not come within the provisions of paragraphs (a)(3) or (4), of this section, he shall have and maintain net capital of not less than $5,000 prior to July 31, 1973, $15,000 commencing July 31, 1974;

(3) Notwithstanding the provisions of paragraphs (a)(1) and (2) of this section, if as an introducing and forwarding broker he introduces all transactions and accounts of customers and forwards all of the funds and securities of his customers received in connection with his activities as a broker on a fully disclosed basis, and does not otherwise hold funds or securities for, or owe money or securities to, customers he shall have and maintain net capital of not less than $5,000 if he does not otherwise carry accounts of or for customers;

(4) Notwithstanding the provisions of paragraphs (a)(1), (2), and (3) of this section, if exclusive activities of the broker consists of promptly transmitting subscriptions for securities to the issuer, underwriter or other distributor of such securities and of receiving checks, drafts, notes, or other evidences of indebtedness payable solely to the issuer, underwriter, or other distributor who delivers the security directly to the subscriber, and if the broker does not otherwise hold funds or securities for, or owe money or securities to, customers, he shall have and maintain net capital of not less than $5,000 if he does not otherwise carry accounts of or for customers;

(5) The minimum net capital to be maintained by a broker or dealer meet-

ing all of the following conditions shall be $2,500:

(i) His dealer transactions (as principal for his own account) are limited to the purchase, sale and redemption of redeemable shares of registered investment companies or of interests or participations in an insurance company separate account whether or not registered as an investment company; except that a broker or dealer transacting business as a sole proprietor may also effect occasional transactions in other securities for his own account with or through another registered broker-dealer;

(ii) His transactions as broker (agent) are limited to: (A) the sale and redemption of redeemable securities of registered investment companies or of interests or participations in an insurance company separate account whether or not registered as an investment company; (B) the solicitation of share accounts for savings and loan associations insured by an instrumentality of the United States; and (C) the sale of securities for the account of a customer to obtain funds for immediate reinvestment in redeemable securities of registered investment companies; and

(iii) He promptly transmits all funds and delivers all securities received in connection with his activities as a broker or dealer, and does not otherwise hold funds or securities for, or owe money or securities to, customers;

(6) Notwithstanding the provisions of paragraphs (a) (1), (2), (3), and (4) of this section, if the broker or dealer is engaged as a market maker as defined in paragraph (c)(9) of this section he shall maintain net capital in an amount not less than $5,000 for each security in which he makes a market (unless a security in which he makes a market has a market value of $5 or less in which event the amount shall be not less than $500 for each such security) except that under no circumstances shall he have net capital of less than $25,000 or as required by paragraphs (a) (1) or (2) of this section or be required to maintain net capital of more than $500,000 unless otherwise required herein; and

(7) Notwithstanding the provisions of paragraphs (a)(1)–(6) of this section if a broker-dealer also engages in the business of endorsing or writing options, including but not limited to puts, calls, straddles, strips or straps under no circumstances shall he have net capital of less than $50,000.

(b) (1) The provisions of this section shall not apply to any specialist having no public customers who is in good standing and subject to the capital rules of the American Stock Exchange, the Boston Stock Exchange, the Midwest Stock Exchange, the New York Stock Exchange, the Pacific Coast Stock Exchange, the Philadelphia-Baltimore-Washington Stock Exchange, whose rules, settled practices and applicable regulatory procedures are deemed by the Commission to impose requirements that are satisfactory to the Commission: *Provided, however,* That this exemption as to a particular specialist of any exchange or as to the exchange itself, may be suspended or withdrawn by the Commission at any time, by sending ten (10) days written notice to such exchange or specialist, if it appears to the Commission to be necessary or appropriate in the public interest or for the protection of investors so to do.

(2) The Commission may, upon written application, exempt from the provisions of this section either unconditionally or on specified terms and conditions, any broker or dealer who satisfies the Commission that, because of the special nature of his business, his financial position, and the safeguards he has established for the protection of customers' funds and securities, it is not necessary in the public interest or for the protection of investors to subject the particular broker or dealer to the provisions of this section.

(c) Definitions. For the purpose of this section:

(1) The term "aggregate indebtedness" shall be deemed to mean the total money liabilities of a broker or dealer arising in connection with any transaction whatsoever, including, among other things: money borrowed, money payable against securities loaned and securities "failed to receive"; the market value of securities borrowed (except for delivery against customers' sales) to the extent to which no equivalent value is paid or credited; customers' free credit balances; credit balances in customers' accounts having short positions in securities; and equities in customers' commodities futures accounts; but excluding:

(i) Indebtedness adequately collateralized, as hereinafter defined, by securities or spot commodities owned by the broker or dealer;

(ii) Amounts payable against securities loaned which securities are owned by the broker or dealer;

(iii) Amounts payable against securities failed to receive which securities were purchased for the account of, and have not been sold by, the broker or dealer;

(iv) Amounts segregated in accordance with the Commodity Exchange Act and the rules and regulations thereunder;

(v) Fixed liabilities adequately secured by real estate or any other asset of the broker or dealer which is not included in the computation of "net capital" under this section;

(vi) Liabilities on open contractual commitments;

(vii) Indebtedness subordinated to the claims of general creditors pursuant to a satisfactory subordination agreement, as hereinafter defined, subject to the limitations in paragraph (c)(17) of this section; and

(viii) Liability Reserves established and maintained for refunds of charges required by section 27 (d) and (f) of the Investment Company Act of 1940, but only to the extent of the amounts on deposit in a segregated trust account in accordance with section 27d–1 under the Investment Company Act of 1940.

(2) The term "net capital" shall be deemed to mean the net worth of a broker or dealer (that is, the excess of total assets over total liabilities), adjusted by:

(i) Adding unrealized profits (or deducting unrealized losses) in the accounts of the broker or dealer and, if such broker or dealer is a partnership, adding equities (or deducting deficits) in accounts of partners, as hereinafter defined, subject to the limitations of paragraph (c)(17) of this section;

(ii) (A) Deducting fixed assets and assets which cannot be readily converted into cash (less any indebtedness secured thereby) including, among other things, real estate; furniture and fixtures; exchange memberships; prepaid rent; insurance and expenses; goodwill; organization expenses; all unsecured advances and loans; customers' unsecured notes and accounts; receivables arising out of free shipments of securities aged 11 days or longer; dividends and interest receivable aged 16 days or longer; all other unsecured receivables; the market value of short security differences unresolved for 7 business days after discovery; the market value of long security differences where the securities have been sold by the broker-dealer until they are resolved; and deficits in customers' accounts, except in bona fide cash accounts within the meaning of section 4(c) of Regulation T of the Board of Governors of the Federal Reserve System; and the funds on deposit in a "segregated trust account" in accordance with Rule 27d–1 under the Investment Company Act of 1940, but only to the extent that the amounts on deposit in such segregated trust account exceed the amount of liability reserves established and maintained for refunds of charges required by section 27(d) and 27(f) of the Investment Company Act of 1940; and the minimum clearing deposit required by any "clearing agency": *Provided, however,* That the amount deposited in the "Special Reserve Bank Account for the Exclusive Benefit of Customers" established pursuant to Rule 15c3–3 shall not be so deducted.

(B) Deducting 30 percent of the dollar amount of receivables arising out of free shipments of securities outstanding 10 days or less.

(iii) Deducting the percentages specified below of the market value of all securities, long and short in the capital, proprietary and other accounts of the broker or dealer, including securities loaned to the broker or dealer pursuant to a satisfactory subordination agreement, as hereinafter defined, and if such broker or dealer is a partnership, in the accounts of partners, as hereinafter defined: *Provided, however,* That for the 12 months following [date of adoption] the broker or dealer shall deduct 100 percent of the deductions specified below of the greater of the long or short positions in the accounts specified above, but deduct only 50 percent of the deductions provided for below for the lesser of its long or short positions in the accounts specified above, thereafter 100 percent of the deductions specified below shall be applied; the Commission may prescribe higher percentages than those specified below where necessary or appropriate in the public interest or for the protection of investors;

(A) In the case of a security issued or unconditionally guaranteed as to principal and interest by the United States or any agency thereof 1 percent of its market value shall be deducted,

(B) In the case of any security issued or unconditionally guaranteed as to principal and interest by any State, territory or possession of the United States or any political subdivision thereof, or any authority, commission or agency of a State, territory, or possession of the United States or any political subdivision thereof, which are not in default as to principal or interest, 5 percent of its market value shall be deducted,

(C) In the case of any security issued or unconditionally guaranteed by the Government of Canada or any agency thereof, the percentages of market value to be deducted is the same as in paragraph (c)(2)(iii)(A) of this section.

(D) In the case of nonconvertible debt securities (including any short term promissory note or evidence of indebtedness issued by any industrial, commercial or finance company, and which has a maturity at the time of issuance of not exceeding 9 months, exclusive of days of grace, or any renewal thereof the maturity of which is likewise limited) having a fixed interest rate and fixed maturity date which are not in default as to principal or interest, if the market value is not more than 5 percent below the face value the deduction shall be 5 percent of such market value; if the market value is more than 5 percent but not more than 30 percent below the face value, the deduction shall be a percentage of market value, equal to the percentage by which the market value is below the face value unless the fixed rate of interest is less than the average prime rate currently in effect in the city of New York in which case the deduction shall be not more than 15 percent; and if the market value is 30 percent or more below the face value, such deduction shall be 30 percent unless the fixed rate of interest is less than the average prime rate currently in effect in the city of New York, in which case the deduction shall not be more than 20 percent.

(E) In the case of cumulative, nonconvertible preferred stock ranking prior to all other classes of stock of the same issuer, which is not in arrears as to dividends, the deduction shall be 20 percent;

(F) In the case of a debt security not in default which has a fixed rate of interest and a fixed maturity date and which is convertible into an equity security, the deduction shall be as follows: If the market value is 90 percent or more of the face value, the deduction shall be 30 percent of the market value, but in no event shall such deduction reduce the value of such security below 80 percent of face value for the purposes of this rule; if the market value is below the face value by more than 10 percent but not more than 30 percent, the deduction shall be a percentage of market value equal to the percentage by which the market value is below the face value; if the market value is 30 percent or more below the face value, the deduction shall be 30 percent.

(G) On all other securities, except as provided for in subdivision (viii) the deduction shall be 30 percent; *Provided, however,* That such deduction need not be made in the case of (*1*) a security which is convertible into or exchangeable for other securities within a period of 90 days, subject to no conditions other than the payment of money, and the other securities into which such security is convertible, or for which it is exchangeable, are short in the accounts of such broker or dealer or partner, or (*2*) a security which has been called for redemption and which is redeemable within 90 days.

(H) For securities (other than exempted securities, nonconvertible debt securities, and cumulative nonconvertible preferred securities) which are not: (*1*) Trade on a national securities exchange, or (*2*) designated as "OTC Margin Stock" pursuant to paragraph (c)(1) of Regulation T of the Federal Reserve Board, or (*3*) listed on "NASDAQ" or (*4*) redeemable shares of registered investment companies, the deduction shall be as follows:

(*i*) In cases where there are regular quotations, in an interdealer quotations system for the securities by three or more independent market makers and where each such quotation represents a bona fide offer to brokers and dealers to both buy and sell in reasonable quantities at stated prices, the deduction shall be 30 percent;

(*ii*) In cases where there are regular quotations in an interdealer quotation system for the securities by less than three independent market makers and where each such quotation represents a bona fide offer to brokers and dealers to both buy and sell in reasonable quantities, at stated prices, the deduction shall be 40 percent;

(I) Where the broker or dealer can demonstrate that there is sufficient liquidity for any securities long or short in the capital, proprietary or other accounts of the broker or dealer subject to a deduction required by paragraph (c)(1)(viii) of this section, such deduction upon a proper showing may be appropriately decreased, but in no case shall such deduction be less than 30 percent.

(J) In the case of securities of a single class or series, other than "exempted securities" or redeemable shares of registered investment companies, held in any of the capital, proprietary, and other accounts of a broker or dealer, which have a market value of more than 10 percent of the "net capital" of a broker or dealer before the application of paragraph (c)(2)(iii) of this section, there shall be an additional deduction from net worth equal to 50 percent of the percentage deduction otherwise provided by this subparagraph on that portion of the securities position in excess of 10 percent of the "net capital" of the broker or dealer before the application of paragraph (c)(2)(iii) of this section: *Provided, however,* That such additional deduction shall be applied in the case of equity securities, only on the market value in excess of $10,000 or the market value of 500 shares, whichever is greater, or $25,000 in the case of a debt security.

(iv) Deducting 30 percent of the market value of all "long" and all "short" future commodity contracts (other than those contracts representing spreads or straddles in the same commodity and those contracts offsetting or hedging any "spot" commodity positions) carried in the capital, proprietary, or other accounts of the broker or dealer and, if such broker or dealer is a partnership, in the accounts of partners as hereinafter defined;

(v) Deducting 30 percent of the market value of spot commodities long or short in the capital, proprietary, and other accounts of the broker or dealer and in customer's accounts liquidating to a deficit. However, the deduction shall be 10 percent of the market value of the spot commodities to the extent they are hedged by future commodity contracts in the same commodity.

(vi) Deducting the total of credit lines granted by the broker or dealer in "trade" accounts, with net long positions or in "trade" accounts with net short positions, whichever is greater plus any credit lines granted on open commodity contracts in "trade" accounts with no net long or net short position (in computing the credit line granted in the case of each account, disregard the amount of the equity or deficit therein). For the purpose of this subsection "trade" accounts shall mean an account for a business entity engaged regularly in the producing, importing, or processing of the commodity or the byproducts thereof for which the credit line is granted.

(vii) Deducting the total amount by which the daily limit fluctuation of all future commodity contracts carried for a customer's account or accounts controlled by a customer exceeds 10 percent of the net worth of the broker or dealer. Contracts in each customer's account representing purchases and sales of a like amount of the same commodity in the same market in the same crop year may be eliminated. The daily limit fluctuations for future contracts effected in foreign markets is to be considered the same as if such contracts had been effected in a domestic market;

(viii) Deducting the amount of cash required to provide margin on all future commodity contracts in customer accounts equal to the amount necessary, after application of outstanding margin calls not met within 2 business days, to restore the original margin required by the relevant commodity exchange or clearinghouse, whichever is greater, per contract, when the original margin has been depleted by 50 percent;

(ix) Deducting the amount of the cash required to provide margin equal to 20 percent of the market value in each cus-

tomer's account with equity, containing spot commodity positions, evidenced by warehouse receipts, issued by a warehouse licensed by a commodity exchange, which are the result of a future contract tendered through an exchange and which are not more than 90 days old, but are not hedged by future contracts in the same commodity. The margin required shall be 100 percent and the amount of the deduction required herein shall be the amount required to provide margin equal to 100 percent where warehouse receipts evidencing spot commodity positions are more than 90 days old or where the warehouse receipt is not issued by a warehouse licensed by a commodity exchange.

(x) Deducting the amount of the cash required to provide margin equal to 10 percent of the market value in each customer's combined account with equity when such account contains spot commodity positions, evidenced by warehouse receipts, issued by a warehouse licensed by a commodity exchange, which are the result of future contracts tendered through an exchange and which are not more than 90 days old, and hedged by future contracts in the same commodity. The margin required shall be 100 percent and the amount of the deduction required herein shall be the amount required to provide margin equal to 100 percent, where warehouse receipts evidencing spot commodity positions are more than 90 days old or where the warehouse receipt is not issued by a warehouse licensed by a commodity exchange;

(xi) Deducting an amount equal to 1½ percent of the market value of the total long or total short futures contracts in each commodity, whichever is greater, carried for all customers.

(xii) Deducting the amount of cash required to meet the maintenance margin requirements for securities including options of any regulatory or self-regulatory authority or exchange to whose authority the broker or dealer is subject;

(xiii) Deducting, in the case of a broker or dealer who has open contractual commitments, the respective deductions as specified in paragraph (c)(2)(iii) of this section from the value (which shall be the market value whenever there is a market) of each net long and each net short position contemplated by any existing contractual commitment in the capital, proprietary, and other accounts of the broker or dealer and, if such broker or dealer is a partnership, in accounts of partners as hereinafter defined: *Provided, however,* That the deduction with respect to any single commitment shall be reduced by the unrealized profit, in an amount not greater than the deduction provided for in paragraph (c)(2)(iii) of this section (or increased by the unrealized loss), in such commitment; and that in no event shall an unrealized profit on any closed transactions operate to increase net capital.

(xiv) Excluding liabilities of the broker or dealer which are subordinated to the claims of general creditors pursuant to a satisfactory subordination agreement as hereinafter defined, subject to the limitations in paragraph (c)(17) of this section;

(xv) Deducting, in the case of a broker or dealer who is a sole proprietor, the excess of (A) liabilities which have not been incurred in the course of business as a broker or dealer over (B) assets not used in the business.

(xvi) Deducting 100 percent of the market value of each item in the securities failed to deliver account which is outstanding 30 calendar days or longer.

(xvii) In the case of securities for which there is no ready market as defined in paragraph (c)(15) of this section, and securities which cannot be publicly offered and sold because of statutory, regulatory, or contractual arrangement or other restrictions, the deduction shall be 100 percent.

(xviii) An additional deduction from net worth shall be required equal to 50 percent of the percentage deduction otherwise provided by paragraph (c)(2)(iii) of this section and required by paragraph (c)(2)(xiii) of this section on that portion of the market value of the net long or net short positions contemplated on all open contractual commitments in options endorsed or written in any security as well as all other long or short positions in such security in the capital, proprietary, or other accounts of the broker or dealer which, when aggregated, exceed 10 percent of the net capital of the broker or dealer before the application of paragraph (c)(2)(iii) of this section; *Provided, however,* That the deduction with respect to any single commitment in such options shall be increased by the unrealized loss in such commitment. *Provided, further,* That if a broker-dealer is required to take a deduction from net worth under this subdivision in a particular security, no further deduction in such security shall be required by reason of the provisions of paragraph (c)(2)(iii)(J) of this section.

(3) The term "exempted securities" shall mean those securities specifically defined as exempted securities in section 3(a)(12) of the Act;

(4) The term "accounts of partners," where the broker or dealer is a partnership, shall mean accounts of partners who have agreed in writing that the equity in such accounts maintained with such partnership shall be included as partnership property; and shall be subordinated pursuant to the provisions of paragraph (c)(7) of this section.

(5) The term "contractual commitments" shall include underwriting, when-issued, when-distributed, and delayed delivery contracts, endorsements of puts and calls, commitments in foreign currencies, and spot (cash) commodities contracts, but shall not include uncleared regular way purchases and sales of securities and contracts in commodities futures; a series of contracts of purchase or sale of the same security conditioned, if at all, only upon issuance may be treated as an individual commitment;

(6) Indebtedness shall be deemed to be "adequately collateralized" within the meaning of this rule, when the difference between the amount of the indebtedness and the market value of the collateral is sufficient to make the loan acceptable as a fully secured loan to banks regularly making comparable loans to brokers or dealers in the community;

(7) The term "satisfactory subordination agreement" shall mean a written agreement duly executed by the broker or dealer and the lender, which agreement is binding and enforceable in accordance with its terms upon the lender, his creditors, heirs, executors, administrators, and assigns, and which agreement satisfies all of the following conditions:

(i) The loan agreement shall be for a specified amount, which amount shall not be reduced for the duration of the agreement;

(ii) It effectively subordinates any right of the lender to demand or receive payment or return of the cash or securities loaned to the claims of all present and future creditors of the broker or dealer;

(iii) The amount of the loan shall be used and dealt with by the broker or dealer as part of its capital and shall be subject to the risks of the business.

(iv) Securities which are fully paid for may be the subject of a subordinated loan to a broker or dealer so long as the total market value of the securities or any cash proceeds arising from the sale thereof, after giving effect to the percentage deductions required under paragraph (c)(2)(iii) of this section for the particular securities are not less than the specified amount of the loan. If such value of the securities after the deductions required under paragraph (c)(2)(iii) of this section plus the cash proceeds of the sale thereof are at any time less than the specified amount of the loan, the broker or dealer must immediately notify the self-regulatory organization of which the broker or dealer is a member and the lender. Following such notice:

(A) The lender may prior to noon of the second business day following receipt of notice contribute additional cash or securities sufficient to bring the value of the securities after giving effect to the percentage deductions required by paragraph (c)(2)(iii) of this section plus the additional cash contributed up to an amount not less than the specified amount of the loan.

(B) Unless such additional cash or securities are so contributed by the lender as provided in paragraph (c)(7)(iv)(A) of this section, the broker or dealer must at noon on the second business day following notice to the lender sell such of the securities as may be necessary to bring the value of the remaining securities after giving effect to the percentage deductions required by paragraph (c)(2)(iii) of this section plus the cash proceeds of the sale of the securities up to an amount not less than the specified amount of the loan. The broker or dealer may not purchase for its own account any securities subject to such a sale.

(C) Notwithstanding paragraph (c)(7)(iv)(B) of this section, the broker or dealer may in lieu of selling the securities so contributed reduce the amount of the loan by an amount no greater than 15 percent of the face amount thereof; *Provided, however,* That such reduction of the amount of the loan does not have the effect of causing the aggregate indebtedness of the broker or dealer to exceed 1,000 percent of his net capital; and *Provided further,* That no single loan shall be permitted to be reduced by more than 15 percent of the original face amount of the loan. Where the face amount of the loan has been reduced as provided for in this subdivision any further reduction of the value of securities contributed after giving effect to the percentage deduction required under paragraph (c)(2)(iii) of this section, below the face amount of the loan shall be subject to the requirements of paragraph (c)(7)(iv)(A) and (B) of this section.

(v) The right of a subordinated lender who is an insider to demand or receive payment or return of the amount loaned or the collateral pledged under the agreement shall be effectively subordinated to the claims and demands of all outsider subordinated lenders as well as all present and future creditors of the broker or dealer.

(vi) In the case of a subordination agreement between a broker-dealer and an insider the maturity date of the indebtedness must be not less than 3 years from the execution date of the agreement. In the case of a subordination agreement with an outsider the maturity date of the indebtedness must be not less than 2 years from the execution date of the agreement. The agreement shall not provide for acceleration of the maturity or otherwise shortening such maturity dates required by this rule. Any acceleration provisions, if not prohibited by this rule must be executed on not less than 6 months written notice to the broker or dealer.

(vii) In the case of a loan otherwise subject to a satisfactory subordination agreement, 50 percent of the amount of the loan shall be deducted from net capital 90 days prior to the maturity date of the agreement and 100 percent deducted thereafter, except in the cases where (A) the broker or dealer can demonstrate that the lender or some other party has executed another satisfactory subordination agreement that is at least equal in amount to the agreement reaching maturity and that such new agreement will take effect simultaneously with the expiration of the matured agreement or (B) the lender cannot withdraw such loan by reason of the provisions of paragraph (c)(7)(viii) of this section.

(viii) The loan shall not be repaid if the effect thereof would be that aggregate indebtedness of the broker or dealer exceeds 1,200 per centum of his net capital or his net capital would fail to meet 120 percent of the minimum dollar amount required by this rule. The obligation of the broker or dealer to repay the loan shall be postponed until, after giving effect to such payment and the payment of any other loan whose maturity date, whether normal or accelerated, falls due on or before the maturity date of such loan or on or before the payment of such loan, the aggregate indebtedness of the broker or dealer would not exceed 1,200 per centum of its net capital or its net capital would equal or exceed the minimum dollar amount required by this rule by more than 120 percent.

(ix) The agreement shall not be subject to cancellation by either party and the loan shall not be repaid and the agreement shall not be terminated, rescinded, or modified by mutual consent or otherwise if the effect thereof would be to render the agreement inconsistent with the conditions of this rule.

(x) Each broker or dealer shall immediately notify the Commission and the self-regulatory organization of which it is a member at least 6 months prior to maturity of any loan if after giving effect to the payment of the loan the aggregate indebtedness of the broker or dealer net capital or its net capital would fail to equal the specified minimum dollar amount required by the rule.

(xi) No default in the payment of interest or in the performance of any covenant or condition by the broker or dealer shall have the effect of accelerating the maturity of the indebtedness.

(xii) Any notes or written instruments evidencing the indebtedness shall bear on their face an appropriate legend stating that such notes or instruments are issued subject to the provisions of a subordination agreement which shall be adequately referred to and incorporated by reference.

(xiii) The broker or dealer shall have the right to:

(A) Deposit any cash proceeds of a subordinated loan in an account or accounts in its own name in any bank or trust company.

(B) Without notice to pledge, repledge, hypothecate, rehypothecate, any or all of the collateral in a subordinated agreement, separately or in common with other securities or property, to secure indebtedness of the broker or dealer.

(C) Lend to itself or others any or all of the collateral.

(D) The securities or other property loaned to the broker or dealer pursuant to the subordinated agreement may in all respects be used and dealt with as part of his capital and shall be subject to the risks of the business.

(xiv) All securities subject to a subordinated agreement must be held by the broker or dealer in its own name or in the name of its nominee; and

(xv) Two copies of such agreement, and of any notes or written instruments evidencing the indebtedness, are filed, within 10 days after such agreement is entered into, with the regional office of the Commission for the region in which the broker or dealer maintains his principal place of business, or to the self-regulatory body designated by the Commission, together with a statement of the full name and address of the lender, the business relationship of the lender to the broker or dealer, and whether the broker or dealer carried funds or securities for the lender at or about the time the agreement was entered into.

(xvi) For the purpose of enabling a broker or dealer to participate as an underwriter with respect to a public offering of securities in compliance with net capital requirements of this rule a broker or dealer shall be permitted in any 12-month period to incur indebtedness subject to a satisfactory subordination agreement on a temporary basis which shall bear a maturity date no less than 45 days from the date of such subordination agreement: *Provided, however,* That this temporary relief shall not apply to a broker or dealer if, within the 12 months prior to incurring such subordinated indebtedness he has been subject to any of the reporting provisions of Rule 17a-11 under the Act irrespective of his compliance with such provisions and, *Provided further,* That immediately prior to incurring such subordinated indebtedness his ratio of aggregate indebtedness to net capital is not above 1,000 percent and that the amount of his subordinated indebtedness does not exceed the limits specified in paragraph (c)(17) of this section. Such temporary subordinated indebtedness shall not be subject to any cancellation or acceleration provisions by mutual consent or otherwise and shall not be withdrawn if the effect thereof would cause aggregate indebtedness of the broker or dealer to exceed 1,200 percent of his net capital.

(8) The term "customer" shall mean every person except the broker or dealer: *Provided, however,* That partners who maintain "accounts of partners" as herein defined shall not be deemed to be customers insofar as such accounts are concerned.

(9) The term "market makers" shall mean a dealer, who, with respect to a particular security (i) regularly publishes bona fide, competitive bid and offer quotations in a recognized interdealer quotation system, (ii) furnishes bona fide competitive bid and offer quotations to other brokers and dealers on request, and (iii) is ready, willing, and able to effect transactions in reasonable quantities at his quoted prices, with other brokers and dealers.

(10) The term "associated person" shall have the same meaning as that stated in section 3(a)(18) of the Securities Exchange Act of 1934.

(11) The term "immediate family" shall include parents, mother-in-law or father-in-law, husband or wife, brother or sister, brother-in-law or sister-in-law, children, or any relative living in the same household as the broker or dealer or to whose support the broker or dealer or person associated with the broker or dealer, contributes directly or indirectly.

(12) The term "insider subordinated lender" shall mean any lender executing a subordination agreement pursuant to the provisions of this rule who is an associated person of the borrowing member as defined in paragraph (c)(10) of

V 38 - 1 JAN 3 73 XUM

this section or a member of the immediate family of such person as defined in paragraph (c)(11) of this section.

(13) The term "outsider subordinated lender" shall mean any lender other than an insider subordinated lender executing a satisfactory subordination agreement pursuant to the provisions of this paragraph.

(14) A broker or dealer is deemed to "promptly transmit" all funds and to "promptly deliver" all securities within the meaning of paragraphs (a)(4) and (a)(5) of this section where such transmission or delivery is made no later than noon of the next business day after the receipt of such funds or securities.

(15) The term "ready market" shall include a recognized established securities market in which there exists independent bona fide offers to buy, so that a realizable price, reasonably related to the last sales price, can be determined for the particular security almost instantaneously and where payment will be received in settlement of a sale within a relatively short time conforming to trade custom.

(16) For the purpose of this rule "clearing agency" shall include any person who acts as intermediary among participants in making payments or deliveries in connection with transactions in securities or who engaged in providing facilities for participants for netting of purchases and sales of specific securities to reduce the number of settlements of individual transactions, or the allocation of cash and securities settlement responsibilities among itself and participants. Such term also means a person who is a custodian of securities in accordance with a system for the central handling of securities whereby all securities of a particular class or series of any issuer deposited within the system are treated as fungible and may be transferred or pledged by bookkeeping entry without physical delivery thereof.

(17) The amount of subordinated indebtedness which, under paragraph (c)(1)(vii) of this section, may be excluded from aggregate indebtedness or which, under paragraph (c)(2)(xiv) of this section may be excluded from the liabilities of a broker or dealer in computing net capital and the amount by which the addition to net worth of equities in the accounts of partners as provided in paragraph (c)(2)(i) of this section is to be limited shall be determined as follows: The amount of such indebtedness shall, in the case of a corporation, be added to paid-in capital, capital surplus, retained earnings, and other capital accounts of the corporation, and the sum thereof shall be designated as the "corporate debt-equity total"; and in the case of a partnership, such amounts of indebtedness and equities in the accounts of partners as hereinbefore defined, shall be added to the capital accounts of the partnership and the sum thereof shall be designated as the "partnership debt-equity total"; and, in the case of a sole proprietor, such amounts of indebtedness shall be added to the capital or proprietary accounts of the sole proprietorship and the sum thereof shall be designated as the "sole proprietorship debt-equity total." If the amounts of such subordinated indebtedness and, in the case of partnership, equities in the accounts of partners as hereinbefore defined, exceed 70 percent of such corporate debt-equity total, or partnership debt-equity total, or sole proprietorship debt-equity total, as the case may be, for a period in excess of 90 days, then such excess of subordinated indebtedness and in the case of a partnership, equities in the accounts of partners as hereinbefore defined, shall not be excluded from the liabilities of the broker or dealer in the computation of net capital, and shall not under paragraph (c)(2)(i) of this section, be added to net worth as equities in the accounts of partners.

(d) No proprietary capital whether in the form of capital contributions by partners, or represented by stock, paid-in capital, capital surplus, retained earnings or otherwise may be withdrawn by action of a stockholder or partner, or by redemption or repurchase of shares of stock by the broker or dealer or through the payment of dividends or any similar distribution, if the effect thereof would be that aggregate indebtedness of the broker or dealer would exceed 1,000 percent of his net capital, his net capital would fail to equal or 120 percent of the minimum dollar amount required by this rule, or if it would cause subordinated indebtedness or equities in the accounts of partners, as hereinbefore defined, to exceed 50 percent of the corporate, partnership, or sole proprietorship debt-equity total as defined in paragraph (c)(17) of this section or while such condition exists.

All interested persons are invited to submit their views in writing on this proposal to amend Rule 15c3-1 within 90 days after the date hereof, to Lee A. Pickard, Associate Director, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street NW., Washington DC 20549. All such communications should bear the file No. S7-460 and will be available for public inspection.

By the Commission.

RESEARCH ADVISORY COMMITTEE

Determination Closing Meeting

A meeting of the Research Advisory Committee for the Agency for International Development will be held on January 8 and 9, 1973. The purpose of the meeting will be to consider and formulate recommendations to the agency with respect to specific research projects proposed to be performed by specific organizations or institutions in the fields of agricultural water management, agricultural breeding, fertilizer technology, human nutrition, mineralogy, and housing technology.

I hereby determine, pursuant to subsection 10(d) Public Law 92-463, The Federal Advisory Committee Act, that the meeting will consist of an exchange of opinions, that the discussion if written would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close such meeting to protect the free exchange of internal views and to avoid undue interference with committee operations.

DEPARTMENT OF THE TREASURY

Office of the Secretary

REVENUE SHARING ALLOCATIONS

Availability of Entitlement Data

The data used by the Department of the Treasury in calculating revenue-sharing allocations for each State government and unit of local government pursuant to the State and Local Fiscal Assistance Act of 1972 (Public Law 92-512) for the first entitlement period (January 1, through June 30, 1972) has been provided to each government. Collective data for all of the units of government receiving revenue-sharing funds will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

This data has been compiled by the Bureau of the Census, and definitions of each data element are provided in this notice. If recipient governments have reason to believe that there are errors in this data, relative to these definitions and effective dates, they should so inform the Department in writing and provide the Department with whatever substantiating evidence is available to them no later than February 12, 1973. If the Department has not been so informed before that date, the data elements published will be determined to be correct and as such will constitute a final determination by the Department.

Upon receipt of any written response from recipient governments the Department will, as timely as practicable, confer with the Bureau of the Census to substantiate or correct all data questioned and the recipient governments will be advised of the Department's findings. Those findings will include a final determination of the recipient government's revenue sharing entitlement unless, within 60 days from the date of those findings, the recipient government advises the Department that there may still be a possibility of error, and submits additional evidence and documentation supplying the basis for their view. Any such additional evidence and documentation submitted will be carefully reviewed and a final determination will be made by the Department regarding the entitlement.

In order to assure equitable treatment of each recipient the books will be kept open until all evidence and documentation submitted during the time periods referred to above have been reviewed, data determined to be erroneous corrected, and necessary adjustments made.

There is one instance in which the Department has determined that the census data may not provide for equitable allocations. For cities and towns of under 500 in population, the per capita income is subject to substantial statistical error, and the Department has, therefore, determined that it will use the per capita income of the county area in which such unit of government is located as an estimate of the per capita income of that unit.

[SEAL] SAMUEL R. PIERCE, JR., *General Counsel.*

DATA DEFINITIONS FOR INTRASTATE ALLOCATIONS TO LOCAL GOVERNMENTS

POPULATION

Population means the total resident population for an area as determined by the Bureau of the Census in the 1970 Census of Population. The census was conducted primarily through self-examination. Each person enumerated in the 1970 census was counted as an inhabitant of his usual place of residence. This means the place where he lives and sleeps most of the time, which is not necessarily his legal residence, voting residence, or domicile. Persons without a usual place of residence were counted where they were enumerated. The data collected is dated as of April 1, 1970 and it relates to boundaries of enumeration districts as they existed on January 1, 1970.

AGGREGATE INCOME

Income or aggregate income means total money income as defined by the Bureau of the Census in the 1970 Census of Population and Housing. Information on money income for calendar year 1969 was collected in a 20 percent sample as part of the 1970 census.

Total income is the sum of:

1. Wage or salary income,
2. Nonfarm net self-employment income,
3. Farm net self-employment income,
4. Social security or railroad retirement income,
5. Public assistance or welfare income,
6. All other income such as interest, dividends, veterans' payments, pensions, unemployment insurance, alimony, etc.

The figures represent the amount of income regularly received before deductions for personal income taxes, social security, bond purchases, union dues, medicare deductions, etc.

Receipts from the following sources were not included as income: Money received from the sale of personal property; capital gains; the value of income "in kind" such as food produced and consumed in the home or free living quarters; withdrawal of bank deposits; money borrowed; tax refunds; exchange of money between relatives living in the same household; gifts and lump sum inheritances, insurance payments, and other types of lump sum receipts.

PER CAPITA INCOME

Per capita income of any unit of government, as defined by the Bureau of Census in the 1970 Census of Population and Housing, is the mean income computed for all persons in that unit of government. Per capita income was computed from calendar year 1969 money income data which was collected in a 20 percent sample as part of the 1970 Census. It is derived by dividing the

V 38 - 1 JAN 3 73 XUM

total income of the sample by the total population of the sample.

ADJUSTED TAXES

The adjusted taxes for a unit of local government, as derived from the special revenue sharing survey conducted by the Bureau of the Census in 1972, are the total general purpose taxes exacted by the unit of government in fiscal year 1971 excluding taxes for schools and other education purposes. Total general purpose taxes include:

1. *Property taxes.*—County, municipal, or township taxes on property, real or personal, measured by value.

2. *Sales taxes.*—County, municipal, or township taxes, either general or specific, on goods and services, measured as a percent of sales or receipts, or as an amount per unit sold.

a. General sales tax.
b. Gasoline tax.
c. Liquor tax.
d. Cigarette and tobacco tax.
e. Public utilities tax.
f. Other.

3. *License, permits and other taxes.*—County, municipal, or township taxes not included in items 1 and 2 above (e.g.: poll taxes, license and inspection charges on occupations, and businesses, animals, vehicles, etc.)

a. Income payroll or earnings tax.
b. Motor vehicle licenses.
c. Fees retained from tax collections by officials of the unit of government.
d. Other.

General purpose taxes do not include receipts from service charges, special assessments, interest earnings or fines.

School taxes are tax revenues of the unit of government which are allocated for school purposes. They include taxes for current capital and debt service purposes as well as amounts collected for the governmental unit by the county or State acting as a collecting agent.

The general formula for computing adjusted taxes is:

Adjusted taxes=total general purpose taxes minus school taxes.

When appropriations from the Governments' general fund to the school system form the only basis for determining school taxes the following formula is used:

School taxes=school expenditures minus (school intergovernmental revenue plus school service charge revenue).

INTERGOVERNMENTAL TRANSFERS OF REVENUE

Intergovernmental transfers of revenue are amounts received by a unit of government from other governments in fiscal year 1971 for use in performing specific functions or for general financial support. This amount is derived from the special revenue sharing survey conducted by the Bureau of the Census in 1972. The figure includes grants, shared taxes, contingent loans and reimbursements for tuition costs, hospital care, construction costs, etc. Intergovernmental revenue does not include amounts received from sale of property, commodities or utility services to other governments.

6¾ PERCENT TREASURY BONDS OF 1993

Offering of Bonds

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders for $625 million, or thereabouts, of bonds of the United States, designated 6¾ percent Treasury Bonds of 1993. Tenders on a competitive or noncompetitive basis will be received up to 1:30 p.m., eastern standard time, Thursday, January 4, 1973. The price for the bonds will be established as set forth in section III hereof.

II. *Description of bonds.* 1. The bonds will be dated January 10, 1973, and will bear interest from that date at the rate of 6¾ percent per annum, payable on a semiannual basis on August 15, 1973, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature February 15, 1993, and will not be subject to call for redemption prior to maturity.

2. The income derived from the bonds is subject to all taxes imposed under the Internal Revenue Code of 1954. The bonds are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1 million. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing U.S. bonds.

III. *Tenders and allotments.* 1. Tenders will be received at Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington, D.C. 20220, up to the closing hour, 1:30 p.m., eastern standard time, Thursday, January 4, 1973. Each tender must state the face amount of bonds bid for, which must be $1,000 or a multiple thereof, and the price offered except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Fractions may not be used. It is urged that tenders be made on the printed forms and forwarded in the special envelopes marked "Tender for Treasury Bonds", which will be supplied by Federal Reserve Banks on application therefor.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others than commercial banks will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, federally insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign states, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of bonds applied for.

3. In considering the acceptance of tenders, those at the highest prices will be accepted in full to the extent required to attain the amount offered; *Provided, however,* That tenders at the lowest of such accepted prices will be prorated if necessary. All tenders so accepted will be allotted at the price of the lowest accepted tender. Those submitting tenders will be advised of the acceptance, and awarded price, or the rejection of their bids. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept less than $625 million of tenders, and his action in any such respect shall be final. Subject to these reservations noncompetitive tenders for $250,000 or less will be accepted in full at the same price as accepted competitive tenders. The price may be 100.00, or more or less than 100.00.

4. All bidders are required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of any bonds of this issue at a specific rate or price, until after 1:30 p.m., e.s.t., Thursday, January 4, 1973.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the bank's tenders for their own account.

IV. *Payment.* 1. Payment for accepted tenders must be made or completed on or before January 10, 1973, at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220, in cash or other funds immediately available by that date. Payment will not be deemed to have been completed where registered bonds are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of bonds allotted shall, upon declaration made by the Secretary of the Treasury

in his discretion, be forfeited to the United States.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of bonds on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

DEPARTMENT OF JUSTICE

Bureau of Narcotics and Dangerous Drugs

STIMULANTS

Interim Production Quotas

Section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) requires that the Attorney General establish aggregate production quotas for all controlled substances listed in schedules I and II by July 1 of each year. This responsibility has been delegated to the Director of the Bureau of Narcotics and Dangerous Drugs pursuant to § 0.100 of title 28, Code of Federal Regulations.

As stated in the FEDERAL REGISTER of October 5, 1972 (37 F.R. 20993), the Bureau of Narcotics and Dangerous Drugs delayed establishment of quotas on stimulants pending analysis of the anorectic review conducted by the Food and Drug Administration. On December 27, 1972, the Food and Drug Administration informed the Bureau that it would soon publish in the FEDERAL REGISTER the conclusions of the anorectic review. The primary results of this study appear to be findings that parenteral stimulants and stimulants in combination with other drugs (including different stimulants) are not efficacious in treatment of obesity, and that oral dosages of stimulants are of limited efficacy in such treatment.

The Bureau has not yet been able to study these results in such detail, however, as to determine the specific quantities of stimulants needed for legitimate medical treatment in 1973. Until this can be done, it is impossible to propose aggregate production quotas on stimulants. The Bureau anticipates an additional 2 or 3 weeks will be required to analyze the FDA review, data recently submitted by certain applicants for quotas, and other sources of information in order to reach a final estimate of 1973 needs.

In the interim, in order to provide for legitimate medical and industrial needs at this time, the Bureau has determined to establish short-term quotas on the following basis:

1. Each manufacturer who had a 1972 individual manufacturing quota for a stimulant will be authorized to produce up to 25 percent of that quota, and to sell from such production and existing inventories quantities of that stimulant to any manufacturer possessing a 1973 interim procurement quota (to the extent of that interim quota). When 1973 individual manufacturing quotas are finally assigned, the amounts authorized on this interim basis will be applied against the final quota.

2. Each manufacturer who had a 1972 procurement quota for a stimulant and who has submitted an application for a 1973 procurement quota (including information requested by the Bureau by letters dated October 31, 1972, and November 30, 1972) will be authorized to procure up to 25 percent of that portion of its 1972 quota representing 1972 sales of nonparenteral, noncombination stimulant products. For example, a company which sold two-thirds of its 1972 products in straight, oral-dosage form, and one-third in parenteral and/or combination form, will be authorized to procure approximately 16⅔ percent of its 1972 quota (¼×⅔=⅙=16⅔ percent).

3. Each manufacturer who did not have a 1972 procurement quota for a stimulant and who has submitted an application for a 1973 procurement quota (including information requested by the Bureau by letters dated October 31, and November 30, 1972) will be authorized to procure up to 25 percent of that portion of its 1973 request representing usage in nonparenteral, noncombination stimulant products.

4. Each manufacturer who has not submitted an application for a 1973 procurement quota (or who has submitted an application but has not submitted the information requested by the Bureau by letters dated October 31 and November 30, 1972, or who has withdrawn its application) will not be authorized to make any procurements until such application or additional information is submitted to the Bureau.

5. Because the interim procurement quotas are being issued without regard to inventories of raw materials and finished products held by any individual company, the Bureau will continue its interpretation of section 303(a)(1) of the Controlled Substances Act (21 U.S.C. 823(a)(1)) that sales of finished dosage forms in excess of the equivalent quantities of the stimulant drugs authorized for procurement will require justification that such sales are consistent with the statutory requirement of maintenance of "effective controls against diversion * * * into other than legitimate medical channels."

6. This announcement is made for the purpose of providing general notice of the Bureau action. Each manufacturer will be notified of the effect of this action in its individual circumstance. No bulk production or procurement is authorized until the manufacturer receives an interim individual manufacturing quota or interim procurement quota from the Bureau.

7. The Bureau anticipates publication of proposed aggregate production quotas for stimulant controlled substances in the near future. At that time, inventory data will be utilized in fixing individual manufacturing and procurement quotas. Therefore, depending upon the estimated medical needs for these drugs during 1973, it is possible that final quotas will be less than the interim quotas.

Dated: December 27, 1972.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

[P. & S. Docket No. 1211]

ST. PAUL UNION STOCKYARDS CO.

Notice of Petition To Vacate Rate Order and Dismiss Proceedings

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), a basic order was issued on November 7, 1962, in the case of Saint Paul Union Stockyards Co., Respondent (P. & S. Docket No. 1211), prescribing the rates and charges to be assessed by respondent for the stockyard services rendered by it at the Saint Paul Union Stockyards Co. Such rates and charges have been modified from time to time by subsequent orders issued in the proceedings. The latest such order was issued on August 25, 1972, prescribing the rates and charges to be assessed by respondent to and including June 30, 1974, unless modified or extended by further order before the latter date. On November 1, 1972, the respondent filed a petition requesting that the rate order in this proceeding be vacated and the proceedings dismissed in conformity with section 203.11 of the Statements of General Policy under the Packers and Stockyards Act. The petition reads as follows:

This is a rate proceeding under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.).

Respondent is now operating under an order issued August 25, 1972, which became effective August 29, 1972, and which shall remain in effect to and including June 30, 1974, unless modified or extended.

The basic rate order in this proceeding was issued November 7, 1962, as a part of P. & S. Docket No. 1211. During the period since the basic rate order has been in effect, the respondent has followed the procedure, prior to filing a petition for modification of basic order, of submitting statistical information supporting such proposals.

Respondent feels after some discussion with the Department that changing economic conditions in the industry, together with a changing marketing structure in the trade territory and other circumstances, have brought about a situation which makes the necessity and continuation of formal pro-

V38-1 JAN 3 73 XUM

cedure for obtaining modification in rates and charges no longer necessary.

It is requested, therefore, that in conformity with the policy expressed in § 203.11 of the Statements of General Policy under the Packers and Stockyards Act (9 CFR 203.11) that the rate order in this proceeding be vacated and the proceeding be dismissed.

Any person who wishes to submit written data, views, or arguments with respect to the petition filed by the respondent may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 15 days from the publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Office of Foreign Direct Investments

FOREIGN DIRECT INVESTMENT PROGRAM

1973 Program Changes

JANUARY 2, 1973.

William V. Hoyt, Director of the Office of Foreign Direct Investments, announced today that the following changes will be made with respect to the foreign direct investment program for 1973.

1. Credits extended by direct investors to their affiliated foreign nationals with respect to the export sale or lease of qualifying U.S. goods and services on normal commercial terms will be exempted under the foreign direct investment regulations.

2. The alternative minimum positive direct investment allowables (sections 503 and 507 of the regulations) will be consolidated into a single worldwide minimum allowable of $6 million per year.

3. As in the 1971 and 1972 program years, direct investors will be allowed to count certain transactions effected in the first 2 months of 1974 for purposes of computing their 1973 program compliance.

Mr. Hoyt noted that the consolidation of the alternative minimum allowables would simplify the reporting and compliance burden imposed on many smaller direct investors whose annual investment flows are relatively modest, individually and in the aggregate.

Mr. Hoyt said that the Office is preparing proposed regulations with the objective of carrying out the exemption of qualifying export credits entirely within the regulations, thereby relieving direct investors of the need to obtain specific authorization from the Office with respect to such credits. Mr. Hoyt noted, however, that in the complex field of export credit there are difficulties in establishing comprehensive standards to cover all cases. Thus, it may remain necessary to retain to some degree the use of the specific authorizations procedure in this area.

Mr. Hoyt observed that the exemption of qualifying export credits should eliminate any substantial distinction between the foreign direct investment program and the other U.S. capital controls in the treatment of extension of export financing. As a result of the exemption, there will be no program restraint on direct investors' extensions of credit on normal commercial terms for exports of qualifying U.S. goods and services to their foreign affiliates. Relief from program charge under the exemption will be similar to that previously available by specific authorization, but will be expanded to include qualifying U.S. services and lease transactions, and the exemption will not be limited by the year-to-year increase in exports to affiliated foreign nationals.

Since extensions of qualifying export credits would be exempt from program charge after December 31, 1972, repayments of such credits to the direct investor after that date will not result in negative transfers of capital for 1973 or subsequent compliance years. No change will be made in existing regulations permitting direct investors to elect to count certain transactions entered into in January or February of 1973, including repayments of trade credit to the direct investor, for purposes of computing 1972 compliance. Mr. Hoyt emphasized, however, that direct investors using such repayments for 1972 compliance purposes would be subject in 1973 and subsequent years to appropriate deemed transfer of capital charges, to take the place of net charges they would have incurred if the present regulations were extended unchanged.

The Office will soon publish proposed regulations encompassing the above modifications, as well as certain other technical features of the regulations. The public will be invited to comment upon these proposals before they are adopted in final form. Protective interim amendments to the regulations have been adopted and are being published in the January 3 FEDERAL REGISTER.

Dated: December 27, 1972.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, PUBLIC HEALTH SERVICE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00647-33-46040. Applicant: DHEW, PHS, National Institute of Dental Research, 9000 Rockville Pike, Building 30, Bethesda, MD 20014. Article: Electron microscope, model EM 802. Manufacturer: AEI Scientific Apparatus, Inc., United Kingdom. Intended use of article: The article is intended to be used to examine the following structures:

(a) The neurons of the trigeminal brain stem nuclei including their axons, cell bodies, and dendrites;

(b) The ending of the V nerve axons;

(c) The axo-dendritic, axo-somatic, and axo-axonic synaptic specializations in these nuclei.

Experiments will be conducted to work out the structural organization of these nuclei in order to understand how information related to touch, pressure, temperature, and pain transmitted by the V cranial nerve is processed before being transmitted to higher centers in the brain. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is equipped with a tilt stage having a guaranteed resolving power of 5 angstroms. The most closely comparable domestic instrument is the model EMU-4C electron microscope which is manufactured by Forgflo Corp. (Forgflo). The model EMU-4C can be equipped with a tilt stage but the guaranteed resolving power of this stage is 8 angstroms. (The lower the numerical rating in terms of angstrom units, the better the resolving power.) We find that the guaranteed resolving power of the tilt stage of the foreign article is pertinent to the applicant's research studies involving three-dimensional structures. We, therefore, find that the model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for the purposes for which such article is intended to be used, which is being manufactured in the United States.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00548-65-46070. Applicant: Iowa State University of Science and Technology, Ames, Iowa 50010. Article: Scanning electron microscope, model JSM-U3. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used in microstructural and microchemical-property correlation investigations for a variety of material in several programs, in particular, research on fabric and structure of clays, studies of aluminum oxide fracture surfaces, studies of inorganic materials of colloidal origin. The article will also be used by multiple graduate students for thesis research in the following projects: (1) Studies of aluminum oxide fracture surfaces; and (2) studies of inorganic materials of colloidal origin.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States at the time the article was ordered, April 6, 1971. Reasons: The foreign article has a guaranteed resolving power of 100 angstroms (Å). The Department of Health, Education, and Welfare (HEW) in its memorandum dated September 1, 1972, advised that the best resolution available is pertinent to the purposes for which the article is intended to be used. HEW further advised that it knew of no domestic instrument which matched the resolving power of the foreign article at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00235-33-46040. Applicant: Long Island Jewish-Hillside Medical Center, 270-05 76 Avenue, New Hyde Park, NY 11040. Article: Electron Microscope, model JEM1100B. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to study the fine structural localization of various cytoplasmic enzymes in normal and malignant cells of both animal and human tissues. The organelles under study will be plasma membranes, endoplasmic reticulum, Golgi apparatus, and lysosomes. Special attention will be given to the nature of cytoplasmic microtubules various forms of microfibrils, unit membranes and identification of macromolecular structures such as ferritin and other experimentally injected materials. Application received by Commissioner of Customs: November 13, 1972.

Docket No. 73-00222-33-46040. Applicant: Midland Macromolecular Institute, 1910 West St. Andrews Drive, Midland, MI 48640. Article: Electron microscope, model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for fundamental research on the superstructure of macromolecular substances, both synthetic and natural. Studies will be made of crystallographic and/or morphological properties of specimens subjected to differing thermal and mechanical histories for correlation with related studies of thermal and mechanical properties. The overall objective of these studies is the determination of relationships of structure to thermal history and relationships of mechanical properties to structure. Application received by Commissioner of Customs: November 7, 1972.

Docket No. 73-00248-33-46500. Applicant: Veterans' Administration hospital, Chief, Supply Service, 508 Fulton Street, Durham, NC 27705. Article: Ultramicrotome, model OMU3. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used to prepare sections of tissues obtained from operating rooms or by other surgical procedures to be studied by electron microscopy after embedding in various plastics, especially epoxy resins. The article will also be used in connection with the teaching of interns and residents in pathology who wish to work with electron microscopic techniques. Application received by Commissioner of Customs: November 22, 1972.

Docket No. 73-00249-33-46040. Applicant: Auburn University, Pathology and Parasitology Department, Auburn, Ala. 36830. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used for investigations of the ultrastructural alterations of cellular organelles and membranes occurring in renal disease and neoplasia of food producing and pet animals. Other research will include high resolution studies of animal viruses and viral components and the investigation of the effects of specific immunoglobulins on virus morphology; investigation of antibody—complement, interaction with the cell wall of gram negative bacteria; determination of liver cell mitochondrial damage by aflatoxins and determination of the effects of aging on cellular and membranous structures of the blood-retinal barrier of swine and dog eyes. The article will also be used in departmental veterinary student teaching programs for the preparation of electron micrographs of both normal and diseased cells and tissues as instructional aids for the supplementation of course material in anatomy, histology, embryology, pathology, and microbiology. Application received by Commissioner of Customs: November 22, 1970.

Docket No. 73-00250-33-46040. Applicant: California Institute of Technology, Division of Biology, 1201 East California Boulevard, Pasadena, CA 91109. Article: Electron Microscope, Model EM 301 with accessories. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used in an investigation of cell membranes which will include the following projects:

(a) Mapping the distribution of molecules of individual cell surfaces of normal and malignant cells.

(b) Studies of the structure of the cell membrane.

(c) Studies of the formation of cell contacts between normal and cancer cells.

(d) Studies of cell movement.

(e) Studies of the binding of virus particles to cells during infection.

(f) Studies of the appearance under various conditions of cell membrane models prepared from purified membrane components, as well as from artificial mixtures of known components. Application received by Commissioner of Customs: November 16, 1972.

Docket No. 73-00251-33-46500. Applicant: Texas Tech University School of Medicine, Department of Anatomy, Post Office Box 4569, Lubbock, TX 79409. Article: Ultramicrotome, Model OM U3. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article:

V38-1 JAN 3 73 XUM

The article is intended to be used for teaching medical and paramedical students the theory and use of thermal advance and different cutting speeds for various tissues in the following courses: MED 9301—Clinical Applications of Electron Microscopy; MED 9304—Advanced Cytochemistry; and MED 9306—Biodynamics of Bone.

The article will also be used for research on endocrine organs and bone involving examination of dynamics and interrelationships as well as microstructure and function of bone. Application received by Commissioner of Customs: November 20, 1972.

Docket No. 73–00252–33–46500. Applicant: Louisiana State University Medical Center, Department of Anatomy, 1542 Tulane Avenue, New Orleans, LA 70112. Article: Ultramicrotome, Model OM U3. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used for sectioning several tissues in varied studies. One project involves serial sections of uniform thickness of about 50 Angstroms in order to view connections between cells during organogenesis. Another project involves the study of crystalline materials in hard tissues in normal and abnormal cartilage. Application received by Commissioner of Customs: November 20, 1972.

Docket No. 73–00254–33–46070. Applicant: Bowling Green State University, Bowling Green, Ohio 43403. Article: Scanning Electron Microscope, Model HHS–2R. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used in the following research projects:

(1) Analysis of Wall Structure in Germinating Pollen—A survey of the members of the plant family Caryophyllaceae will be undertaken in an effort to determine the structural modifications in exine degradation which allows pollen to germinate.

(2) Developmental Ultrastructure of *Drosophila melanogaster* Genetic Eye Mutants—Scanning electron microscopy studies of mutant *D. melanogaster* eyes at different stages of development are to be carried out.

(3) Ultrastructure of Freshwater Diatoms—Detailed ecological investigations of diatom communities.

In addition the article will be used in a course in "Scanning Electron Microscopy" at the graduate and undergraduate level which will include specimen preparation of both biological and inorganic materials for all phases of scanning electron microscopy and X-ray analysis, operation and maintenance of the scanning electron microscope and allied equipment, and relation of observations of scanning electron microscopy to light microscopy and transmission electron microscopy. Application received by Commissioner of Customs: November 24, 1972.

Docket No. 73–00255–33–46040. Applicant: The Johns Hopkins University, Department of Pharmacology, 725 North Wolfe Street, Baltimore, MD 21205. Article: Electron Microscope, Model EM 9S–2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in a variety of experiments directed at identifying neuronal components at the ultrastructural level. Also, autoradiography with the electron microscope will be conducted to identify sites of accumulation of various radioactive compounds. The article will also be used in the student laboratory course to train students in identifying ultrastructural components of neurons. Application received by Commissioner of Customs: November 22, 1972.

Docket No. 73–00256–98–42900. Applicant: Illinois Institute of Technology, Physics Department, 3301 South Dearborn Street, Chicago, IL 60616. Article: Superconducting Magnet. Manufacturer: Canada Superconductor and Cryogenics Co. Ltd., Canada. Intended use of article: The article is intended to be used to study the effects of radiation on high field superconductors whose ultimate use will be in the fabrication of large scale superconducting magnets used in conjunction with nuclear fusion reactors. Physical measurements to be carried out include thermal and electrical conductivity, magnetization and heat capacity, all at low temperatures. Application received by Commissioner of Customs: November 24, 1972.

Docket No. 73–00257–33–46595. Applicant: Baylor College of Medicine, Department of Ophthalmology, 1200 Moursund Avenue, Houston, TX 77025. Article: LKB 11800–1 Pyramitome, Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studying the role of lipids and proteins in plastic embedded retinas of rats. One particular technique that will be used extensively is autoradiography by light microscopy in conjunction with EM autoradiography. Application received by Commissioner of Customs: November 22, 1972.

Docket No. 73–00259–33–07700. Applicant: Tulane Medical School, Department of Ophthalmology, 1430 Tulane Avenue, New Orleans, LA 70112. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used to take photographs of the retina in humans both with and without the injection of fluorescein dye to demonstrate the blood flow in the retina. The article will be used for studying various disease conditions such as diabetes in the way they affect the vasculature of the eye. The photographs taken will be used to teach both residents and medical students in ophthalmology. Application received by Commissioner of Customs: November 27, 1972.

Docket No. 73–00260–40–30600. Applicant: Iowa State University, Purchasing Department, 202 Snedecor, Ames, Iowa 50010. Article: Low speed 3-stage axial flow compressor. Manufacturer: Industrial Drawing Office Services Ltd., United Kingdom. Intended use of article: The article is intended to be used in a study of the complicated fluid flow mechanics in multistage axial-flow turbomachinery. Specific experiments to be conducted include:

(a) Normal overall-performance map determination.

(b) Detailed blade-element data acquisition and analysis.

(c) Surge and stall mechanisms.

(d) Effects of mismatching of stages on performance.

(e) Effects of inlet distortion on performance.

(f) Effects of adjacent blade rows on stage flow field.

(g) New blade form evaluations.

(h) Mathematical model evaluations.

The article will also be used in the courses mechanical engineering 544 and mechanical engineering 699 to give the student an appreciation for the fluid mechanics of turbomachinery and to provide the student with significant research experience respectively. Application received by Commissioner of Customs: November 24, 1972.

Docket No. 73–00261–01–77030. Applicant: State University College at Brockport, Department of Chemistry, Brockport, N.Y. 14420. Article: NMR spectrometer, model R–20B. Manufacturer: Hitachi Perkin-Elmer, Ltd. Japan. Intended use of article: The article is intended to be used for nmr spectroscopy in the following undergraduate chemistry courses:

Organic chemistry I and II.
Intermediate organic chemistry lab.
Brief organic chemistry.
Physical chemistry I and II.
Instrumental methods and analysis.
Biochemistry laboratory.
Inorganic chemistry.
Identification of organic compounds.
Independent study.

Docket No. 73–00262–01–77030. Applicant: University of Florida, Department of Chemical Engineering, Gainesville, Fla. 32601. Article: NMR spectrometer, model JNM–C–60–HL. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used by staff members and students for studies of biological materials such as lipids, proteins, hormones, vitamins, and membranes, as well as engineering materials such as asphalt, crude oils, surfactants, pigments, and various colloids by means of nuclear magnetic resonance spectroscopy. The following are the major projects which will be carried out with the article:

(a) The structure of water in microemulsions.

(b) The mechanism of phase inversion of micro- and macro-emulsions.

(c) Molecular motions in liquid-crystalline structures.

(d) The equilibrium rate of exchange of molecules at the air-liquid interface.

(e) Micelle formation and solubilization in surfactant solutions.

(f) Molecular interactions in biological membranes.

(g) The structure of adsorbed phases as solids.

(h) The structure of fluid mixtures and electrolyte solutions.

(i) NMR spectroscopy for fluorocarbon studies.

(j) Application for NMR spectroscopy in asphalt research.

(k) Mechanism, reactions, and activity of thiolsulfonates and disulfides.

(l) Synthesis of new polymers for use in extreme environments.

(m) Donor-acceptor complexes of fluorine compounds.

(n) Nonclassical aromaticity in hydrogen-bonded systems.

(o) The effect of metal ions on unsaturated hydrocarbons in relation to boundary lubrication.

(p) Interaction of oxygen with fluorocarbons.

(q) NMR spectroscopic studies of polymeric fluids.

Application received by Commissioner of Customs: November 27, 1972.

Coast Guard

[CGD 72–248P]

FEDERAL BOAT SAFETY ACT OF 1971

Proposed Exemption To Supersede Existing Exemption

The Coast Guard is considering superseding the exemption of August 11, 1971 (36 F.R. 15764, Aug. 18, 1971) to section 10 of the Federal Boat Safety Act of 1971 by issuing a more limited exemption.

On August 10, 1971, the President signed into law the "Federal Boat Safety Act of 1971" (Public Law 92–75).

Section 10 of the Act, "Federal Preemption," provides that:

> Unless permitted by the Secretary under section 9 of this Act, no State or political subdivision thereof may establish, continue in effect, or enforce any provision of law or regulation which establishes any boat or associated equipment performance or other safety standard, or which imposes any requirement for associated equipment, except, unless disapproved by the Secretary, the carrying or using of marine safety articles to meet uniquely hazardous conditions or circumstances within the State, which is not identical to a Federal regulation issued under section 5 of this Act.

On August 11, 1971, upon determining that boating safety would not be adversely affected by continuing in effect these existing laws and regulations of the various States and political subdivisions until new boating safety regulations were issued under the Federal Boat Safety Act of 1971, the Secretary of the Department of Transportation, under the authority vested in him by sections 9 and 10 of the Federal Boat Safety Act of 1971 (46 U.S.C. 1458 and 1459) exempted each State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the District of Columbia and political subdivisions thereof from the provisions of section 10 of the Federal Boat Safety Act of 1971. That exemption applied only to laws and regulations in effect on the effective date of the Federal Boat Safety Act of 1971 (Aug. 10, 1971) and was to remain in effect until expressly superseded, revoked, or otherwise terminated (36 F.R. 15764, Aug. 18, 1971).

On August 4, 1972, the Commandant, U.S. Coast Guard, under the authority of the Federal Boat Safety Act of 1971 and 49 CFR 1.46(o)(1) issued boat performance and safety standards. These standards appear at 37 F.R. 15777–15785, August 4, 1972 and at 33 CFR 181, 183 entitled "Manufacturer Requirements" (Part 181) and "Boats and Associated Equipment" (Part 183). The issuance of these regulations removes the necessity for an exemption to the prohibitions of section 10 of the Federal Boat Safety Act of 1971 concerning performance or other safety standards for boats.

The proposed exemption which will supersede the exemption of August 11, 1971 will principally affect State statutes and regulations by preempting those concerning boat performance or safety standards such as requirements for capacity plates, hull identification numbers, and flotation.

The proposed exemption will continue to exempt State laws concerning performance or other safety standards for associated equipment and requirements for associated equipment. For the purpose of the proposed exemption associated equipment means—

(A) Any system, part, or component of a boat as originally manufactured or any similar part or component manufactured or sold for replacement, repair, or improvement of such system, part, or component;

(B) Any accessory or equipment for, or appurtenance to, a boat; and

(C) Any marine safety article, accessory, or equipment intended for use by a person on board a boat; but

(D) Excluding radio equipment.

Associated equipment contemplated by the exemption includes, but is not limited to, fuel systems, ventilation systems, electrical systems, navigational lights, sound producing devices, fire fighting equipment, lifesaving devices, signaling devices, ground tackle, life and grab rails, and navigational equipment.

In consideration of the foregoing it is proposed that the exemption of August 11, 1971 to section 10 of the Federal Boat Safety Act of 1971 be superseded by a more limited exemption as follows:

Under the authority vested in me by sections 9 and 10 of the Federal Boat Safety Act of 1971 and 49 CFR 1.46(o)(1), I hereby exempt each State of the United States, The Commonwealth of Puerto Rico, The Virgin Islands, Guam, American Samoa, and the District of Columbia and political subdivisions thereof from those provisions of section 10 of the Federal Boat Safety Act of 1971 that prohibit any of those jurisdictions from continuing in effect or enforcing any provision of law or regulation which establishes any associated equipment performance or safety standard, or which imposes any requirement for associated equipment that is not identical to a Federal regulation. This exemption applies only to laws and regulations in effect on the effective date of the Federal Boat Safety Act of 1971 and remains in effect until expressly superseded, revoked, or otherwise terminated.

Any interested person may submit written data, views, or arguments concerning this notice to U.S. Coast Guard (GCMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. All communications received before February 15, 1973, will be considered before action is taken on the proposed regulations. Each person submitting comments should include his name and address, identify this notice (CGD72–248P) and give reasons and supporting data for any recommendations. All comments will be available for examination in room 8234.

Issued in Washington, D.C. on December 27, 1972.

A. C. WAGNER,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Boating Safety.

ATOMIC ENERGY COMMISSION

[Docket No. 50–332]

ALLIED-GULF NUCLEAR SERVICES ET AL.

Notice of Availability of Applicant's Environmental Report and Draft Detailed Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulation 10 CFR Part 50, Appendix D, notice is hereby given that a draft environmental statement on the environmental considerations related to the continuation, modification, or termination of Construction Permit CPCSF–4 and the subsequent possible operation of the Barnwell Nuclear Fuel Plant by Allied-Gulf Nuclear Services et al., has been prepared by the Commission's Directorate of Licensing, Fuels and Materials, and has been made available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

A copy of the statement is also being placed for public inspection in the State clearinghouse, Office of the Governor, State Planning and Grants Division, 915 Main Street, Columbia, SC; the regional clearinghouse, Lower Savannah Regional Planning and Development Commission, Post Office Box 850, Aiken, SC; and at the Barnwell County Courthouse, Office of the County Commissioner, Barnwell, S.C.

The environmental report and revisions and additions thereto, submitted by Allied-Gulf Nuclear Services, are also available for public inspection at the above designated locations. Notice of availability of the report was published in the FEDERAL REGISTER (36 F.R. 22692)

V38-1 JAN 3 73 XUM

November 27, 1971. Revisions and additions to the environmental report were submitted by letter dated November 20, 1972.

Copies of the Commission's draft detailed statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Fuels and Materials, Directorate of Licensing.

Pursuant to Appendix D to 10 CFR Part 50, interested persons may, within forty-five (45) days from date of publication of this notice in the FEDERAL REGISTER, submit comments on the draft detailed statement, the environmental report and the proposed actions for the Commission's consideration. Federal agencies and State and local officials are being provided with copies of the draft detailed statement. Such comments as may be received from Federal agencies and State and local officials will be made available for public inspection at the above-designated locations. Members of the public should address their comments to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Fuels and Materials, Directorate of Licensing.

Dated at Bethesda, Md., this 26th day of December 1972.

[Docket No. 50-397]

WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Order Scheduling Evidentiary Hearing

In the matter of The Washington Public Power Supply System (Hanford No. 2 Nuclear Power Plant), Docket No. 50-397.

The matter having come before this Atomic Safety and Licensing Board at a Prehearing Conference held on November 30, 1972, pursuant to a notice and order scheduling same, dated November 20, 1972, and Counsel for the parties having been present and participating in said Conference, it was determined that the evidentiary hearing in this proceeding with respect to both health and safety matters and environmental matters would commence in Richland, Wash., on January 25, 1973.

No petitions for intervention having been filed, this proceeding is uncontested. Accordingly, the parties in this proceeding are The Washington Public Power Supply System (Applicant) and the Regulatory Staff of the Atomic Energy Commission (Staff).

The Thermal Powerplant Site Evaluation Council, of Olympia, Wash., has been granted the right to participate in this proceeding pursuant to the provisions of 10 CFR 2.715(c) as a representative of the State of Washington.

At the Prehearing Conference, the Board ruled favorably on all written requests received as of that date from members of the public who wish to make a limited appearance. Oral or written statements of their position on the issues by persons making limited appearances will be received at the beginning of the hearing on Thursday afternoon, January 25, 1973. In addition, the Board has scheduled an evening session on January 25, at which time persons who cannot attend the hearing during the day will be permitted to make limited appearances.

Wherefore, it is ordered, In accordance with the Atomic Energy Act of 1954, as amended, and the rules of practice of the Commission, that a hearing in this proceeding shall convene at 2 p.m., local time, on Thursday, January 25, 1973, in the Conference Room, Hanford House, 802 George Washington Way, Richland, WA 99352.

The Atomic Safety and Licensing Board.

Issued at Washington, D.C., this 26th day of December 1972.

ROBERT M. LAZO,
Chairman.

[Docket No. 50-266]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN-MICHIGAN POWER CO.

Notice of Hearing on Facility Operating License

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), the National Environmental Policy Act of 1969 (NEPA), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that, subject to conditions set forth in a Commission memorandum and order dated December 21, 1972, a hearing will be held on the pressurized water reactor identified as the Point Beach Nuclear Plant, Unit 1 (the facility) of the Wisconsin Electric Power Co. and Wisconsin-Michigan Power Co. (applicants). The hearing will be held at a time and place to be set in the future by the Atomic Safety and Licensing Board (Licensing Board) designated herein, to begin in the vicinity of the facility in Manitowoc County, Wis. Operation of the facility is presently authorized by Operating License No. DPR-24, issued by the Atomic Energy Commission on October 5, 1970. The hearing will consider whether, in accordance with the requirements in the Commission's regulations implementing NEPA in 10 CFR Part 50, Appendix D, the operating license should continue.

The Licensing Board shall consist of Charles A. Haskins, Esq. (Chairman), Dr. M. Stanley Livingston, and Dr. Ernest O. Salo.

A notice of opportunity for hearing on the continuance of the operating license for the facility was published in the FEDERAL REGISTER on July 7, 1972 (37 F.R. 13362). The notice provided that, within 30 days from the date of publication, any person whose interest may be affected by the proceeding could file a petition for leave to intervene in accordance with the requirements of 10 CFR Part 2, "Rules of Practice." A petition for leave to intervene was thereafter filed by Businessmen for the Public Interest, Sierra Club, and Protect Our Wisconsin Environmental Resources. The Commission has determined that, subject to successful completion of the conditions stated in its memorandum and order dated December 26, 1972, a public hearing will be held.

A prehearing conference will be held by the Licensing Board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's "Rules of Practice." The date and place of the hearing will be set by the Board at or after the prehearing conference. Notices as to the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

The specific issues to be considered at the hearing on the facility operating license will be determined by the Board in accordance with the Commission's memorandum and order.

The instant facility is subject to the provisions of section B of Appendix D to 10 CFR Part 50, which sets forth procedures for environmental review of certain licenses to construct or operate production or utilization facilities issued in the period January 1, 1970, to September 9, 1971.

For further details pertinent to the operating license under consideration, see the application for the facility operating license dated March 18, 1969, as amended, the applicant's environmental report dated November 11, 1971, the report of the Advisory Committee on Reactor Safeguards on the application for a facility operating license for the Point Beach 1 facility dated April 16, 1970, the regulatory staff's final detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D, issued in May of 1972, and the Safety Evaluation prepared by the Directorate of Licensing, dated July 15, 1970. These documents are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, at the Manitowoc Public Library, 808 Hamilton Street, Manitowoc, WI 54220, at the State Planning Bureau, Department of Administration, 1 West Wilson Street, State Office Building, Madison, WI 53701, and at the Southeastern Wisconsin Regional Planning Commission, 916 North East Avenue, Waukesha, WI 53186.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's "Rules of Practice." Limited appearances will be permitted at the time of the hearing in the discretion of the Licensing Board, within such limits and on such conditions as may be fixed by it. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR § 2.705 of the Commission's "Rules of Practice," must be filed by the parties to this proceeding (other than the Regulatory Staff) not later than twenty (20) days from the date of publication of this notice in the FEDERAL REGISTER.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, NW., Washington DC.

Pending further order of the Licensing Board, parties are required to file pursuant to the provisions of 10 CFR 2.708 of the Commission's "Rules of Practice," an original and 20 conformed copies of each such paper with the Commission.

Dated at Germantown, Md., this 26th day of December 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
PAUL C. BENDER,
Secretary of the Commission.

CIVIL AERONAUTICS BOARD

[Docket No. 24869; Order 72-12-113]

OVERSEAS AND FOREIGN AIR TRANSPORTATION

Order Regarding Baggage Allowance Tariff Rules

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 26th day of December 1972.

By Order 72-10-91, dated October 27, 1972, the Board ordered an investigation into the lawfulness of various existing tariffs which set forth the free baggage allowances and charges for excess baggage in foreign air transportation.

British United Airways, Ltd., is a party to certain of the tariffs under investigation,[1] but it was inadvertently omitted from the list of parties to this proceeding. We are therefore by this order making British United Airways, Ltd., a party to the investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204, 404, 412, and 1002 thereof,

It is ordered, That:

1. British United Airways, Ltd., is hereby made a party to this proceeding.

2. A copy of this order will be served upon all parties to Docket 24869, and British United Airways, Ltd.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Dockets Nos. 24412, 24457; Order 72-12-112]

PIEDMONT AVIATION, INC., ET AL.

Order Regarding Joint Petition and Application

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 26th day of December 1972.

On April 14, 1972, Piedmont Aviation, Inc. (Piedmont), National Airlines, Inc. (National), the city of Richmond, Va., and the Greater Richmond Chamber of Commerce (Richmond) filed a joint petition for issuance of an order to show cause why Richmond, Va., should not be deleted from National's certificate of public convenience and necessity[1] and why Piedmont's certificate should not be amended so as to add a new segment authorizing Richmond - Washington, D.C.-New York/Newark service subject to a restriction that all flights on that segment must originate or terminate at Richmond or a point south thereof.

In an answer to the joint petition, American Airlines, Inc. (American)

[1] British United is a party because of various joint fares which it has entered into with carriers providing scheduled service to or from the United States. It is not presently certificated to provide regularly scheduled service to or from the United States.

[1] By Order 71-5-29, dated May 7, 1971, the Board authorized National to temporarily suspend service at Richmond until May 10, 1972. By Order 72-5-34, dated May 9, 1972, the Board authorized the carrier to continue its temporary suspension of service until May 10, 1973, or until 60 days after final decision on the application herein (Docket 24412), whichever event shall occur first. Prior to the temporary suspension of service National provided single-plane service between Richmond and New York, Philadelphia and Washington, D.C.

V 38 - 1 JAN 3 73 XUM

opposes the award to Piedmont of Richmond-New York authority, via Washington National Airport, and contends that the award to Piedmont of nonstop Washington, D.C. (National)-New York/Newark authority is not only unnecessary to accomplish the basic purposes of the transfer proposed by the joint petitioners but is a controversial appendage inappropriate for consideration in an expedited proceeding.

Allegheny Airlines, Inc. (Allegheny), in an answer to the joint petition, opposes the transfer of National's authority to Piedmont and, in particular, the authorization of Piedmont in the Richmond-New York market. Concurrently, Allegheny has filed an application for similar authority in Docket 24457. Therein the carrier seeks new authority between Richmond-Washington, D.C./Baltimore-New York/Newark and further to consolidate its new route application with Piedmont's request herein.

In a combined answer to the joint petition and to Allegheny's motion to consolidate, Altair Airlines, Inc. (Altair), a commuter carrier, objects to the hearing of any issue other than Richmond-New York nonstop authority contending that there is no need for additional service in either the Richmond-Philadelphia or Richmond-Baltimore market.[2]

On May 17, 1972, the Richmond parties filed a motion for expeditious consideration under Subpart M type procedures to emphasize its interest in obtaining prompt action on the requests for additional authority filed by Piedmont and Allegheny. An answer to Richmond's motion has been filed by American. In addition, answers supporting Allegheny's motion to consolidate have been filed by the Baltimore and Maryland parties, the Massachusetts Port Authority, and the city of Philadelphia, while an answer opposing consolidation, except for the question of Richmond-New York and Richmond-Washington services, was filed by Piedmont.

Finally, a petition for leave to intervene in these proceedings was filed by Eastern Air Lines, Inc. (Eastern). Eastern is presently authorized to serve the Richmond-New York, Richmond-Washington, Richmond-Baltimore and Washington/Baltimore-New York markets.

Based on the foregoing, we have decided to set for hearing, pursuant to Subpart M expedited procedures,[3] the question of whether National's authority at Richmond should be deleted or indefinitely suspended; and the question of whether any other applicant air carrier should be granted authority to operate nonstop between Richmond and New York Newark. Accordingly, we will deny the show cause relief requested by the joint applicants, and will consolidate for hearing National's application, as well as the applications filed by Piedmont and Allegheny insofar as each requests Richmond-New York/Newark authority. The balance of the applications will be dismissed without prejudice.

The relief requested by the carrier applicants, as well as Richmond, does not involve the transfer of all or any part of National's authority at Richmond, but rather contemplates a simultaneous hearing on whether National's authority should be deleted, and whether certain new or improved authority should be awarded to another carrier. In our view this approach is correct since a transfer of National's Richmond authority is not feasible,[4] and since, as so framed, the proceeding can focus on the need to replace the services previously offered by National at Richmond.[5] Of the Richmond markets served by National in the 3-year period prior to its suspension in 1971, Richmond-New York/Newark was by far the largest, and, in fact, was the only market, other than smaller points in Virginia, that consistently received a pattern of daily service in both directions from National. For this reason we are in accord with the applicants that the issue of new nonstop authority in this market should be heard. We do not agree, however, that any other Richmond authority should be placed in issue. In particular, no case has been made out for allowing Piedmont to extend its existing Richmond-Washington authority to New York/Newark so as to provide Richmond-New York/Newark service via Washington, or for hearing Allegheny's application to provide a similar pattern of service. First, the size of the Richmond-New York market is such that it does not seem to require intermediate point traffic support. Second, in light of the first consideration, there is no basis for authorizing the use of Washington National, a facility that is still subject to capacity limitations, as an intermediate point. Third, numerous carriers are certificated to provide service in the Washington-New York/Newark market, and there has been no showing that there is any need for additional service in this market at this time. Nor do we perceive any reason to hear the need for new or improved service between Richmond and Baltimore, Philadelphia or Boston.[6] None of these cities was served by National on a daily basis in both directions for 3 years prior to its suspension. Moreover, each generated very small volumes of Richmond traffic, and are only fractionally the size of the Richmond-New York market. In any event, we assume that if traffic density were sufficiently high, Eastern, which is certificated to provide such service, would do so. Finally, to pick and choose intermediate points on National's Route 31 which have not received a pattern of usable service from National, and which are not among Richmond's primary markets, introduces complex questions concerning the desirability of hearing the need for new authority as to other points on National's Route 31—a course of action that could make the proceeding so complex that it would rule out the use of Subpart M expedited procedures and might warrant hearing the sole question of whether National's suspension should be lifted.[7]

We have also determined not to impose a long-haul restriction in respect to Richmond-New York/Newark service since this would effectively preclude Allegheny from prosecuting its application as consolidated. Rather, we propose to be in a position to evaluate the comparative benefits of the beyond-market proposals of both Piedmont and Allegheny.

Accordingly, it is ordered, That:

1. The motion of the Richmond parties for expeditious consideration of the issues in Dockets 24412 and 24457, as modified herein, be and it hereby is granted;[8]

2. The application of Allegheny Airlines, Inc. in Docket 24457, insofar as it seeks nonstop Richmond, Virginia-New York, N.Y./Newark, N.J. authority, be and it hereby is consolidated with the proceedings herein; in all other respects the application is dismissed;

3. The joint petition of Piedmont Aviation, Inc., National Airlines, Inc., the city of Richmond, Va., and the Greater Richmond Chamber of Commerce, be and it hereby is set for hearing before an Administrative Law Judge of the Board at a time and place to be hereafter designated, limited to the following issues:

(a) Whether the public convenience and necessity require the amendment of National Airlines' certificate for Route 31 so as to delete or suspend the carrier's authority to serve Richmond, Virginia; and

(b) Whether the public convenience and necessity require the amendment of the certificate of any other carrier so as to add the following segment:

Richmond, Va.-New York, N.Y./Newark, N.J.; and in all other respects, the joint petition in Docket 24412 be and it hereby is denied; and

4. The proceedings in Docket 24412 hereinafter to be known as the Service to Richmond Case, will be conducted under the procedures of Rules 1301 et seq. of the Board's rules of practice except as modified as follows:

(a) Within 25 days of the date of this order Piedmont Aviation, Inc., Allegheny Airlines, Inc. and any other carrier applicant should file supplements to their respective applications setting forth detailed economic justification for their individual proposals over the route in question, and complying fully with Rule 1307 (a) of the Board's rules of practice;

(b) Any interested person, within 25 days of the filings detailed in (a) above may file with the Board an answer to such application, such answers to comply with the provisions of Rules 1306 and 1307(a) of the Board's rules of practice, except that a specific request that a hearing on the above-described matter be held will not be required.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.73-20 Filed 1-2-73;8:45 am]

[2] In its motion to consolidate, Allegheny proposed, inter alia, additional service from Richmond to Philadelphia via Washington.

[3] The expedited procedures of Subpart M will govern the conduct of all future procedural steps. Specifically, the future proceedings in this docket will be conducted under the procedures of Rule 1301 et seq., of the Board's rules of practice. We will not require the joint petition to be refiled under Subpart M since this would unnecessarily delay the proceeding. Instead, we will proceed under Subpart M procedures with the joint petition serving as appropriate applications. National and Piedmont will be given 25 days from the date of service of this order to supplement their application by supplying the second-year forecast required by Rule 1304 and to provide appropriate economic support for the proposed Richmond-New York/Newark service. At the same time, Allegheny will be expected to file new economic evidence to support its application for Richmond-New York/Newark authority, that portion of Allegheny's application in Docket 24457 which will be consolidated herewith. The parties will then have 25 days to answer as specified in Rule 1306.

[4] Richmond is an unrestricted intermediate point on Nation's Route 31, which embraces most of the major cities on the east coast between Boston and Florida. Any attempt to hear even a substantial part of the authority would attract additional competing applications and hence create a major east coast route case.

[5] In light of these circumstances, and of the Board's crowded docket, we find, with respect to those requests for hearing which are dismissed or denied herein, that the proponents have not made a sufficient showing under § 399.69(b) of the Board's policy statements that those requests should be granted at this time.

[6] It would also involve the question of the beyond-market proposals of the applicants.

[7] In addition to New York and Washington, Allegheny seeks Richmond authority only at one other point, Baltimore; however, the carrier proposes to offer Philadelphia and Boston service by tacking a schedule between Baltimore and Philadelphia, as well as Boston. On the other hand, as set forth below, we will not preclude Allegheny or Piedmont from proposing to offer service beyond the terminals in issue.

[8] The petition of Eastern Air Lines for leave to intervene in Docket 24412 and Docket 24457 will be dealt with by the Administrative Law Judge.

Socialist Republic of Romania concerning exports of cotton textiles and cotton textile products from Romania to the United States over a 5-year period beginning on January 1, 1971, and extending through December 31, 1975. Among the provisions of the agreement are those establishing an aggregate limit for the 64 categories, and within the aggregate limit, specific limits on categories 19, 26, 47, 49, 55, 60, and 63 for the third agreement year beginning January 1, 1973.

Accordingly, there is published below a letter of December 21, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in the above categories produced or manufactured in Romania, which may be entered or withdrawn from warehouse for consumption in the United States for the period beginning January 1, 1973, and extending through December 31, 1973, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.,

DECEMBER 21, 1972.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of December 31, 1970, between the Governments of the United States and the Socialist Republic of Romania, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective January 1, 1973 and for the 12-month period extending through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in categories 19, 26, 47, 49, 55, 60, and 63, produced or manufactured in Romania, in excess of the following 12-month levels of restraint:

Category	*12-month level of restraint*
19	1,212,750 square yards.
26	2,425,500 square yards (of which not more than 551,250 square yards may be in duck fabric) [1]
47	44,724 dozen.
49	23,746 dozen.
55	15,132 dozen.
60	21,218 dozen.
63	383,478 pounds.

[1] The T.S.U.S.A. Nos. for duck fabric are:
320.—01 through 04, 06, 08
321.—01 through 04, 06, 08
322.—01 through 04, 06, 08
326.—01 through 04, 06, 08
327.—01 through 04, 06, 08
328.—01 through 04, 06, 08

In carrying out this directive, entries of cotton textile products in categories 19, 26, 47, 49, 55, 60, and 63, produced or manufactured in Romania, which have been exported to the United States from Romania prior to January 1, 1973, shall, to the extent of any unfilled balances be charged against the levels of restraint established for such goods for the 12-month period beginning January 1, 1972, and extending through December 31, 1972. In the event that the levels of restraint for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of December 31, 1970, between the Governments of the United States and the Socialist Republic of Romania which provide in part that within the aggregate limit, limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 F.R. 8802).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Socialist Republic of Romania and with respect to imports of cotton textiles and cotton textile products from Romania have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

University of Illinois-Willard Airport, Champaign County, Ill. The statement refers to the proposed lengthening and strengthening of the runway and taxiway system in order to adequately accommodate air carriers of the DC–9 and Boeing 747 class. The project consists of acquisition of land, constructing, lighting, and marking a 1,600' by 150' extension to runway 31–13; relocating glide slope and middlemarker facilities; constructing, lighting, and marking an extension to the taxiway to serve the new runway extension; and strengthening accessory systems serving runway 31–13. The project will diminish the water quality in the surrounding area and cause an increase in air pollution. (ELR order No. 05711, 46 pages) (NTIS order No. EIS–72 5711–D)

Draft, December 12

State Route 40, Montana. The proposed project is the reconstruction of 4.5 miles of existing Montana 40. The project will acquire 45 acres of land and displace six businesses and five families. A 4(f) review will be required for 0.03 acre of land from the Pinwood Park. The project will include the construction of the Flathead River Bridge causing increased water pollution and siltation. Other adverse effects will include increased noise and air pollution. (ELR order No. 05763, 78 pages) (NTIS order No. EIS–72 5763–D)

U.S. 1, Wake County, N.C. The proposed project is the widening of U.S. 1; length is 7.7 miles. The project will acquire 65 acres of land and displace six businesses and 14 families. Additional right-of-way will be required from a church-owned property. Adverse effects will include some siltation of the Neuse River. (ELR order No. 05760, 35 pages) (NTIS order No. EIS–72 5760–D)

I–15, Juab County, Utah. The proposed project is the construction of 26 miles of I–15. The project, depending upon alternate chosen, would require between 30 and 150 acres of irrigated agricultural land for right-of-way; three to eight residences will be displaced. Adverse effects will include the loss of winter rangeland for the South Elbo elk and deer herds, and an increased danger of road kills. There will be an increase of erosion and water pollution. (ELR order No. 05764, 157 pages) (NTIS order No. EIS–72 5764–D)

Final, December 12

I–10 Ehrenberg-Phoenix, Maricopa County, Ariz. The statement is a final supplement to the final statement on I–10(2) 34, I–IG–10–2(37), and I–10–2(40). It contains a discussion and an analysis of air pollution factors and the anticipated impact the proposed highway will affect upon the air quality of the project area. (ELR order No. 05756, 107 pages) (NTIS order No. EIS–72 5756–F)

Arnold Industrial Highway (Route 4), Contra Costa County, Calif. The statement refers to the freeway improvement of Route 4 from Pachero Boulevard to east of Willow Pass at East Port Chicago Highway, a distance of 6.8 miles, and the freeway construction of the remaining portion of Route 242 from southerly of Olivera Road to Route 4, a distance of 0.9 mile. Approximately 84 families and 21 businesses will be displaced. Approximately 7.9 acres of section 4(f) land will be acquired from a golf course. Comments made by: USDA, COE, HEW, HUD, DOT, State and local agencies. (ELR Order No. 05753, 131 pages) (NTIS order No. EIS–72 5753–F)

ENVIRONMENTAL PROTECTION AGENCY

cis-2,5-DIMETHYL-1-PYRROLIDINECARBOXANILIDE

Notice of Establishment of Temporary Tolerance

The Diamond Shamrock Chemical Co., 300 Union Commerce Building, Cleveland, Ohio 44115, submitted a petition (PP 2G1236) requesting establishment of temporary tolerances for residues of the herbicide cis-2,5-dimethyl-1-pyrrolidinecarboxanilide in or on the raw agricultural commodities corn forage at 1 part per million and corn grain at 0.2 part per million.

Subsequently, the petitioner amended the petition by withdrawing the request for the tolerance on corn forage and by reducing the proposed tolerance for residues of the herbicide on corn grain to 0.1 part per million (negligible residue).

It has been determined that a temporary tolerance for negligible residues of the herbicide in or on corn grain at 0.1 part per million is safe and will protect the public health. It is therefore establish as requested on condition that the herbicide be used in accordance with the temporary permits being issued concurrently by the Environmental Protection Agency and which provide for distribution under the Diamond Shamrock Chemical Co. name.

This temporary tolerance expires December 22, 1973.

This action is being taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: December 22, 1972.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 15461, etc.; FCC 72R–386]

CHAPMAN RADIO AND TELEVISION CO. ET AL.

Memorandum Opinion and Order Enlarging Issues

In regard applications of William A. Chapman and George K. Chapman, doing business as Chapman Radio and Television Co., Homewood, Ala., Docket No. 15461, File No. BPCT–3282; Alabama Television, Inc., Birmingham, Ala., Docket No. 16760, File No. BPCT–3706; Birmingham Broadcasting Co., Birmingham, Ala., Docket No. 16761, File No. BPCT–3707; for construction permit for new Television Broadcast Station; Birmingham Television Corp. (WBMG), Birmingham, Ala., Docket No. 16758, File No. BPCT–3663; for modification of construction permit.

1. This proceeding involves the applications of Chapman Radio and Television Co. (Chapman), Alabama Television, Inc. (Alabama Television), Birmingham Broadcasting Co. (BBC) and Birmingham Television Corp. (WBMG), for authorization to construct a new UHF television broadcast station.[1] Presently before the Review Board for consideration are: (1) A petition to enlarge issues, filed October 13, 1972, by BBC;[2] and (2) a petition to enlarge issues and other relief, filed October 31, 1972, by BBC.[3]

[1] The following is a brief recitation of the history of this proceeding. The proceeding was designated for hearing by order, FCC 66–636, released July 20, 1966. On Aug. 30, 1968, the Presiding Law Judge released an initial decision (19 FCC 2d 185, 14 RR 2d 6), recommending a grant of the application of Alabama Television under the comparative issue. The Review Board affirmed the Judge's ultimate resolution of the proceeding (19 FCC 2d 157, 17 RR 2d 60, reconsideration denied 20 FCC 2d 556, 17 RR 2d 1028). By order, FCC 70–744, 24 FCC 2d 282, released July 13, 1970, the Commission, inter alia, granted a petition for enlargement of issues; the proceeding was thus remanded to the Presiding Judge for the preparation of a supplemental initial decision.

[2] Other related pleadings before the Board for consideration are: (1) opposition, filed Oct. 24, 1972, by Alabama Television; (2) Broadcast Bureau's comments, filed Oct. 26, 1972; (3) reply (comments), filed Oct. 30, 1972, by WBMG; and (4) reply, filed Oct. 31, 1972, by BBC.

[3] Other related pleadings before the Board for consideration are: (1) opposition, filed Nov. 13, 1972, by Alabama Television; (2) Broadcast Bureau's opposition, filed Nov. 15, 1972; (3) reply comments), filed Nov 17, 1972, by WBMG; and (4) reply, filed Dec. 1, 1972, by BBC.

2. Subsequent to the last remand for further hearing in this proceeding, Alabama Television responded to written interrogatories which had been posed by the Broadcast Bureau. In Alabama Television's response, dated September 18, 1972, the applicant indicated for the first time that one of its principals and directors, J. George Mitnick, owns 12.5 percent of Live Lines, Inc., a cable television system which commenced operation in Jasper, Alabama, in 1969. In light of this disclosure, BBC filed the October 13 petition to enlarge issues, seeking five separate issues[4] relating to the newly disclosed information.[5] In opposition, Alabama Television made additional disclosures. The applicant revealed that three of its principals (including Mitnick) each own a 12.5 percent interest in Live Lines, Inc. Thereupon, BBC filed the October 31 petition to enlarge issues and other relief[6] seeking, inter alia, a candor issue against Alabama Television.

[4] BBC seeks the addition of the following issues:

1. To determine the ownership interest of Live Lines, Inc. and whether or not any of Alabama Television's (sic) Inc. principals are also principals of Live Lines, Inc. or have ever been principals of Live Lines, Inc.

2. To determine, in light of the Commission's rules section 76.501 whether Alabama Television, Inc. is qualified to own and operate a television broadcasting station whose Grade A coverage covers the territory of Live Lines, Inc.'s franchise.

3. To determine, the effect upon Alabama Television, Inc.'s preference over other applicants in the comparative aspect of this proceeding regarding Dissemination of Media Control.

4. To determine, all of the facts and circumstances surrounding Alabama Television, Inc.'s failures to report J. George Mitnick's and John Bankhead's ownership interest in Live Lines, Inc. in violation of the Commission's rules, and the effect, if any, upon the comparative or qualifying standing of Alabama Television, Inc.

5. To determine, all of the facts and circumstances surrounding Live Lines, Inc. failure to file timely Federal Communications Commission Forms 325 and 326 and the effect, if any, upon the comparative or qualifying standing of Alabama Television, Inc.

[5] Although the petitions are late filed, the Board is of the view that they raise serious questions of substantial public importance. We agree with the Broadcast Bureau that the absence of supporting affidavits is not critical, because the alleged facts are derived from Commission records and are conceded by Alabama Television.

[6] BBC requests four alternative forms of relief in the following order:

(1) To dismiss Alabama Television's application; or

(2) To certify the subject matter to the Commission with the Board's recommendation of dismissal; or

(3) To direct the Broadcast Bureau to institute a section 403 inquiry; or

(4) To specify a lack of candor issue against Alabama Television.

V38-1 JAN 3 73 XUM

3. The belated disclosures[7] of the CATV ownership interests held by two directors and a minority shareholder of Alabama Television could have serious implications for this proceeding. As an initial matter, a § 1.65 issue is clearly warranted. Rule 1.65 requires disclosure when information furnished in an application is no longer accurate and complete in all significant respects," or when changes, which may be of decisional significance, have occurred.[8] The argument that Alabama Television did not realize that such information was of significance is disingenuous at best; not only does this information clearly fall into the category of "those kinds of matters which may be decisionally significant" (see Reporting of Changed Circumstances, supra), it was precisely the "kind of matter" which formed the basis for the Review Board's decision granting Alabama Television's application. In short, Alabama Television was granted a comparative preference over other applicants under the diversification criterion of the comparative issue.[10] Chapman Radio and Television Co., 19 FCC 2d 157, 17 RR 2d 60 (1969). The language employed by both the Administrative Law Judge and the Review Board in their various decisions constitutes clear and unequivocal notice of the significance of the undisclosed information. Thus, although a separate candor issue is not required, the Board is constrained to point out that the questions of concealment and intent, given these circumstances, merit the closest scrutiny under a section 1.65 issue. Southern Broadcasting Co. (WGHP-TV), FCC 72R-73, 33 FCC 2d 1044, 23 RR 2d 1197. Finally, if it is determined that Rule 1.65 has been violated, but that disqualification is unwarranted, the Administrative Law Judge should reevaluate the applicants under the comparative issue in light of this violation.

The first three requests may be readily dismissed. The Review Board perceives no basis for dismissing Alabama Television's application, and, in any event, request for dismissal should be addressed to the Presiding Judge in the first instance. Moreover, the Board has no jurisdiction to institute a section 403 inquiry. Finally, the request for certification is also unwarranted, since the questions presented by the petitioner are neither novel nor do they present problems of such a magnitude as to require certification. Chronicle Broadcasting Co., 21 FCC 2d 263, 18 RR 2d 183 (1970).

4. BBC's remaining two requests for additional issues will be denied. Petitioner has made no showing, whatsoever, which would suggest that the alleged failure of Live Lines, Inc. to file certain forms with the Commission bears directly upon the qualifications of Alabama Television to be a Commission licensee. BBC's request for a cross-ownership issue is we believe, premature since the ownership interests in both Live Lines, Inc. and Alabama Television were in existence before July 1, 1970. The provisions of section 76.501 of the rules[11] are not effective until August 10, 1973, as to proscribed ownership interests if such interests were in existence on or before July 1, 1970.

5. *Accordingly, it is ordered,* That the petition to enlarge issues, filed October 13, 1972, by Birmingham Broadcasting Co., is granted to the extent indicated herein, and is denied in all other respects; and

6. *It is further ordered,* That the issues in this proceeding are enlarged to include the following issue:

To determine whether Alabama Television, Inc. has complied with the provisions of Section 1.65 of the Commission's rules by keeping the Commission advised of substantial changes in its application, and, if not, the effect of such noncompliance on the basic or comparative qualifications of the applicant to be a broadcast licensee; and

7. *It is further ordered,* That the burden of proceeding with the introduction of evidence shall be on Birmingham Broadcasting Co., and the burden of proof under this issue shall be on Alabama Television, Inc.; and

8. *It is further ordered,* That the petition to enlarge issues and other relief, filed October 31, 1972, by Birmingham Broadcasting Co., is denied.

PROSSER-GRANDVIEW BROADCASTERS, INC., AND BENNETT BROADCASTING CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of Prosser-Grandview Broadcasters, Inc., Grandview, Wash., Docket No. 19655, File No. BPH-7762, Requests: 96.7 MHz, No. 244; 1.15 kw.; −91 feet; Bennett Broadcasting Co., Sunnyside, Wash., Docket No. 19656, File No. BPH-7860, Requests: 96.7 MHz, No. 244; 3 kw.; 28 feet; for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has for consideration the captioned applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference. Therefore a comparative hearing is required.

2. The respective proposals, although for different communities, would serve substantial areas in common. Consequently, in addition to determining which of the proposals would better provide a fair, efficient, and equitable distribution of radio service, under section 307(b) of the Communications Act of 1934, as amended, a contingent comparative issue will be specified.

3. Each of the applicants is qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

4. *Accordingly, it is ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive FM service of 1 mV/m or greater intensity from the respective proposals together with the availability of other primary (1 mV/m or better for FM) aural services in such areas.

2. To determine, in light of section 307 (b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient, and equitable distribution of radio service.

3. To determine, in the event it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), which of the proposals would better serve the public interest.

4. To determine, in light of the evidence adduced under the above issues, which application should be granted.

6. *It is further ordered,* That the applicants shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by § 1.221(c) of the rules.

7. *It is further ordered,* That the applicants shall give notice of the hearing within the time and in the manner specified in § 1.594 of the rules, and shall seasonably file the statement required by § 1.594(g).

Adopted: December 11, 1972.

Released: December 13, 1972.

PRIME TIME ACCESS RULE

Notice of Request for Waiver

DECEMBER 20, 1972.

Public notice is hereby given of a request for waiver of the "prime time access rule," § 658(k) of the Commission's rules, filed on November 29, 1972 by Children's Television Workshop (CTW) ("Petition by Children's Television Workshop"). The request seeks waiver of the limitation on network prime-time programing (to 3 hours a night) so as to permit a network to present a prime time half-hour weekly children's program, to the extent of 26 original programs and 26 repeats, starting about January 1974, in addition to the usual 3 hours of network programing.

In line with a policy recently adopted concerning requests for waiver of the "off-network" provisions of the rule,[1] it is believed that interested parties should have opportunity to comment on this request before the Commission considers it. Accordingly, notice is hereby given that no action will be taken by the Commission at least until January 31, 1973, and that interested parties may file comments concerning the request through January 12, 1973. Petitioner, or other parties wishing to reply to comments concerning the petition, may file replies through January 22, 1973.

Issuance of this public notice does not represent any Commission view as to the merit of the request, or as to whether it will be appropriate to reach any decision as to it in advance of the over-all rule making proceeding decision concerning the prime time access rule, Docket 19622. The latter is expected early next spring.

Copies of the CTW petition, and of any responsive comments which are filed, may be examined at the Commission's Office of Network Study, Room A-323, Federal Communications Commission Annex (Howitch Building), 1229 20th Street NW., Washington, DC.

[7] Since the interests in Live Lines, Inc., did not exist prior to the filing of Alabama Television's application, a Rule 1.514 issue is unwarranted.

[8] BBC requested an issue inquiring into other possible financial connections between Alabama Television and Live Lines, Inc. In view of the further information furnished by Alabama Television with its opposition, however, we do not believe that there is basis for adding this issue.

[9] See Reporting of Changed Circumstances Affecting Applications, FCC 64-1047, 3 RR 2d 1622.

[10] In this connection we note that a CATV interest represents an interest in existing media of mass communications (see e.g., Media, Inc., 22 FCC 2d 875, 18 RR 2d 1175 (1970; Lake Erie Broadcasting Co., 34 FCC 2d 354, 24 RR 2d 64 (1972); and William R. Gaston, 35 FCC 2d 624, 24 RR 2d 779 (1972); and that in comparative broadcast hearings both common control and less than controlling interests in other broadcast stations and other media of mass communications will be considered. (Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393, 5 RR 2d 1901 (1965)).

[11] Section 76.501 of the rules prohibits a cable television system from carrying the signal of any television broadcast station if such system directly or indirectly owns, operates, controls or has an interest in a television broadcast station whose Grade B contour overlaps the CATV service area.

[Docket Nos. CI73-293, etc.]

BELCO PETROLEUM CORP. ET AL.

Order Consolidating Proceedings, Granting Interventions, and Fixing Date for Hearing on Applications for Certificates Under Optional Procedure

DECEMBER 26, 1972.

On October 24, 1972, Belco Petroleum Corp., Agent (Belco) filed in Docket No. CI73-293 an application pursuant to section 7(c) of the Natural Gas Act, and pursuant to § 2.75 of the Commission's general policy statements, the new optional procedure for certificating new producer sales of natural gas set forth in Order No. 455,[1] for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce to Tennessee Gas Pipeline Co. (Tennessee) from the West Delta Block, Offshore Louisiana. On November 8, 1972, Texaco Inc. (Texaco) and Tenneco Oil Co. (Tenneco), in Docket Nos. CI73-335 and CI73-336, respectively, each filed applications pursuant to section 7(c), of the Natural Gas Act, and pursuant to said § 2.75, for certificates of public convenience and necessity authorizing sales and deliveries of natural gas in interstate commerce to Tennessee Gas Pipeline Co. (Tennessee) from the same acreage in the East Cameron Block 271 Field, Offshore Louisiana.

Belco, following the optional procedure, submitted to the Commission a contract dated June 8, 1972, which contains an initial sales price of 45 cents per Mcf, with rate escalations of 1.5 cents per Mcf annually over a 10-year contract term. Texaco and Tenneco each filed identical contracts dated October 6, 1972 and October 12, 1972, respectively, containing an initial price of 45 cents per Mcf with 1 cent per Mcf rate escalations annually over a 20-year contract term.

Notice of Belco's application in Docket No. CI 73-293 was issued on November 10, 1972, and was published in the FEDERAL REGISTER on November 15, 1972 (37 F.R. 24215). November 29, 1972, was set as the last date to file protests or petitions to intervene in the proceeding. Timely petitions to intervene were filed by the following parties:

Columbia Gas Transmission Corp.
Humble Oil & Refining Co.
Public Service Electric and Gas Co.
The Public Service Commission for the State of New York
The Philadelphia Gas Works Division of UGI Corp.
Tennessee Gas Pipeline Co.
Cabot Corp.
American Public Gas Association
Associated Gas Distributors
Consumers Union of United States, Inc.

Notice of Texaco's application in Docket No. CI73-335 was issued on November 15, 1972, and was published in the FEDERAL REGISTER on November 21, 1972 (37 F.R. 24791). December 11, 1972, was set as the last date to file protests or petitions to intervene in the proceeding. Timely petitions to intervene were filed by the following parties:

Humble Oil & Refining Co.
Associated Gas Distributors
Consumers Union of United States, Inc.
Union Oil Co. of California
Mobil Oil Corp.
Public Service Commission of the State of New York
Columbia Gas Transmission Corp.
Philadelphia Gas Works Division of UGI Corp.
American Public Gas Association
Tennessee Gas Pipeline Co., Division of Tenneco Inc.
Consolidated Gas Supply Corp.
The Peoples Gas, Light and Coke Co.

Notice of Tenneco's application in Docket No. CI73-336 was issued on November 14, 1972, and was published in the FEDERAL REGISTER on November 18, 1972 (37 F.R. 24707). December 8, 1972, was set as the last date to file protests or petitions to intervene in the proceeding. Timely petitions to intervene were filed by the following parties:

Humble Oil & Refining Co.
Associated Gas Distributors
Consumers Union of United States, Inc.
Mobil Oil Corp.
Union Oil Co. of California
Philadelphia Gas Works Division of UGI Corp.
Columbia Gas Transmission Corp.
Public Service Electric and Gas Co.
Consolidated Gas Supply Corp.
Tennessee Gas Pipeline Co., a Division of Tenneco Inc.
American Public Gas Association

Having reviewed the petitions to intervene, we find that all of the abovementioned petitioners have sufficient interest in these proceedings to warrant intervention.

A formal hearing has been requested, and we find a hearing to be desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating these sales, and whether the rates proposed are just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable costs.

No intervenor contests the need of Tennessee Gas Pipeline Co., for the approximately 36 billion cubic feet annually which the proposed purchases will secure for Tennessee. We note from the filings that Tennessee projects a deliverability life index of only 6 years as of December 31, 1972. Accordingly, the hearing hereinafter provided for should not explore any issues relative to Tennessee's need. We do require from Tennessee, however, evidence as to whether or not a comparable supply of gas is available to Tennessee at any rate lower than those rates proposed in these applications.

With respect to proceedings under § 2.75 of our regulations, we have heretofore stated:

> We will, absent a showing as special circumstances, accept as conclusive the cost findings embodied in our area rate decisions, as such may be supplemented from time to time by appropriate Commission order. (Order 455, paragraph 63, page 21.)

We do not, therefore, open this hearing to the presentation of cost data, unless, in the judgment of the Presiding Administrative Law Judge, a showing of special circumstances is made.

We also direct the attention of the parties to our recent statement in Opinion No. 639, Area Rates for the Appalachian and Illinois Basin Areas, Docket No. R-371, opinion issued December 12, 1972, wherein we stated:

> We have been admonished not to rely on cost alone, but also to consider producer rate levels in the context of "non-cost" factors of supply and demand, capital formation, and probable industry response to any given level of rates. Austral Oil, et al. v. F.P.C., 428 F. 2d 407 (CA5, 1970). Applications under Section 2.75 will be so considered * * *.

The Commission notes the interrelationship between the three above-described proceedings and concludes that their ultimate disposition would best be accomplished in a consolidated proceeding. The Commission therefore shall consolidate Docket Nos. CI73-293, CI73-335 and CI73-336 for hearing and disposition.

We note from the filing of Belco Petroleum Corp., that its contract with Tennessee contains termination provisions which permit termination on April 1, 1973. Mindful of this time constraint, we direct that the consolidated dockets shall be brought on for hearing and disposition on an expedited basis, so that the Commission will be in a position to rule on this matter prior to April 1, 1973.

Because of the need for prompt action, those intervenors wishing to challenge the legality of our § 2.75 procedures may make such filings as they deem appropriate to protect their position; we do not regard this case, however, as a proper forum for relitigation of the propriety of section 2.75 procedures. We have ruled upon these matters in Orders Nos. 455 and 455-A, and this is a matter now before the court of appeals (appeal docketed John E. Moss, et al. v. F.P.C., No. 72-1837, CADC), and accordingly, the hearing herein provided for should be addressed to the specific issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates here proposed.

[1] Statement of policy relating to optional procedure for certificating new producer sales of natural gas, Docket No. R-441 (Aug. 3, 1972).

The Commission finds:

(1) It is necessary and in the public interest that the above-docketed proceedings be consolidated for hearing and decision.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in these consolidated proceedings in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(3) It is necessary and appropriate that the consolidated proceedings in the above-named applications be set for hearings.

The Commission orders:

(A) Docket Nos. CI73-293, CI73-335 and CI73-336 are consolidated for purposes of hearing and disposition.

(B) The above-named petitioners are permitted to intervene in this consolidated proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The direct case of each of the applicants and all the intervenors in support thereof shall be filed and served on all parties on or before January 10, 1973.

(D) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 15, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing on the issues presented by the proposals of the applicants herein shall be held commencing January 25, 1973, at 9 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR, 315(d)), shall preside at the hearing in this proceeding, and shall prescribe relevant procedural matters not herein provided, or shall make such changes thereto as, for good cause shown, he shall find necessary and proper, subject, however, to the necessity for final Commission action on or before April 1, 1973.

By the Commission.

[Docket No. ID-1591]

SOL BURSTEIN

Notice of Application

DECEMBER 26, 1972.

Take notice that on November 30, 1972, Sol Burstein (Applicant) filed an application pursuant to section 305(b) of the Federal Power Act seeking authority to hold interlocking directorate positions.

Applicant is senior vice president of Wisconsin Electric Power Co., a public utility principally engaged in the generation, transmission, and distribution, of electricity in southeastern Wisconsin. Applicant is also director and vice president—Nuclear Plant of Wisconsin Michigan Power Co., a public utility engaged in the generation, transmission and distribution of electricity in Fox River Valley and northern Wisconsin and in the Upper Peninsula of Michigan.

On November 16, 1972, Applicant was designated by the board of directors of Wisconsin Electric Power Co. as nominee for election as director at the next annual stockholders meeting to be held May 2, 1973.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. CI73-426]

CHAMPLIN PETROLEUM CO.

Notice of Application

DECEMBER 22, 1972.

Take notice that on December 18, 1972, Champlin Petroleum Co. (Applicant), Post Office Box 9365, Fort Worth, TX 76197, filed in Docket No. CI73-426 for an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America from the Ardinger No. 1 Well, Wise County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 2,000 Mcf of gas per day at 35.0 cents per Mcf at 14.65 p.s.i.a., subject to B.t.u. adjustment, for a maximum period of up to 2 years, commencing from the date of initial delivery, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

CITIES SERVICE GAS CO.

Notice of Application

DECEMBER 26, 1972.

Take notice that on December 18, 1972, Cities Service Gas Co. (Applicant), Post Office Box 25128, Oklahoma City, OK 73125, filed in Docket No. CP73-160 a budget type application pursuant to sections 7(b) and 7(c) of the Natural Gas Act, as implemented by proposed § 157.7 (f) of the Commission's regulations

V38-1 JAN 3 73 XUM

thereunder, for a certificate of public convenience and necessity and permission and approval for the construction and relocation, during the calendar year 1973, and operation of certain natural gas field compression facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in installing and relocating field compression facilities to take into its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

The total cost of the installation and relocation of facilities proposed herein is not to exceed $500,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

CONNECTICUT LIGHT AND POWER CO. ET AL.

Notice of Initial Rate Filing

DECEMBER 22, 1972.

Take notice that the Connecticut Light and Power Co. (the Company), the Hartford Electric Light Co. and Western Massachusetts Electric Co. (the Licensees) on October 30, 1972, tendered for filing as an initial rate schedule the Northfield Mountain purchase agreement (Purchase Agreement) dated October 1, 1971. The Licensees and the Purchases, New Bedford Gas and Edison Light Co., propose to make the tendered rate schedule effective on December 1, 1972.

The Company states that the Purchase Agreement provides for sales of capacity, related pondage, and related transmission service at the Northfield Mountain Pumped Storage Hydro Electric Project (License Project No. 2485) to the Purchaser during the 1973 period, from on or about December 1, 1972, until October 29, 1973, and the 1974 period, from October 29, 1973, to October 28, 1974.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 8, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

[Docket No. E-7833]

CONSOLIDATED EDISON CO. OF NEW YORK

Notice of Initial Rate Filing

DECEMBER 22, 1972.

Take notice that Consolidated Edison Co. of New York (Con Edison) on November 14, 1972, tendered for filing as an initial rate schedule a power transmission agreement dated October 28, 1972, between Con Edison and Central Hudson Gas and Electric Corp. (Central Hudson). Service under the agreement commenced on November 1, 1972, and will terminate no later than December 31, 1972. Con Edison's total revenue increase under this agreement during November 1972, is estimated at $5,700. The proposed effective date is November 1, 1972.

Con Edison requests waiver of the Commission's notice requirement in section 35.3 of the Commission's regulations. Con Edison states that the agreement was not executed until October 30, 1972, and accordingly the filing date is less than the 30-day period prescribed by section 35.3. Further, if the notice period is not waived, the result will be an uncompensated provision of transmission service. Finally, Con Edison avers that a grant of waiver will have no effect on purchasers under its other rate schedules.

Copies of this filing were mailed to Central Hudson.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 8, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

JOHN H. HENDRIX, ET AL.

Notice of Application

DECEMBER 26, 1972.

Take notice that on December 7, 1972, John H. Hendrix (Operator), et al. (Applicants), 403 Wall Towers West, Midland, TX 79701, filed in Docket No. CI 73-414 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain natural gas sales, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks permission and approval for the abandonment of the sale of gas to Warren Petroleum Corp. (Warren) from oil wells at the Eunice-Monument Grayburg San Andres Pool, Lea County, N. Mex., being made pursuant to a percentage-of-proceeds type contract which has been terminated. Applicants state that the wells involved were reclassified from "oils wells" to "gas wells" by the New Mexico Oil Conservation Commission; that natural gas produced from these gas wells will be sold by Applicants directly to El Paso Natural Gas Co. (El Paso) under an existing contract dated April 20, 1949, as amended, and pursuant to Applicant's small producer certificate issued in Docket No. CS69-13; that there will be no cessation of volumes of gas sold in interstate commerce, and no change in the ultimate purchaser.

Warren and El Paso have advised Applicants that they will not oppose this application.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

LOGUE AND PATTERSON, INC., ET AL.

Notice of Application

DECEMBER 22, 1972.

Take notice that on December 18, 1972, Logue and Patterson, Inc., et al. (Applicants), 628 Meadows Building, Dallas, Tex. 75206, filed in Docket No. CI73-424 for an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Trunkline Gas Co. from the O'Brien Ranch Field, Goliad County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants propose to sell up to an average daily quantity of 5,000 Mcf of gas at 35 cents per Mcf at 14.65 psia for 1 year from initial date of delivery within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. [Docket No. CI73-169]

MESA PETROLEUM CO.

Findings and Order

DECEMBER 22, 1972.

Findings and order issuing temporary certificate of public convenience and necessity, accepting FPC gas rate schedule for filing, granting interventions, fixing date of hearing and specifying procedures.

On September 5, 1972, Mesa Petroleum Co. (Applicant) filed in Docket No. CI73-169 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Co. (Panhandle), from the Hugoton Field, Stevens and Grant Counties, Kans., all as more fully set forth in the application in this proceeding.

Applicant has filed with its application a copy of its letter agreement with

V38-1 JAN 3 73 XUM

Panhandle dated August 12, 1972, committing volumes in excess of Applicant's current requirements to Panhandle of approximately 20,000 Mcf of gas per day at 39.0 cents per Mcf at 14.65 p.s.i.a. from January 1, 1973, through December 31, 1973, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

Applicant states that approval of the application will provide Panhandle with a volume of natural gas available to the interstate market which will aid Panhandle in attempting to maintain adequate service on its system, to offset declining deliverability and to help alleviate its present curtailments resulting from critical shortages of new gas supplies.

After due notice in the FEDERAL REGISTER on September 16, 1972 (37 F.R. 18946), the Kansas Power & Light Co. (K.P. & L.), and Panhandle filed petitions to intervene on October 5 and October 6, 1972, respectively. On September 22, 1972, the State Corporation Commission of the State of Kansas filed its notice of intervention.

In its petition for leave to intervene Panhandle states that its storage facilities were fully depleted by the close of the 1971–72 heating season therefore requiring it to seek additional supplies. These additional gas supplies will aid Panhandle in correcting its stated overproduction situation involving its west end supplies, allowing it to replenish its underground storage with a concomitant decrease in the amount of projected curtailments on its system.

K.P. & L. in its petition for leave to intervene generally opposes Mesa's application and moves that the instant application be dismissed. Specifically, K.P. & L. states among other things that: (1) Under its "Gas Purchase Contract" with Applicant, it has a prior right to the excess gas and has not been given the opportunity to take such excess gas; (2) the instant application, if approved, would allow Applicant to diminish its ability to honor its contractual obligations with K.P. & L. in the future; (3) a decrease in the deliverability of Applicant's system would occur; (4) the sale would reduce Applicant's ability to meet K.P. & L.'s peak load demands, and (5) Order No. 431 and § 2.70 of the Commission's general policy and interpretations under the Natural Gas Act does not contemplate the type of transaction or application involved herein and therefore will not support it.

The State Corporation Commission of the State of Kansas states that it is generally interested in the instant proceeding since it involves the welfare of the citizens and residents of the State of Kansas.

On October 17, 1972, Applicant filed its answer to K.P. & L.'s petition and motion to dismiss. Panhandle filed a document identically styled on October 24. In answer to K.P. & L.'s contention that Order No. 431 does not provide the Commission with authority to grant Mesa's request and that such order is only applicable to pipelines, Mesa cites numerous cases wherein the Commission has issued limited term certificates to producers under Order No. 431. Responding to K.P. & L.'s claim that Mesa's application is defective because it does not contain specific allegations by Panhandle that it has complied with the conditions contained in Order No. 431, Mesa states that its application and Panhandle's petition to intervene shows Panhandle's need for additional gas. Also, the Commission can take administrative notice of Panhandle's curtailment policies as well as its reported curtailments.

Mesa claims that under its contract with K.P. & L., it has the right to sell excess gas if said excess gas is not purchased by K.P. & L. Mesa claims that it notified K.P. & L. on January 21, 1972, that it has excess gas in the amount of 38.6 billion cubic feet, and that K.P. & L. failed to purchase such gas.

Mesa states that the only issue raised by K. P. & L. relates to the interpretation of the Mesa-K.P. & L. contract, which Mesa claims is not a proper evidentiary issue to be determined by the Commission.

In answer to K.P. & L.'s contention that no jurisdictional pipeline has made a showing precedent to granting Mesa a limited term certificate pursuant to Order No. 431, Panhandle submitted a current systemwide curtailment projection furnished to its customers based on its approved curtailment program. Therein, Panhandle shows that it will experience a deficiency of 75,000 Mcf per day commencing November 1972 and increasing to 150,000 Mcf per day from December 1972 through March 1973.

In reply to K.P. & L.'s claim that Panhandle has a cumulative under produced allowable of 11.35 billion cubic feet in the Hugoton Field, which could supply Panhandle with the volumes necessary to meet its needs, Panhandle refers to the Commission's order issued in Docket No. CP72–257. Therein Panhandle was authorized to, inter alia, add 4,000 compressor horsepower to its Hugoton Field system in order to maintain deliverability and balance overproduction and underproduction. Panhandle states that utilization of the substantially completed facilities will reduce such underage by approximately 50 percent during the 1972–73 heating season and completely eliminate the underage shortly thereafter.

In light of the storage and supply situation extant on Panhandle's system as evidenced by the projection filed herein as well as by the record in Docket No. RP71–119, we find that an emergency situation does exist. Nevertheless, a full evidentiary hearing is indicated in order to resolve the issues raised by K.P. & L. The temporary certificate issued herein is exclusively premised upon the immediate need to initiate the flow of excess gas to Panhandle and does not in any way prejudice the rights of the parties herein. All sales by Mesa to Panhandle made under the auspices of this temporary certificate are subject to recission upon the final disposition of the issues pendente lite herein should K.P. & L.'s allegation of prior right to these volumes be resolved favorably to K.P. & L.

The Commission finds:

(1) Based upon the allegations presented in the request for a Limited Term Certificate in this docket to initiate the sale of natural gas in interstate commerce pursuant to § 2.70 of the Commission's general policy and interpretations under the Natural Gas Act filed in this proceeding, the Commission finds that an emergency exists, and a temporary certificate should be issued as hereinafter ordered and conditioned.

(2) Participation in this proceeding by the above-named petitioners may be in the public interest.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing to determine whether the public convenience and necessity require the grant of a limited term certificate.

The Commission orders:

(A) Upon the terms and conditions of this order, a temporary certificate of public convenience and necessity is issued in this docket authorizing Applicant to sell natural gas in interstate commerce to Panhandle at the rate of 39.0 cents per Mcf at 14.65 p.s.i.a. all as hereinbefore described and as more fully set out in the application herein.

(B) The temporary certificate issued above is conditioned as follows:

(1) Said temporary certificate shall take immediate effect and remain in effect pending final resolution of the issues raised herein.

(2) Panhandle Eastern Pipe Line Co., shall purchase natural gas pursuant to the temporary certificate issued above subject to return to the status quo prior to the initiation of the sale temporarily authorized herein should the record developed herein establish K.P. & L.'s prior right thereto.

(3) The issuance of this temporary certificate and the acceptance of the above rate schedule are without prejudice to such final disposition of the application for certificate as the record may require.

(C) The Commission specifically waives its accounting and reporting requirements by Applicants with respect to the subject sale; however, Applicants shall report to the Commission the volume of gas sold within 30 days after deliveries terminate.

(D) Applicants shall abandon the subject sale upon the termination of the temporary certificate issued herein or as may be otherwise ordered.

(E) During the term of the sale authorized herein Panhandle shall make no new direct interruptible sales from its system.

(F) The contract dated August 12, 1972, is accepted for filing effective the date of this order and is designated as Mesa Petroleum Co. FPC Gas Rate Schedule No. 1.

(G) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter 1), a public hearing shall be held commencing on January 16, 1973, at 10 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426 to determine whether the public convenience and necessity require the issuance of the proposed limited term certificate.

(H) On or before January 4, 1973, the Applicant and all interveners will serve on all parties, including the Commission staff, testimony and exhibits in support of the instant application and/or their respective position to the issues raised herein.

(I) Panhandle and K.P. & L. are hereby permitted to become interveners in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of said interveners shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions for leave to intervene: *And provided, further*, That the admission of said interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(J) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

By the Commission.

[Docket No. CI73-412]

BRUCE A. WILBANKS ET AL.

Notice of Application

DECEMBER 26, 1972.

Take notice that on December 7, 1972, Bruce A. Wilbanks (operator) et al. (applicants), Post Office Box 763, Midland, TX 79701, filed in Docket No. CI73–412 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain natural gas sales, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants seek permission and approval for the abandonment of the sale of gas to Warren Petroleum Corp. (Warren) from oil wells at the Eunice-Monument Grayburg San Andres Pool, Lea County, N. Mex., being made pursuant to a percentage-of-proceeds type contract which has been terminated. Applicants state that the wells involved were reclassified from "oil wells" to "gas wells" by the New Mexico Oil Conservation Commission; that natural gas produced from these gas wells will be sold by applicants directly to El Paso Natural Gas Co. (El Paso) under an existing contract dated April 10, 1959, as amended, and pursuant to applicants' small producer certificate issued in Docket No. CS69–17; and that there will be no cessation of volumes of gas sold in interstate commerce, and no change in the ultimate purchaser.

Warren and El Paso have advised applicants that they will not oppose this application.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

FEDERAL RESERVE SYSTEM

WALTER HELLER INTERNATIONAL CORP.

Formation of Bank Holding Company and Continuation of Certain Activities

Walter Heller International Corp., Chicago, Ill., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of American National Bank and Trust Co. of Chicago, Chicago, Ill. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Walter Heller International Corp. has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's regulation Y, for permission to retain the assets and continue to engage in the activities of its domestic subsidiaries, Walter E. Heller & Co., Heller Interstate Corp., and B. B. Cohen & Co., each of whose principal office is located in Chicago, Ill., and their subsidiaries identified below, and thereby continue to engage in the activities of those companies which include: commercial financing, factoring, rediscounting, leasing of personal property, mortgage banking, certain credit related insurance agency activities, and data processing. Notice of the application was published on October 25, 1972, in newspapers of general circulation as follows:

1. The Wall Street Journal, Palo Alto, Calif.; New York, N.Y.; Dallas, Tex.; Chicago, Ill.
2. American Banker, New York, N.Y.
3. The Atlanta Journal, Atlanta, Ga.
4. Chicago Tribune, Chicago, Ill.
5. Los Angeles Times, Los Angeles, Calif.
6. The New York Times, New York, N.Y.

Applicant states that, in its judgment, the activities of its subsidiary companies are consistent with the activities specified by the Board in § 225.4(a) of regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Such activities as proposed to be continued would be conducted at the present offices of such companies and their subsidiaries, at the following locations:

With respect to commercial finance and leasing of personal property: the cities of Birmingham, Ala.; Phoenix, Ariz.; Beverly Hills, Los Angeles, and San Francisco, Calif.; Miami, Fla.; Atlanta, Ga.; Chicago, Ill.; New Orleans, La.; Baltimore, Md.; Boston, Mass.; Detroit, Mich.; Minneapolis, Minn.; St. Louis, Mo.; New York and Syracuse, N.Y.; Charlotte, N.C.; Portland, Oreg.; Philadelphia, Pa.; and Dallas and Houston, Tex.

With respect to factoring: the cities of Los Angeles, Calif.; Atlanta, Ga.; Chicago, Ill.; New York, N.Y.; Charlotte, N.C.; Oklahoma City, Okla.; Portland, Oreg.; and Dallas, Tex.

With respect to rediscounting: the cities of Los Angeles, Calif.; Miami, Fla.; and Chicago, Ill.

With respect to mortgage banking (and related insurance activities): the city of Chicago, Ill.

V38-1 JAN 3 73 XUM

With respect to consumer loans (and related insurance activities) : in the cities of Birmingham, Dothan, Fairfield, Florence, Gadsden, Mobile, Montgomery, Prichard, Selma, Talladega, and Tallassee, Ala.; Blountstown, Brownsville, Daytona Beach, Dunnellon, Havana, Homestead, Inverness, Jacksonville, Lakeland, Melbourne, Miami, Orlando, Pensacola, Perrine, Port St. Joe, Quincy, Ruskin, St. Augustine, and Tallahassee, Fla.; Albany, Athens, Atlanta, Augusta, Austell, Brunswick, Columbus, Dalton, Jackson, Rome, Savannah, Tennille, Thomaston, Valdosta, and Waycross, Ga.; Indianapolis, Indiana; Baton Rouge, Lafayette, Lake Charles, Monroe, and Shreveport, La.; Oklahoma City and Tulsa, Okla.; and Johnson City, Kingsport, Knoxville, Memphis, and Nashville, Tenn.

With respect to electronic data processing services; the city of Chicago, Ill.

These activities are presently conducted through the following subsidiaries of Walter E. Heller International Corp.:

Walter E. Heller & Co.
Heller Interstate Corp.
Walter E. Heller Factors, Inc.
Associate Factors, Inc.
Heller National Financial Corp.
Heller-Oak Cable Finance Corp.
Heller Leasing Corp.
Heller-SSI Corp.
National Acceptance Co. of America.
Texas Western Financial Corp.
NAC Financial Corp.
Merit Credit Corp., Inc.
Merit Loan Corp., Inc.
Merit Finance Corp.

First National-Heller Factors, Inc.
GlobaLease, Inc.
Liberty-Heller Factors, Inc.
Forest Land Co., Inc.
First Acceptance Corp.
General Capital Corp.
Kona Corp.

Applicant also proposes to acquire, as a result of its acquisition of American National Bank and Trust Co. of Chicago and that bank's parent holding company:

American National Educational Corp. of California, a California corporation, and American National Educational Corp. of Delaware, a Delaware corporation, each of whose principal office is in Chicago, Ill., and thereby to engage in the business of making loans to students. Such activities will continue to be conducted at the present offices of said corporations located at 33 North LaSalle Street, Chicago, Cook County, Ill., and at the office of American National Educational Corp. of California at Union Bank Square, North Tower, 500 South Main Street, Orange, Calif., and at the Office of American National Educational Corp. of Delaware at 1100 17th Street NW., Washington, D.C.

Walter E. Heller International Corp. has also applied in a separate application, under section 4(c)(13) of the Bank Holding Company Act, to retain its commercial finance, leasing, factoring, and consumer loan activities conducted in Puerto Rico and in numerous foreign countries. None of these companies engages in activities within the United States.

In addition to the activities sought by applicant to be retained, upon approval of its applications by the Board, applicant intends to divest itself of any and all interest in manufacturing and other nonbanking subsidiaries of its wholly-owned subsidiary Walter E. Heller Industries, Inc. Applicant proposes also to divest its present interest in companies engaged in various aspects of real estate acquisition, development, syndication, and management.

Interested persons may express their comments and views on these applications including the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

These applications are available for inspection at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago and may be made available at other Federal Reserve banks pursuant to a request filed at the Board of Governors in Washington, D.C.

Any views, requests for hearing, or requests to review these applications at other Federal Reserve banks should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than January 16, 1973.

PRICE COMMISSION

[Order 6]

PASS THROUGH OF LEATHER COSTS

Clarification

Price Commission Order No. 6 (37 F.R. 12756, June 28, 1972) governs price increases based upon leather costs by manufacturers of products, the total allowable cost of which, on June 15, 1972, was comprised of more than 10 percent in leather costs. Such manufacturers were prohibited by the order from charging prices for those products above the price which could legally be charged under Part 300 (6 CFR Part 300) had the cost of leather not increased since January 1, 1971, or since the last price increase on the product before November 13, 1971, whichever was later, plus the dollar amount of the cost increase attributable to leather since that last price increase. Order No. 6 further required the manufacturer to reduce the price of the product by the dollar amount of any decrease in the cost of the product attributable to leather.

A question has arisen as to whether it was the intention of the Price Commission to thereby modify the prenotification or reporting requirements of § 300.51 or § 300.52, the profit margin limitation of § 300.12, the productivity rules of § 300.11a, or any other provision of Part 300 applicable to manufacturers. It was not the intent to so modify those requirements.

Therefore, in order to clarify Order No. 6 and to more clearly reflect the Commission's intent, Order No. 6 is hereby amended by adding the following sentence at the end thereof:

Manufacturers subject to this order remain subject to all provisions of 6 CFR Part 300 not in conflict with paragraphs (1) and (2) of this order.

Issued in Washington, D.C., on December 29, 1972.

C. JACKSON GRAYSON, JR.,
Chairman, Price Commission.

OLD KENNETT LEASING CO.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

DECEMBER 19, 1972.

I. Old Kennett Leasing Co., Suite 1100, 300 Delaware Avenue, Wilmington, DE (Old Kennett) was organized as a limited partnership on January 28, 1972, under the laws of the State of Delaware and filed with the Commission on January 31, 1972, a notification on Form 1-A and an offering circular relating to an offering of 50 units of limited partnership interests at an offering price of $10,000 per unit for an aggregate offering price of $500,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933 pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

FDI Securities, Inc., whose principal place of business is Suite 1100, 300 Delaware Avenue, Wilmington, DE, is named as the underwriter.

II. The Commission, on the basis of information provided by the staff, has reason to believe that:

A. The notification and offering circular of Old Kennett Leasing Co., contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading particularly with respect to:

1. Sales of unregistered securities of affiliates of Old Kennett Leasing Co., in violation of sections 5 and 17 of the Securities Act of 1933;

2. The contingent liability resulting from the sale of unregistered securities in violation of section 5 of the Securities Act of 1933.

B. The terms and conditions of Regulation A have not been complied with in that:

1. No exemption is available under the regulation for the securities purported to be offered hereunder in that the offering, if made, would exceed the ceiling for the Regulation A exemption under Rule 254.

C. The offering, if made, would be in violation of section 17 of the Securities Act of 1933.

III. It, appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the Issuer under Regulation A be temporarily suspended.

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, that the exemption under Regulation A be and hereby is temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the Issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within 30 days after the entry of this order; that within 30 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearings at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the 30th day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

It is ordered, Pursuant to Rule 10 of the Commission's rules of practice, that any hearing ordered in this matter should be consolidated with the hearing ordered in the matter of FDI Securities, Inc. et al. (Administrative Proceeding File No. 3-4077).

TARIFF COMMISSION

[AA1921-105]

NORTHERN BLEACHED HARDWOOD KRAFT PULP FROM CANADA

Determination of Injury

DECEMBER 27, 1972.

On September 28, 1972, the Tariff Commission received advice from the Treasury Department that northern bleached hardwood kraft pulp from Canada is being, or is likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted investigation No. AA1921-105 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

V38-1 JAN 3 73 XUM

Notice of the investigation and hearing was published in the FEDERAL REGISTER of October 6, 1972 (37 F.R. 21210). A public hearing was held on November 21, 1972. Appearances at the hearing were entered by representatives of importers. No appearances were entered for the domestic industry.

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission has determined by a vote of 3 to 3 [1] that an industry in the United States is being injured by reason of the importation of northern bleached hardwood kraft pulp from Canada, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS FOR AFFIRMATIVE DETERMINATION BY CHAIRMAN BEDELL AND COMMISSIONERS LEONARD AND MOORE

The Antidumping Act, 1921, as amended, requires that the Tariff Commission find two conditions satisfied before an affirmative determination can be made.

First, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be prevented from being established.[2] Second, such injury, or likelihood of injury, must be by "reason of" the importation into the United States of the class or kind of foreign merchandise the Secretary of the Treasury determined is being, or is likely to be, sold at less than fair value (LTFV).

In our judgment, both of the aforementioned conditions are satisfied in the instant case. Accordingly, for the reasons set forth below, we have determined that an industry in the United States is being or is likely to be injured by reason of imports of Canadian bleached hardwood kraft pulp sold at LTFV.

Description of the product. Bleached hardwood kraft pulp, made from hardwood (deciduous) by the chemical sulphate (kraft) process, is a relatively short-fibered pulp used chiefly in the production of fine printing and writing papers in which cleanliness, brightness, softness, and good formation are more important requirements than strength; it is also used in the manufacture of absorbent tissue paper. Bleached hardwood kraft pulp is usually sold at a delivered price, with freight allowed. Although shipments to distances more than 1,000 miles are not unusual, most shipments tend to be confined to less than 1,000 miles.

Industry. The industry in the United States which we have determined to be injured or likely to be injured consists of approximately 30 firms operating some 56 establishments in which bleached hardwood kraft pulp is produced. Domestic production of the subject product involves two elements—captive production and production for the market. Most U.S. production is captive—that is, the majority of domestic production is further processed in the producer's mill into paper and paperboard. However, the portion sold on the open market is in direct competition with LTFV imports from Canada and represents an important source of revenue, especially during periods of soft demand. Although the industry is nationwide, the firms located in the northeast region, constituting a competitive market area, suffered irreparable financial hardship by reason of sales of LTFV imports from Canada.

Impact of LTFV sales on the U.S. industry. Sales of the subject product from Canada tend to be concentrated in the Northeast and North Central parts of the United States. Almost all of the imports sold at LTFV were consumed in those regions.

The effect of the LTFV imports was felt most severely by those pulp producers located in the Northeast whose output consists, to a large extent, of market pulp. There the price discrimination practiced by one Canadian LTFV supplier was so great that its exfactory price was often less than $100 per short ton, far below what is considered "normal" in the trade. Such unfair pricing by that particular supplier forced prices down to an unprofitable level of $110 per short ton, causing the loss of a substantial volume of sales to certain Northeastern producers. Confronted with such unfair competition, those domestic producers had little choice but to reduce sharply their prices to avoid the loss of the domestic market. In spite of efforts to meet such competition, domestic producers suffered financial adversity which stemmed directly from depressed prices and lost sales caused by LTFV imports from Canada. This injury to Northeastern producers constitutes an injury to an industry in the United States within the meaning of the Antidumping Act.[3]

Likelihood of injury. The evidence in this case indicates clearly that domestic producers are not only being injured by the Canadian LTFV imports but also are likely to be injured in the future.

According to data made available to the Commission, the inventory of one Canadian producer supplying the Northeast market is growing and is currently equivalent to approximately 2 or 3 months' demand in that market. That particular mill has often in the past sold at a discount, determined by the Treasury to be at LTFV, in the Northeast market. Although that firm's primary market is allegedly Europe, it is our judgment that the size of these inventories in conjunction with the convenience of selling to the United States market could well prove conducive to continued injurious LTFV sales especially during periods of slack world demand. Consequently, we believe that there is a real likelihood of injury to an industry in the United States by reason of the LTFV imports.

Conclusion. Based upon the aforementioned evidence of injury to U.S. producers in the Northeast region and evidence of the probability of future injury, we conclude that an industry in the United States is being injured or is likely to be injured by reason of the importation of bleached hardwood kraft pulp from Canada which is being, or is likely to be, sold at less than fair value.

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF VICE CHAIRMAN PARKER AND COMMISSIONER YOUNG [1]

In our opinion an industry in the United States is not being injured nor is likely to be injured, nor is prevented from being established, by reason of imports of northern bleached hardwood kraft pulp from Canada found by the Secretary of the Treasury to be, or likely to be, sold at less than fair value (LTFV).

Description of product. Bleached hardwood kraft pulp is made entirely from hardwood (deciduous) species by the chemical sulphate (or kraft) process. The quality of the pulp may vary considerably according to the types of pulpwood used, the degree of brightness (whiteness) obtained, and other physical characteristics. Bleached hardwood kraft pulp is relatively short fibered and is normally low in strength; it is used in papers where cleanliness, brightness, softness, and good formation are the important factors rather than strength.

Northern bleached hardwood kraft pulp from Canada is of the same kind as is produced in the northern region of the United States. Both are usually made from the same species of wood, namely, beech, maple, and poplar. Bleached hardwood kraft pulp produced in the southern region of the United States is derived mostly from gum or oak species of wood. The hardwood pulp from the southern region is readily interchangeable with northern bleached kraft pulp in making certain papers such as tissue paper but not for all papers. It can be utilized in many instances, however, for the same uses as the northern type by certain additional manufacturing operations.

Some of the pulp imported from Canada determined to have been sold at LTFV was an "offgrade" pulp which is inferior in quality and specification to "prime grade" pulp. It was characterized by such elements as excessive dirt or foreign matter, discoloration, lack of brightness, and weakness in strength, the quality shortcomings inherent in startup production of a new pulp mill. Such offgrade pulp is readily interchangeable with prime grade for some papers; in most instances, however, it has to be further processed before it can be used. Offgrade pulp is an accidental or undesired result of a manufacturing operation intended to produce prime pulp. It is generally sold at a lesser price than the prime product.

The industry. This investigation was aimed principally at the industry which consists of all those facilities in the United States manufacturing hardwood kraft pulp. There were some 30 companies in the United States producing bleached hardwood kraft pulp in 1971, operating in 56 individual establishments which varied in production from less than 100 tons to over 1,200 tons per day. These establishments were located in the following areas of the United States: Eleven in the Northeast, five in the North Central, five in the West, and 35 in the South.

Some pulp manufacturing facilities produce all their pulp primarily for their own papermaking while others usually sell some or all of their pulp on the open market. Of the 56 establishments in the United States, 33 ordinarily use most of the pulp they manufacture in their own papermaking operations. The remaining establishments, as a general practice, produce pulp for sale in the open market as well as for their own needs. When the demand for paper declines and integrated mills have less need for pulp in their own operations, they offer the excess production on the open market. If the integrated establishments require a larger quantity of pulp than they produce to satisfy their demand for paper, they purchase pulp from other pulp producers.

The evidence of record in this investigation shows that all geographical areas of production of bleached hardwood pulp in the United States not only sell such pulp within their particular area but to the other areas as well. Even though Canadian hardwood pulp is principally marketed into the northeast and north-central areas, there are indications that some is sold to the other two areas.

No injury from import penetration. Domestic consumption of pulp rose fairly steadily from 3.8 million tons in 1967 to 4.9 million tons in 1971. Consumption in the first 6 months of 1972 totaled 2.7 million tons compared to 2.5 million tons in the like period in 1971. On the other hand, imports of bleached hardwood kraft pulp during the period January 1967 to June 1972 were quite small relative to U.S. consumption, averaging about 5 percent or less annually except in 1969 when such imports amounted to slightly more than 6 percent of consumption. Canada was the major import source and during 1971 it was the only foreign supplier. The Canadian product has traditionally filled only a small part of the U.S. demand for pulp and during no one year has there been a dramatic rise in the Canadian share of the U.S. market. Although substantial sales are made in the U.S. market, the Canadian producers are geared to exporting to other countries, particularly in Europe.

Price comparisons. Sales to the U.S. market of northern bleached hardwood pulp from Canada were investigated by the Treasury Department for the period from May 1, 1971 to October 31, 1971. A substantial percentage of the investigated sales to the United States, were determined to be at fair value. Information developed by the Commission in this investigation indicates that in the vast majority of Canadian sales to the United States, the price of Canadian pulp exported to this country was equivalent to or higher than the price of comparable U.S.-produced pulp. This was true even in instances when the price of the exported Canadian pulp was lower than the price realized for pulp sold at home (i.e., sold at less than fair value). In the very few instances in which the price of Canadian pulp was lower than that of U.S. pulp of comparable quality, the difference was minor and short-lived.

The one Canadian firm which sold at LTFV prices and in a few isolated instances undersold domestic firms in 1971, was a firm which had begun production in the latter part of 1970. This Canadian firm in 1971 was still trying to perfect the quality of its product and was in fact selling an offgrade product in the isolated instances when it undersold domestic producers. It is customary in the trade in the United States to offer offgrade pulp at a lesser price than the prime grade. Two-thirds of the sales of the particular Canadian producer to the United States during the period of Treasury's investigation was offgrade pulp. The new Canadian mill underwent the typical difficulties of a new mill in standardizing quality and in obtaining acceptance of its product on the market.

No injury due to loss of sales. The only allegation of loss of sales and injury on the part of all the domestic producers by reason of LTFV sales of bleached hardwood pulp from Canada was made by the complainant producer in this case. This producer was the principal competitor of the Canadian firm whose sales at LTFV undersold it in a few isolated instances. Assuming that this single U.S. firm did not make some relatively small sales which it might have made had there been no competition at LTFV prices, this would not in our opinion constitute injury to the U.S. industry within the meaning of the antidumping statute. Such assumed minor loss of business by one U.S. firm in the northeast area, if indeed it could be attributed to LTFV sales, would not in our opinion constitute injury even if such area were to be considered a separate geographical market area.

The year of 1971 was a depressed year for the pulp industry, not only in the United States but worldwide. In that year the exports of bleached hardwood pulp from the United States dropped by about 283,000 tons from the previous year. Worldwide, as well as in the United States and Canada the pulp industry was in a period of recession. The southern producing area of the United States was particularly hard hit by the loss of export sales to Europe. Domestic production fell from 5.2 million tons to 5 million tons in the year exports dropped off. In an attempt to alleviate the effects of the drop in the export market, the southern producers made efforts to increase sales in the other geographic areas. Prices which had been trending downward in 1970 continued to decline early in 1971 prior to any offers by Canadian producers to customers of the complainant. The general decline of domestic prices was caused by general market conditions and not by the Canadian sales at LTFV.

Financial experience. The extent of the alleged loss, by reason of LTFV imports, to the complainant in 1971 is not substantiated by its profit-and-loss statements. The complainant compared favorably with the rest of the industry—which was suffering from an economic recession. For each of 3 years, 1969–71, the complainant's ratio of net profit to total net sales on its pulp operations approached or substantially exceeded the average of that reported to the Commission by the other firms. (In fact its profit in 1971 was higher than that enjoyed by more than half of the reporting firms.) The complainant is the only firm which has attributed its profit decline to Canadian dumping of pulp.

Market outlook for bleached hardwood pulp. The down-turn in the worldwide demand for pulp has been reversed, consumption has increased during 1972, and the European market is requiring additional quantities of pulp. Prices have increased on the domestic market and the 1971 recession has been reversed. The future demand for bleached hardwood pulp both in the United States and in the European market appears to be very good. There is no indication that the Canadian producers in view of changed economic conditions are likely to resort to cutthroat sales in the United States market in the future. The one Canadian producer which had entered the U.S. market in 1971 is believed to be primarily oriented to the European market.

Conclusion. In view of the above it is our determination that an industry in the United States is not being injured nor is likely to be injured, nor is prevented from being established, by reason of imports of northern bleached hardwood kraft pulp from Canada.

By order of the Commission.

[AA1921-106/108]

PERCHLORETHYLENE FROM ITALY, JAPAN, AND FRANCE

Determination of No Injury or Likelihood Thereof

DECEMBER 27, 1972.

The Treasury Department advised the Tariff Commission on September 27, 1972, and October 12, 1972, that perchlorethylene, including technical grade perchlorethylene and purified grade perchlorethylene, from Italy, Japan, and France is being, or is likely to be sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted joint investigations Nos. AA1921-106/108 to determine whether an industry in the United States is being, or is likely to be, injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Notice of the institution of the investigations and of a hearing to be held in connection therewith was published in the FEDERAL REGISTER of October 25, 1972 (37 F.R. 22828). A public hearing was held on November 2, 1972.

In arriving at its determinations, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the joint investigations, the Commission [1] has determined that an industry in the United States is not being or is not likely to be injured, or is not prevented from being established, by reason of the importation of perchlorethylene, including technical grade perchlorethylene and purified grade perchlorethylene, from Italy, Japan, and France, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS [1]

The Antidumping Act, 1921, imposes two conditions which must be satisfied before an affirmative determination can be made. First, there must be injury or likelihood of injury to an industry in the United States, or an industry in the United States must be prevented from being established. Second, such injury (or likelihood of injury or prevention of establishment) must be "by reason of" the importation into the United States of the class or kind of foreign merchandise the Secretary of the Treasury has determined is being, or is likely to be, sold at less than fair value (LTFV).

In our judgment neither of the aforementioned conditions is satisfied in the instant case. Accordingly, we have made a negative determinaiton. In arriving at our determinations we gave consideration to the sale of LTFV imports from the three countries—Italy, Japan and France—individually or collectively, depending upon the interpretation given the statute by individual Commissioners.

The industry. In the case, the domestic industry most likely to have been injured by LTFV imports (if any were) consists of those facilities in the United States devoted to the production of perchloroethylene. Within the past year, perchloroethylene has been manufactured by nine companies, the four largest of which accounted for about three-fourths of production.

Domestic oversupply and price depression. Any price depression that has afflicted the domestic perchloroethylene market in recent years has not been in response to imports but rather a reaction to an oversupply in the U.S. market caused principally by domestic overproduction. Perchloroethylene is a large volume, low-cost chemical used principally as a dry-cleaning solvent. Its price depends largely upon the cost and availability of raw materials. It is made primarily from chlorine, which is produced concurrently with caustic soda. When the demand for caustic soda is brisk, as it has been in recent years, large amounts of caustic soda are produced. This necessitates an increase in th production of chlorine, even though the demand for chlorine may not have kept pace with that for caustic soda. This causes an excess of chlorine which is effectively utilized by conversion to perchloroethylene. The end result is a supply of perchloroethylene which at times exceeds demand and causes prices to decrease. Such a situation has been generally prevalent in the United States in the past several years.

Lost sales. The Commission investigated several allegations of injury in the form of sales lost by U.S. producers to LTFV imports, but no evidence was found that would substantiate these allegations. Some sales, claimed to have been lost, were lost to other domestic producers, not to imports. In the prime example, involving a large New York distributor, a domestic producer alleged that sales were lost to imports from France when in fact they were lost to another domestic producer.

Exits from the U.S. industry. We believe the recent exits from the U.S. industry by two domestic producers to have been the direct result of outmoded technology rather than competition from LTFV imports. Both of the facilities that discontinued operations used carbide acetylene, a raw material which was too expensive to allow effective competition with perchloroethylene made from the cheaper raw materials used by most domestic and foreign producers. It is worth noting that one of the two producers that discontinued production will again produce perchloroethylene beginning in late 1973 at a new plant in Texas. This plant will use modern technology based on a low cost raw material.

Expansion of domestic industry. Despite claims of injury by Diamond Shamrock and Detrex, the U.S. perchloroethylene industry is expanding. Current annual capacity of roughly 1 billion pounds is expected to increase to 1.3 billion pounds by the end of 1973. Production increased at an average annual rate of about 7.2 percent during the period 1967-71, and production for the first 9 months of 1972 was nearly 7 percent ahead of production for the same period of 1971. Further, industrywide profits on perchloroethylene operations increased in both 1970 and 1971.

U.S. exports. U.S. exports have exceeded imports every year since 1968. In 1971, U.S. exports were almost triple imports and were more than half again as large as the combined exports of perchlorethylene from Italy, Japan, and France. We view these facts as an indication of the competitive strength of the U.S. perchlorethylene industry in recent years.

Conclusion. In light of increasing profitability, expanding production in the U.S. industry, and the absence of any significant evidence showing that sales at less than fair value of perchlorethylene imported from Italy, Japan, and France have had an adverse impact on sales and prices in the U.S. market, we have made a negative determination.

By order of the Commission.

DEPARTMENT OF LABOR

Office of the Secretary

[Secretary of Labor's Order 38-72]

BENEFITS REVIEW BOARD

Notice of Establishment

1. *Purpose.* To provide for the operation of the Benefits Review Board within the Department of Labor.

2. *Establishment of the Board.* By Public Law 92-576, 86 Stat. 1251, in an amendment made to section 21 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 921), there is established effective November 26, 1972, a Benefits Review Board which shall be composed of three members appointed by the Secretary of Labor from among individuals who are especially qualified to serve on such Board. Such Board is authorized to hear and determine appeals raising a substantial question of law or fact taken by any party in interest from decisions with respect to claims for compensation or benefits under such Act and its extensions, including pneumoconiosis disability and death claims under the provisions of title IV of the Federal Coal Mine Health and Safety Act of 1969 as amended which are administered by the Secretary of Labor. Provision is made for judicial review of final orders of the Benefits Review Board in the U.S. courts of appeals.

3. *Organizational placement.* As prescribed by the statute, the functions of the Benefits Review Board are quasi-judicial in nature and involve review of decisions made in the course of the administration of the above statutes by the Employment Standards Administration in the Department of Labor. I therefore find it appropriate for organizational purposes to place the Board in the Office of the Under Secretary and it is hereby established in that Office, which shall be responsible for providing necessary funds, personnel, supplies, equipment, and records services for the Board.

4. *Rules and regulations.* The Under Secretary may promulgate such rules and regulations as may be necessary or appropriate for effective operation of the Benefits Review Board as an independent quasi-judicial body in accordance with the provisions of the statute. Procedural rules for performance by the Board of its review functions and for ensuring an adequate record for any judicial review of its orders shall be promulgated by the Benefits Review Board wih the approval of the Under Secretary. Such rules shall incorporate and implement the procedural requirements of section 21(b) of the Longshoremen's and Harbor Workers' Compensation Act, as amended by section 15 of Public Law 92-576.

5. *Statutes to which Board's jurisdiction extends.* The Board is authorized, as provided in 33 U.S.C. 921(b), as amended, to hear and determine appeals raising a substantial question of law or fact taken by any party in interest from decisions with respect to claims for compensation or benefits arising under:

(1) The Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 901 et seq.;

(2) The Defense Base Act, 42 U.S.C. 1651 et seq.;

(3) The District of Columbia Workmen's Compensation Act, 36 D.C. Code 501 et seq.;

(4) The Outer Continental Shelf Lands Act, 43 U.S.C. 1331;

(5) The Nonappropriated Fund Instrumentalities Act, 5 U.S.C. 8171 et seq.;

(6) Title IV, section 415 and Part C, of the Federal Coal Mine Health and Safety Act, 83 Stat. 742, as amended by the Black Lung Benefits Act of 1972, 86 Stat. 150.

6. *Time for appeal to the Board.* Notice of appeal must be filed within 30 days of the date the decision or order being appealed from is filed in the office of a deputy commissioner (33 U.S.C. 921(a)). Such notice of appeal shall be in writing and contain the names of the parties, docket or case number, and the date of the decision or order appealed from.

7. *Voting.* For the purpose of carrying out its functions, two members of the Board shall constitute a quorum and official action can be taken only on the affirmative vote of at least two members.

8. *Representation before the Board.* On any issues requiring representation of the Secretary, the Director, Office of Workmen's Compensation Programs, a deputy commissioner, or an administrative law judge before the Board, such representation shall be provided by attorney's designated by the Solicitor. Representation of all other persons before the Board shall be as provided for by statute or by the rules of practice and procedure promulgated under paragraph 4 of this order.

9. *Representation of Board in court proceedings.* Except in proceedings in the Supreme Court of the United States, any representation of the Benefits Review Board in court proceedings shall be by attorneys provided by the Solicitor of Labor.

10. *Location of Board's proceedings.* The Board shall hold its proceedings in Washington, D.C., unless for good cause the Board orders that proceedings in a particular matter be held in another location.

11. *Effective date.* This order is effective on November 26, 1972.

Signed at Washington, D.C., this 21st day of December 1972.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 26, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 26396 (Sub-No. 66 TA), filed November 30, 1972. Applicant: POPELKA TRUCKING CO., doing business as THE WAGGONERS, Post Office Box 990, Livingston, MT 59047. Applicant's representative: Wayne Waggoner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, between the ports of entry and boundary line of the United States and Canada, in Idaho, Montana, and Washington, on the one hand, and, on the other, points in Wyoming, Colorado, North Dakota, South Dakota, Wisconsin, Minnesota, Utah, Idaho, Texas, Oklahoma, Kansas, Missouri, Indiana, Michigan, Ohio, and Nebraska, for 180 days. Supporting shippers: Blue Mountain Forest Products, Post Office Box 1303, Missolua, MT 59801; Slaughter Brothers, Inc., Dallas, Tex., Northwest Office, Post Office Box 624, Kalispell, MT 59901. Send protests to: Paul J. Labane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 251, U.S. Post Office Building, Billings, Mont. 59101.

No. MC 112617 (Sub-No. 303 TA), filed December 13, 1972. Applicant: LIQUID TRANSPORTERS, INC., Post Office Box 21395, 1292 Fern Valley Road (40219), Louisville, KY 40221. Applicant's representative: Bruce H. Kraemer (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed supplement*, in bulk, in tank vehicles, from Owensboro, Ky., to points in Arkansas, Illinois, Indiana, Missouri, Ohio, Virginia, West Virginia, and Tennessee, for 180 days. Supporting shipper: A. O. Mowrer, general traffic manager, National Molasses Co., Willow Grove, Pa. 19090. Send protests to: Wayne L. Merilatt, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 426 Post Office Building, Louisville, Ky. 40202.

No. MC 114552 (Sub-No. 70 TA), filed December 13, 1972. Applicant: SENN TRUCKING COMPANY, Post Office Box 333, Newberry, SC 29108. Applicant's representative: William P. Jackson, Jr., 919 18th Street, NW., Washington, DC 20006. Authority sought to operate as as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials and supplies* (except commodities in bulk and commodities requiring special equipment because of size and weight), *plywood and composition board*, between points in Alabama, Arkansas, Florida, Georgia, Kentucky, Tennessee, Louisiana, Mississippi, North Carolina, South Carolina, and Virginia, for 180 days. Supporting shipper: Jim Walter Corp., 1500 North Dale Mabry, Post Office Box 22601, Tampa, FL 33622. Send protests to: E. E. Strotheld, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 300 Columbia Building, 1200 Main Street, Columbia, SC 29201.

No. MC 129660 (Sub-No. 3 TA), filed December 15, 1972. Applicant: MALLETTE BROTHERS TRUCK LINE, INC., Route 2, Box 243, Gautier, MS 39553. Applicant's representative: Donald B. Morrison, Post Office Box 22628, Jackson, MS 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Harrison County, Miss., to points in Mississippi, Alabama, Florida, Georgia, Tennessee, Arkansas, Louisiana, and Texas, for 180 days. Supporting shipper: The Blanchard Lumber Co., Gulfport, Miss. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 212, 145 East Amite Building, Jackson, Miss. 39201.

No. MC 138225 (Sub-No. 1 TA), filed December 15, 1972. Applicant: HEDRICK ASSOCIATES, INC., 9 Galloping Hill Road, Basking Ridge, NJ 07920. Applicant's representative: William P. Jackson, Jr., 919 18th Street NW., Washington, DC 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Swimming pools, swimming pool parts, materials, accessories, supplies, and equipment* (except in bulk), from Garfield and East Paterson, N.J., to points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Heldor Associates, Inc., 596 River Road, Clifton, NJ 07015. Send protests to: District Supervisor Thomas W. Hopp, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 138258 TA, filed December 15, 1972. Applicant: JAMES D. WILCOX, 201 Depot Street, Boone, NC 28607. Applicant's representative: Douglas W. Greene, 102 East King Street, Boone, NC 28607. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Electrical parts and components* having prior or subsequent movement by air, from Lansing, N.C., to Blountville, Tenn., via Boone, N.C., for 180 days. Supporting shippers: TRW/IRC Fixed Resistors, Post Office Box 393, Boone, NC 28607; Sprague Electric Co., Lansing, N.C. 28643. Send protests to: Frank H. Wait, Jr., Interstate Commerce Commission, Bureau of Operations, Suite 417, BSR Building, 316 East Morehead Street, Charlotte, NC 28202.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

SUPPLEMENTARY MEDICAL INSURANCE FOR THE AGED AND DISABLED

Notice of Adequate Actuarial Rates

On the basis of the accompanying statement of actuarial assumptions and bases pursuant to section 1839(c) (1) and (4) of the Social Security Act (42 U.S.C. 1395r(C) (1) and (4)) (Title XVIII—Health Insurance for the Aged and Disabled) as amended by Public Law 92-603 I hereby determine that the adequate actuarial rates which shall be applicable for the 12-month period commencing July 1, 1973 are $6.30 for enrollees age 65 and over and $14.50 for disabled enrollees under age 65.

Dated: December 29, 1972.

ELLIOT L. RICHARDSON,
Secretary of Health, Education, and Welfare.

STATEMENT OF ACTUARIAL ASSUMPTIONS AND BASES EMPLOYED IN DETERMINING THE ADEQUATE ACTUARIAL RATES AND THE STANDARD PREMIUM RATE FOR THE SUPPLEMENTARY MEDICAL INSURANCE PROGRAM BEGINNING JULY 1973

This is a statement of actuarial assumptions and bases employed in determining the adequate actuarial rates and the standard monthly premium rate for the supplementary medical insurance program for the period July 1973 through June 1974. The adequate actuarial rate for enrollees age 65 and over is $6.30. The adequate actuarial rate for disabled enrollees is $14.50. The standard premium rate for both types of enrollees is $6.30.

I. ADEQUATE ACTUARIAL RATE FOR ENROLLEES AGE 65 AND OLDER

The determination of an adequate actuarial rate for the aged has been made on the basis of the actual operating experience under the program, projected through the year beginning July 1973. Virtually complete operating experience figures through July 30, 1972, are now available as to the cash income and disbursements under the program, and some data is available for the early months of fiscal 1973. The adequate actuarial rate, however, must be sufficient to cover benefits and related administrative costs for all services performed during the period from July 1973 through June 1974 (fiscal 1974). Experience on such a basis (hereafter called an "incurred" basis) is available for most components of the program through calendar 1971; that for the other components must be estimated.

Analysis of Supplementary Medical Insurance Trust Fund

The balance of the SMI Trust Fund at the end of each of the last 3 fiscal years, the liability outstanding for benefits and related administrative costs for services performed prior to the end of that fiscal year but not yet paid for at the end of that fiscal year ("liability for incurred but unpaid services"), and the monthly premium rate in effect for each of these fiscal years are as follows:

Period ending June 30	Monthly premium rate	Fund at end of period	Liability for incurred but unpaid services
		(In millions)	*(In millions)*
1970	$4.00	$57	$753
1971	5.30	240	796
1972	5.60	481	844

Due to past deficiencies in the premium rate, the fund on June 30, 1972, was about 57 percent of the liability outstanding. The liabilities outstanding on June 30, 1972, for incurred but unpaid services, are estimated to have been $844 million, while the balance in the trust fund on the same date amounted to $481 million.

It is expected that the trust fund balance will increase during fiscal year 1973. By the end of June 1973 the trust fund balance is estimated to be about $570 million, about 66 percent of the liability for incurred but unpaid services then outstanding.

Analysis of Past Experience

Estimates of the basic premium necessary to finance both benefit payments and administrative expenses are shown below, on both a cash and an incurred basis. Cash figures must be adjusted for the estimated increase in liability for incurred but unpaid services. Monthly premium rates on both cash and incurred bases are compared below for the three most recent fiscal years with the premium rate actually charged.

Fiscal year ending June 30	Premium rate charged	Premium rate required for benefits and administrative expenses	
		Cash basis	Incurred basis
1970	$4.00	$4.47	$4.56
1971	5.30	4.82	4.92
1972	5.60	5.28	5.40

Basic Estimates for Future Experience on an Incurred Basis

In estimating the cost of the program for July 1973 through June 1974, it is first necessary to project incurred results for fiscal year 1973, and then to continue the projection for 1 more year. The assumptions used for the purpose of these projections are shown below:

AVERAGE INCREASE ASSUMED OVER PREVIOUS YEAR

Calendar year	Physicians' services		Institutional services	
	Fees [1]	Number and mix [2]	Unit costs	Number and mix [2]
	Percent	*Percent*	*Percent*	*Percent*
1972	2.5	2.5	12.0	10.0
1973	2.5	3.0	11.5	10.0
1974	2.5	3.5	11.0	10.0

[1] As charged by physicians.
[2] Increase in the number of services received per capita and greater relative use of more expensive services.

The Price Commission has promulgated a guideline for physicians' services, which on the average limits the increase in the price a physician receives for any service to 2½ percent per year. The Price Commission has also determined that the reasonable charge for any procedure for any physician will also be increased by no more than 2½ percent per year.

Administrative expenses incurred for the aged and disabled in fiscal 1974 will be 13 percent of incurred benefits paid under both programs, based on the amounts in the fiscal 1974 budget, adjusted to an incurred basis.

On the basis of the foregoing assumptions it is now estimated that the adequate actuarial rate necessary so that income would cover both benefit payments and administrative expenses for aged enrollees on an incurred basis is $5.77 for fiscal year 1973, and $6.32 for fiscal 1974. Both amounts recognize a change in the deductible from $50 to $60 beginning January 1, 1973, and the fiscal year 1974 rate recognized the addition of chiropractors' services, speech pathologists' services, and the elimination of the home health agency copayment.

Calculation of Actuarially Adequate Rate

The $6.32 rate for fiscal year 1974 is decreased by $0.07 to allow for interest earnings on the trust fund, and increased by $0.05 to provide a margin for contingencies. If all assumptions as to fiscal year 1974 were to be exactly met, the margin for contingencies would be sufficient to reduce the unfunded liability for incurred but unpaid services by approximately $25 million.

II. ADEQUATE ACTUARIAL RATE FOR THE DISABLED

An adequate actuarial rate for disabled enrollees must take into account: (i) Enrollees eligible because they have been entitled to disability insurance for not less than 24 months, and (ii) enrollees meeting the chronic kidney disease provision.

Experience with respect to (i) was estimated from the 1967 survey of the disabled as the basic data source. Estimates of the experience with respect to (ii) was based on several sources, including a report of a Committee on Chronic Kidney Disease (1967).

It should be noted that no adequate statistics were available for either portion of the estimate. Further, the actual cost of the care provided to patients suffering from chronic kidney disease will be determined largely by the regulations promulgated by the Secretary to implement the law. The adequate actuarial rate assumes that the program will pay only for services at the level of the most cost-effective care now provided to patients suffering from chronic kidney disease. Eventually program experience will become available, and the errors of estimation will be reduced.

The resulting adequate actuarial rate, recognizing the relative number of enrollees in each of the two groups, the $60 deductible and 20 percent coinsurance, the provision of the law that the rate is computed on an incurred basis, and with a 5 percent margin for contingencies, is $14.50.

III. STANDARD MONTHLY PREMIUM RATE FOR ALL ENROLLEES

The law provides that the standard monthly premium rate, promulgated in December to apply for both aged and disabled enrollees under the supplementary medical insurance program, shall be the adequate actuarial rate for enrollees age 65 and older; but not greater than the standard monthly premium rate for the fiscal year in which the promulgation is made, increased by the percent that the old-age, survivors, and disability insurance benefit level increased between June first of the year in which the promulgation is made and June first of the succeeding year (according to the law in effect at the time of promulgation).

The standard monthly premium rate promulgated in December 1971 for fiscal year 1973 was $5.80. The OASDI benefit table was increased by 20 percent in September 1972. Since 120 percent of $5.80 ($6.96) exceeds the adequate actuarial rate ($6.30), the limitation does not apply and the standard monthly premium rate is $6.30.

Compilation of Regulations

The purpose of this compilation is to combine all amendments and pending amendments to Parts 71, 73, and 75 of the Federal Aviation Regulations which have been published by the Administrator of the Federal Aviation Administration in the FEDERAL REGISTER prior to December 7, 1972. Pending amendments are listed below the appropriate sections and include the effective dates and FEDERAL REGISTER citations.

Minor editorial corrections have been included to clarify existing airspace descriptions; however, no substantive changes or revision of airspace designations have been effected thereby. Therefore, compliance with the notice and public procedure requirements of 5 U.S.C. 553 is unnecessary and for that reason this docket may be made effective immediately.

In consideration thereof, this action is effective 0901 G.m.t., December 7, 1972.

SUBPART A - GENERAL

§ 71.1 Applicability.

(a) The airspace assignments described in Subparts B and C are designated as Federal airways.

(b) The airspace assignments described in Subparts B through I are designated as control areas, the continental control area, control zones, transition areas, positive control areas, and reporting points, as described in the appropriate subpart.

(c) The airspace assignments described in Subpart K of this part are designated as terminal control areas.

(d) The airspace assignments described in Subpart J are designated as area low routes.

§ 71.3 Classification of Federal Airways.

Federal airways are classified as follows:

(a) Colored Federal airways:

(1) Green Federal airways.

(2) Amber Federal airways.

(3) Red Federal airways.

(4) Blue Federal airways.

(b) VOR Federal airways.

§ 71.5 Extent of Federal airways.

(a) Each Federal airway is based on a centerline that extends from one navigational aid or intersection to another navigational aid (or through several navigational aids or intersections) specified for that airway.

(b) Unless otherwise specified in Subpart B or C -

(1) Each Federal airway includes the airspace within parallel boundary lines 4 miles each side of the centerline. Where an airway changes direction, it includes that airspace enclosed by extending the boundary lines of the airway segments until they meet.

(2) Where the changeover point for an airway segment is more than 51 miles from either of the navigational aids defining that segment, and -

(i) The changeover point is midway between the navigational aids, the airway includes the airspace between lines diverging at angles of 4.5° from the centerline at each navigational aid and extending until they intersect opposite the changeover point; or

(ii) The changeover point is not midway between the navigational aids, the airway includes the airspace between lines diverging at angles of 4.5° from the centerline at the navigational aid more distant from the changeover point, and extending until they intersect with the bisector of the angle of the centerlines at the changeover point; and between lines connecting these points of intersection and the navigational aid nearer to the changeover point.

(3) Where an airway terminates at a point or intersection more than 51 miles from the closest associated navigational aid it includes the additional airspace within lines diverging at angles of 4.5° from the centerline extending from the associated navigational aid to a line perpendicular to the centerline at the termination point.

(4) Where an airway terminates, it includes the airspace within a circle centered at the specified navigational aid or intersection having a diameter equal to the airway width at that point. However, an airway does not extend beyond the domestic/oceanic control area boundary.

(c) Unless otherwise specified in Subpart B or C -

(1) Each Federal airway includes that airspace extending upward from 1,200 feet above the surface of the earth to, but not including, 18,000 feet MSL, except that Federal airways for Hawaii have no upper limits. Variations of the lower limits of an airway are expressed in digits representing hundreds of feet above the surface (AGL) or mean sea level (MSL) and, unless otherwise specified, apply to the segment of an airway between adjoining navigational aids or intersections; and

(2) The airspace of a Federal airway within the lateral limits of a transition area has a floor coincident with the floor of the transition area.

(d) One or more alternate airways may be designated between specified navigational aids or intersections along each VOR Federal airway described in Subpart C. Unless otherwise specified, the centerline of an alternate VOR Federal airway and the centerline of the corresponding segment of the main VOR Federal airway are separated by 15°.

(e) A Federal airway does not include the airspace of a prohibited area.

§ 71.6 Extent of area low routes.

(a) Each area low route is based on a centerline that extends from one waypoint to another waypoint (or through several waypoints) specified for that area low route. An area low route does not include the airspace of a prohibited area. All mileages specified in connection with area low routes are nautical miles.

(b) Unless otherwise specified in Subpart J, the following apply:

(1) Except as provided in subparagraph (2) of this paragraph, each area low route includes, and is limited to, that airspace within parallel boundary lines 4 or more miles on each side of the route centerline as described in the middle column of the following table, plus that additional airspace outside of those parallel lines and within lines drawn outward from those parallel lines at angles of 3.25°, beginning at the distance from the tangent point specified in the right-hand column of the following table:

100 to, but not including 101	4	11.
101 to, but not including 102	4	8.
102 to, but not including 105	4	0 (i.e., at tangent point).
105 to, but not including 115	4.25	0 (i.e., at tangent point).
115 to, but not including 125	4.50	0 (i.e., at tangent point).
125 to, but not including 135	4.75	0 (i.e., at tangent point).
135 to, but not including 145	5.00	0 (i.e., at tangent point).
145 to, but not including 150	5.25	0 (i.e., at tangent point).

(2) Each area low route, whose centerline is at least 2 miles, and not more than 3 miles from the reference facility, includes, in addition to the airspace specified in subparagraph (1) of this paragraph, that airspace on the reference facility side of the centerline that is within lines connecting the point that is 4.9 miles from the tangent point on a perpendicular line from the centerline through the reference facility, thence to the edges of the boundary lines described in subparagraph (1) of this paragraph, intersecting those boundary lines at angles of 5.15°.

(3) Where an area low route changes direction, it includes that airspace enclosed by extending the boundary lines of the route segments until they meet.

(4) Where the widths of adjoining route segments are unequal, the following apply:

(i) If the tangent point of the narrower segment is on the route centerline, the width of the narrower segment includes that additional airspace within lines from the lateral extremity of the wider segment where the route segments join, thence toward the tangent point of the narrower route segment, until intersecting the boundary of the narrower segment.

(ii) If the tangent point of the narrower segment is on the route centerline extended, the width of the narrower segment includes that additional airspace within lines from the lateral extremity of the wider segment where the route segments join, thence toward the tangent point until reaching the point where the narrower segment terminates or changes direction, or until intersecting the boundary of the narrower segment.

(5) Where an area low route terminates, it includes that airspace within a circle whose center is the terminating waypoint, and whose diameter is equal to the route segment width at that waypoint, except that an area low route does not extend beyond the domestic/oceanic control area boundary.

V 38 - 1 JAN 73 XUM

(6) Each area low route includes that airspace extending upward from 1,200 feet above the surface of the earth to, but not including, 18,000 feet MSL, except that area low routes for Hawaii have no upper limits. Variations of the lower limits of an area low route are expressed in digits representing hundreds of feet above the surface (AGL) or mean sea level (MSL) and, unless otherwise specified, apply to the route segment between adjoining waypoints used in the description of the route.

(7) The airspace of an area low route within the lateral limits of a transition area has a floor coincident with the floor of the transition area.

§ 71.7 Control areas.
Control areas consist of the airspace designated in Subparts B, C, E, and J, but do not include the continental control area. Unless otherwise designated, control areas include the airspace between a segment of a main VOR Federal Airway and its associated alternate segments with the vertical extent of the area corresponding to the vertical extent of the related segment of the main airway.

§ 71.9 Continental Control Area
The Continental Control Area consists of the airspace of the 48 contiguous States, the District of Columbia and Alaska, excluding the Alaska peninsula west of longitude 160°00'00" W., at and above 14,500 feet M.S.L., but does not include -
(a) The airspace less than 1,500 feet above the surface of the earth; or
(b) Prohibited and restricted areas, other than restricted area military climb corridors and the restricted areas listed in Subpart D of this part.

§71.11 Control Zones
The control zones listed in Subpart F of this part consist of controlled airspace which extends upward from the surface of the earth and terminates at the base of the continental control area. Control zones that do not underlie the continental control area have no upper limit. A control zone may include one or more airports and is normally a circular area with a radius of 5 miles and any extensions necessary to include instrument approach and departure paths.

§71.12 Terminal Control Areas
The terminal control areas listed in Subpart K of this part consist of controlled airspace extending upward from the surface or higher to specified altitudes, within which all aircraft are subject to operating rules and pilot and equipment requirements specified in Part 91 of this chapter. Each such location is designated as a Group I or Group II Terminal Control Area, and includes at least one primary airport around which the terminal control area is located.

§ 71.13 Transition Areas.
The transition areas listed in Subpart G consist of controlled airspace extending upward from 700 feet or more above the surface of the earth when designated in conjunction with an airport for which an approved instrument approach procedure has been prescribed; or from 1,200 feet or more above the surface of the earth when designated in conjunction with airway route structures or segments. Unless otherwise specified, transition areas terminate at the base of the overlying controlled airspace.

§ 71.15 Positive Control Areas.
The positive control areas listed in Subpart H consist of controlled airspace within which there is positive control of aircraft.

§ 71.17 Reporting Points.
(a) The reporting points listed in Subpart I consist of geographic locations, in relation to which the position of an aircraft must be reported in accordance with §91.125.
(b) Unless otherwise designated, each reporting point applies to all directions of flight. In any case where a geographic location is designated as a reporting point for less than all airways passing through that point, or for a particular direction of flight along an airway only, it is so indicated by including the airways or direction of flight in the designation of geographical location.
(c) Unless otherwise specified, place names appearing in the reporting point descriptions indicate VOR or VORTAC facilities identified by those names.

§ 71.19 Bearings: Radials: Miles.
(a) All bearings and radials in this Part are true, and are applied from point of origin.
(b) Except as otherwise specified and except that mileages for Federal airways are stated as nautical miles, all mileages in this Part are stated as statute miles.

SUBPART B - COLORED FEDERAL AIRWAYS

SUBPART E - CONTROL AREAS AND CONTROL AREA EXTENSIONS

§ 71.161 **Designation of control areas associated with jet routes outside the continental control area.**
Unless otherwise specified, the airspace centered on each of the following jet route segments has a vertical extent identical to that of a Jet Route and a lateral extent identical to that of a Federal airway and is designated as a control area. Unless otherwise specified, the place names appearing in the descriptions indicate VOR or VORTAC facilities identified by those names.

Jet Route No. 37 From Houston, Tex., to INT of Houston 090° and New Orleans, La., 257° radials.
AMENDMENTS 12/7/72 37 F. R. 20807 (Added)

J-41 From Key West, Fla., to Tallahassee, Fla.

Jet Route No. 42 Robbinsville, N. J., to Hampton, N. Y.

J-43 From St. Petersburg, Fla., to Tallahassee, Fla.

Jet Route No. 53 from Key West, Fla., to Miami, Fla.

Jet Route No. 55 from Sea Isle, N. J., to Putnam, Conn.

Jet Route No. 58 from New Orleans, La., to Sarasota, Fla.

Jet Route No. 63 From Kennedy, N. Y., to Tuna INT.

Jet Route No. 77 from Biscayne Bay, Fla., to Vero Beach, Fla.; from Jacksonville, Fla., to Charleston, S. C.

Jet Route No. 79 from Daytona Beach, Fla., to Charleston, S. C.

Jet Route No. 86 from Houston, Tex., to Sarasota, Fla.

Jet Route No. 103 from Daytona Beach, Fla., to Savannah, Ga.

Jet Route No. 111, from Nome, Alaska, to McGrath, Alaska.

Jet Route No. 120, from Fort Yukon, Alaska, to Barter Island, Alaska, RBN.

Jet Route No. 121: Norfolk, Va., to Hampton, N. Y.; Providence, R. I., to INT of Providence 045° and Boston, Mass., 067° radials.

Jet Route No. 122, from Galena, Alaska, to Nome, Alaska.

Jet Route No. 123, From INT of Kodiak, Alaska, 107° radial and the NW boundary Anchorage Oceanic Control Area at latitude 57°28' N., longitude 150°32' W., via Kodiak to King Salmon, Alaska.

Jet Route No. 125, From Kodiak, Alaska, to Anchorage, Alaska.

Jet Route No. 133, From Annette Island, Alaska, to Anchorage, Alaska.

Jet Route No. 150, from Hampton, N. Y., via Hyannis, Mass., to Striper INT.

Jet Route No. 153 From Sea Isle, N. J., to Shad INT.

Jet Route No. 174, from Hampton, N. Y., via Hyannis, Mass., to Herring INT.

Jet Route No. 501, from Oakland, Calif., to Anchorage, Alaska.

V 38 - 1 JAN 3 73 XUM

§ 71.163 **Designation of additional control areas.**

Unless otherwise specified, each control area designated below has a lateral extent identical to that of a Federal airway and extends upward from 700 feet (until designated from 1,200 feet or more) above the surface of the earth, except that the airspace of a control area within the lateral limits of a transition area has a floor coincident with the floor of the transition area.

Control 1141
That airspace within tangent lines from the circumference of a 5-mile radius circle centered at latitude 42°23'23" N., longitude 70°59'10" W., to a 15 mile radius circle centered on the midway point of a direct line between latitude 42°23'23" N., longitude 70°59'10" W., and the Yarmouth, Nova Scotia, Canada, RBN to a 5-mile radius circle centered on the
Yarmouth RBN and that airspace from 18,000 feet MSL to flight level 260 bounded by a line from: Latitude 42°43'20" N., longitude 70°22'00" W.; thence to latitude 42°52'00" N., longitude 70°16'00" W.; thence to latitude 43°01'30" N., longitude 69°52'00" W.; thence to latitude 43°01'30" N., longitude 69°36'00" W.; thence to the point of beginning; and that airspace from 18,000 feet MSL to flight level 260 inclusive bounded by a line from: Latitude 42°33'35" N., longitude 70°03'45" W.; thence to latitude 42°42'30" N., longitude 69°30'00" W.; thence to latitude 42°39'00" N., longitude 69°30'00" W.; thence to latitude 42°28'00" N., longitude 70°03'45" W.; thence to point of beginning; and that airspace extending upward from 2,000 feet MSL bounded by a line from; Latitude 42°33'35" N., longitude 70°03'45" W.; thence to latitude 42°23'45" N., longitude 70°03'45" W.; latitude 42°25'15" N., longitude 70°30'00" W.; latitude 42°26'15" N., longitude 70°30'00" W.; thence to the point of beginning; excluding the portion under the jurisdiction of Canada, the portion within the confines of Federal airways and the Boston, Mass., transition area, the portion below 2,000 feet MSL W of the 69°30'00" W meridian of longitude and the portion below 5,500 feet MSL E of the 69°30'00" W meridian of longitude.

Control 1142
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered at latitude 42°21'30" N., longitude 70°41'25" W., to a 15-mile radius circle centered at latitude 42°02'00" N., longitude 68°00'00" W., and that airspace within lines drawn from latitude 42°16'00" N., longitude 68°00'00" W., thence to latitude 42°14'00" N., longitude 67°00'00" W., thence to latitude 41°52'00" N., longitude 67°00'00" W., thence to latitude 41°46'00" N., longitude 68°00'00" W., thence to latitude 42°16'00" N., longitude 68°00'00" W., excluding the portion within the Boston Transition area, the airspace below 5,500 feet MSL E of longitude 68°00'00" W., and the airspace below 2,000 feet MSL W of longitude 68°00'00" W., except that airspace within the confines of Federal airways.

Control 1143
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Nantucket, Mass., RBN to a 15-mile radius circle centered at the midway point on a direct line between the Nantucket RBN and the Yarmouth, Nova Scotia, Canada, RBN to a 5-mile
radius circle centered on the Yarmouth RBN excluding that portion below 2,000 feet except that airspace within the confines of Federal airways.

Control 1144
That airspace in the vicinity of Nantucket, Mass., within an area bounded by a line beginning at latitude 41°06'00"
N., longitude 70°09'10" W., to latitude 41°25'35" N., longitude 70°09'35" W., to latitude 41°26'00" N., longitude 69°15'00" W., to latitude 41°46'00" N., longitude 68°00'00" W., to latitude 41°06'00" N., longitude 68°00'00" W., to the point of beginning, excluding the portion below 2,000 feet MSL except that airspace which lies within the confines of Federal airways.

Control 1145
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Nantucket, Mass., RBN to a 15-mile radius circle centered on the INT of a rhumb line between the Nantucket RBN and the Kindley AFB, Bermuda RBN and the W boundary of the New York
Oceanic Control Area, excluding the portion below 2,000 feet except that airspace within the confines of Federal airway.

Control 1146
That airspace within a 5 NM radius circle centered on the Nantucket, Mass., RBN and that airspace bounded by a line drawn from the tangent of the 5 NM radius circle centered on Nantucket RBN to latitude 42°05'20" N., longitude 68°00'00" W., thence to latitude 42°19'00" N., longitude 68°00'00" W., thence to latitude 43°00'00" N., longitude 67°00'00" W., thence to latitude 41°52'00" N., longitude 67°00'00" W., thence to latitude 41°46'00" N., longitude 68°00'00" W., thence to the tangent of the 5 NM radius circle centered on the Nantucket RBN excluding that airspace outside the United States below 2,000 feet MSL W of longitude 68°00'00" W., and below 5,500 feet MSL E of longitude 68°00'00" W.

Control 1147
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered at Lat. 40°18'30" N, Long. 73°45'00" W, to the circumference of a 15-mile radius circle centered at the INT of the 137° bearing from the Newark, N. J., RBN and the W boundary of the New York Oceanic Control Area, and that airspace bounded by a line beginning at latitude 40°02'15" N., longitude 73°13'45" W.; to latitude 40°05'45" N., longitude 73°09'15" W.; to latitude 39°26'35" N., longitude 72°24'25" W.; to the point of beginning. That airspace below 2,000 feet outside the confines of Federal airways is excluded.

Control 1148
That airspace within tangent lines drawn from the circumference of 5-mile radius circles centered on the Rainbow, N. J., RBN and at the INT of Rainbow RBN 135° bearing and the Atlantic Ocean-U. S. Coastline to a 15-mile radius circle centered on the INT of Rainbow RBN 135° bearing and the west boundary of the New York Oceanic Control area at latitude 37°43'00" N., longitude 73°00'00" W., and that airspace which is within 5 miles southwest of and parallel to the Sea Isle, N. J., VORTAC 134° radial, extending from Sea Isle to a point 40 miles southeast of Sea Isle. That airspace below 2,000 feet outside the United States is excluded.

Control 1149
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Norfolk, Va., VORTAC 088° radial at Long. 75° 32' 00" W. to the circumference of a 15-mile radius circle centered on the Norfolk, Va., VORTAC 088° radial on the west boundary of the New York Oceanic Control Area at Lat. 36° 57' 30" N., Long. 73° 00' 00" W., excluding the portion below 2,000 feet MSL outside the United States.

Control 1150
That airspace within a 5-nmi radius of the Carolina Beach, N. C., RBN (Lat. 34°06'22" N, Long. 77°57'42" W), within a 5-nmi radius of the Bimini, Bahamas, RBN (Lat. 25°42'32" N, Long. 79°16'33" W), within a 23-nmi radius of Lat. 29°53'15" N, Long. 78°39'15" W, within tangent lines drawn from the E and W sides of the Carolina Beach and Bimini 5-nmi radius area to the E and W sides of the 23-nmi radius area centered at Lat. 29°53'15" N, Long. 78°39'15" W, excluding that portion below 2,000 feet MSL outside the United States and that portion below 7,000 feet MSL within the Nassau, Bahamas, control area. The airspace above FL 430 south of latitude 30°36'50" N., and north of a line from latitude 29°06'30" N., longitude 79°09'10" W.; to latitude 26°20'00" N., longitude 78°20'20" W. is excluded.

Control 1151
That airspace N of Lat. 27°00'00" N. within tangent lines drawn from the circumference of a 25-mile radius circle centered at a point midway on a direct line between the Carolina Beach, N. C., RBN and the Nassau, British West Indies, RBN and circles 5 miles in radius centered on the Carolina Beach RBN and the Nassau RBN, excluding the airspace below 2,000 feet MSL outside the United States.

Control 1152
That airspace east of Charleston, S. C., bounded by a line beginning at:
Latitude 33°02'00" N., longitude 80°03'35" W., thence to latitude 32°54'35" N., longitude 79°40'00" W., thence to latitude 32°50'35" N., longitude 79°23'00" W., thence to latitude 32°36'15" N., longitude 78°26'35" W., thence to latitude 32°13'25" N., longitude 77°00'00" W., thence to latitude 31°43'15" N., longitude 77°00'00" W., thence to latitude 32°35'55" N., longitude 79°16'45" W., thence to latitude 32°49'40" N., longitude 80°03'50" W., thence to latitude 32°52'25" N., longitude 80°03'45" W., thence to latitude 32°53'45" N., longitude 80°07'15" W., thence to the point of beginning, excluding the portion below 2,000 feet MSL outside the United States.
Including the airspace extending upward from FL 230 bounded by a line beginning at latitude 33°51'30" N., longitude 78°07'30" W.; to latitude 33°50'30" N., longitude 78°07'50" W.; to latitude 32°36'15" N., longitude 78°26'35" W.; to latitude 32°50'40" N., longitude 79°23'15" W.; to latitude 32°58'30" N., longitude 79°18'00" W.; to latitude 33°04'55" N., longitude 79°13'10" W.; thence via a line 3 nautical miles from and parallel to the shoreline to latitude 33°14'15" N., longitude 79°06'15" W.; to latitude 33°19'40" N., longitude 79°02'10" W.; to latitude 33°27'40" N., longitude 78°55'20" W.; thence counterclockwise along a 15-mile radius circle centered on the Conway TACAN to latitude 33°40'10" N., longitude 78°40'15" W.; to latitude 33°50'30" N., longitude 78° 23'45" W.; thence via a line 3 nautical miles from and parallel to the shoreline to the point of beginning.

AMENDMENTS 2/3/72 36 F. R. 23549 (Changed)

Control 1153
That airspace extending upward from 1,200 feet above the surface within 5 miles each side of the Dinsmore, Fla., RBN (lat. 30°27'53" N., long. 81°48'06" W.) 090° bearing, including the additional airspace within lines diverging at angles of 5° from the centerline extending from the RBN to the western boundary of the New York Oceanic CTA/FIR boundary, excluding the portion below 2,000 feet MSL outside the United States.

Control 1154
That airspace extending upward from 5,000' MSL bounded on the east by VOR Federal airway No. 199; on the south by a line extending from latitude 38°03'25" N., longitude 123°11'45" W.; to latitude 38°00'00" N., longitude 123°23'00" W.; to latitude 37°50'00" N., longitude 124°24'30" W.; to latitude 37°40'00" N., longitude 125°23'30" W.; on the west by the Oakland Oceanic Control Area; and on the north by a line extending from latitude 38°50'00" N., longitude 126°11'05" W.; to latitude 38°52'00" N., longitude 125°52'30" W.; to latitude 39°00'00" N., longitude 123°56'30" W.; to latitude 39°02'55" N., longitude 123°22'00" W.

V 38 - 1 JAN 3 73 XUM

Control 1155
That airspace extending upward from 6,000 feet MSL within 5 miles each side of the San Luis Obispo, Calif., VORTAC 242° radial, including the additional airspace within lines diverging at angles of 5° from the centerline at the VORTAC, extending from the U. S. coastline to the Oakland Oceanic CTA/FIR boundary.

Control 1156
That airspace extending upward from 5,000 feet MSL within 5 miles each side of the San Diego, Calif., VORTAC 262° radial, including the additional airspace within lines diverging at angles of 5° from the centerline at the VORTAC, extending from the VORTAC to its intersection with Control 1177.

Control 1169
That airspace within 5 miles either side of a line extending from the Kennedy, N. Y., VORTAC via the INT of the Kennedy VORTAC 080° and the Nantucket, Mass., VORTAC 255° radials, to the Nantucket VORTAC and within lines diverging from the Kennedy VORTAC to points of tangency to a 9.5-mile radius circle centered at the INT of the Kennedy VORTAC 080° and the Nantucket VORTAC 255° radials; within the circumference of the circle and within lines tangent to that circle converging to the Nantucket VORTAC, excluding the airspace below 2,000 feet MSL outside the United States.

Control 1173
That airspace W of San Francisco, Calif., bounded by a line extending from latitude 37°40'00" N., longitude 125°23'30" W., to latitude 37°50'00" N., longitude 124°24'30" W., to latitude 38°00'00" N., longitude 123°23'00" W., to latitude 38°03'25" N., longitude 123°11'45" W., thence via the W edge of V-199 and V-27 to latitude 37°09'20" N., longitude 122°31'50" W., to latitude 36°16'00" N., longitude 124°26'00" W., to the point of beginning, excluding the portion below 2,500 feet MSL. The portion within W-513 is excluded between the hours of 0800 and 2000 p.s.t., Monday through Friday, and below 3,000 feet MSL within W-513 between the hours of 2000 and 0800 p.s.t., Monday through Friday.

Control 1176
That airspace extending upward from 2,000 feet MSL, within lines 5 miles each side of the Santa Barbara, Calif., VORTAC 247° radial, including the additional airspace between lines beginning adjacent to the VORTAC and diverging at angles of 5° from the parallel lines, extending from the VORTAC to the east boundary of the Oakland Oceanic Control Area, excluding the portion east of longitude 120°30'00" W.

Control 1177
That airspace SW of Los Angeles, Calif., bounded by a line beginning at Lat. 33°25'50" N. Long. 118°28'50" W. thence to Lat. 33°19'00" N. Long. 118°21'45" W. thence to Lat. 32°44'30" N. Long. 119°07'00" W. thence to Lat. 31°41'00" N. Long. 120°15'00" W. thence to Lat. 31°18'40" N. Long. 121°11'30" W. thence to Lat. 31°54'00" N, Long. 121°34'30" W, thence to Lat. 32°10'45" N, Long. 120°16'15" W, thence to Lat. 32°52'15" N. Long. 119°12'30" W. thence to point of beginning excluding the airspace below 5,000 feet MSL.

Control 1181
That airspace within tangent lines drawn from the circumference of a 5-mile radius circle centered on the Weeksville, N.C., RBN to a 10-mile radius circle centered on the INT of the 133° bearing from the Weeksville RBN and the W boundary of the New York Oceanic Control Area, excluding the portion below 2,000 feet which extends outside the United States.

Control 1215
That airspace south of Galveston, TX., bounded by a line beginning at lat. 29°19'00" N., long. 94°40'30" W., thence to lat. 28°15'00" N., long. 92°07'00" W., to lat. 28°15'00" N., long. 94°00'00" W., to lat. 27°32'00" N., long. 95°09'00" W., to lat. 26°00'00" N., long. 95°55'00" W., to lat. 26°00'00" N., long. 97°00'00" W., to lat. 25°58'30" N., long. 97°05'20" W., thence northward 3 NMI from and parallel to the shoreline to point of beginning; excluding that airspace east of Corpus Christi, TX., bounded by a line 3 NMI from and parallel to the shoreline and a line beginning at a point 3 NMI from the shoreline at lat. 27°49'00" N., thence to lat. 27°45'30" N., long. 96°51'00" W., to lat. 27°28'20" N., long. 96°45'30" W., to lat. 27°14'30" N., long. 96°55'30" W., to lat. 27°23'00" N., long. 97°06'00" W., to a point 3 NMI from the shoreline at lat. 27°11'20" N. The portion below 2500 feet MSL would be excluded.

AMENDMENTS 9/14/72 37 F. R. 14767 (Rewritten)

Control 1216
That airspace extending upward from 2,000 feet MSL bounded by a line beginning at lat. 28°59'00" N., long. 90°15'00" W., thence northeast and east along the Louisiana, Mississippi, Alabama, and Florida transition areas to the north boundary of Control 1226, thence west along north boundary of Control 1226 to long. 84°39'00" W.; to lat. 28°41'30" N., long. 86°48'00" W.; to lat. 28°55'00" N., long. 88°00'00" W.; thence south along long. 88°00'00" W.; to and west along the north boundary of the Houston Oceanic Control area; to and north along long. 90°15'00" W.; to point of beginning, excluding Control 1226.

Subpart J - Area Low Routes

§71.301 Designation.
The parts of airspace described below are designated as area low routes.

V38-1 JAN 73 XUM

SUBPART K - TERMINAL CONTROL AREAS

§71.401 Designation.
The parts of the airspace described below are designated as terminal control areas. The primary airport or airports for each terminal control area are also designated. Except as otherwise specified, all mileages are nautical miles.

(a) Group I, Terminal Control Areas:

Atlanta, Ga., Terminal Control Area

Primary Airport
Atlanta Airport (lat. 33°38'42" N., long. 84°25'37" W.)

Area A. That airspace extending upward from the surface to 8,000 feet MSL within a 7-mile radius of the Atlanta Airport including that area within lines drawn 2 statute miles each side of the 268° radial of the Rex VOR extending from the 7-mile radius circle to the Rex VOR, excluding the Fulton County control zone and excluding the airspace north of a line 4 miles north of and parallel to the extended centerline of Runways 9L/27R.

Area B. That airspace extending upward from 2,500 feet MSL to 8,000 feet MSL within a 12-mile radius of the Atlanta Airport, excluding Area A, the Fulton County control zone, and the airspace north of a line 4 miles north of and parallel to the extended centerline of Runways 9L/27R.

Area C. That airspace extending upward from 3,500 feet MSL to 8,000 feet MSL within a 20-mile radius of the Atlanta Airport, excluding Area A, Area B and the airspace north of a line 1 mile south of and parallel to the 271° and 091° radials of the Fulton County VOR.

Area D. That airspace extending upward from 6,000 feet MSL to 8,000 feet MSL north of the Atlanta Airport bounded on the east by a 20-mile radius arc from the Atlanta Airport, on the south by a line 1 mile south of and parallel to the 271° and 091° radials of Fulton County VOR, on the west by a 20-mile radius arc from the Atlanta Airport, and on the north by the southern boundary of the area described as the Dobbins AFB control zone and the 260° radial of Norcross VOR east of the Dobbins AFB control zone.

Chicago, Ill., Terminal Control Area

Primary Airport
1. Chicago-O'Hare International Airport (latitude 41°59'10" N., longitude 87°54'28" W.)

Boundaries. That airspace up to and including 7,000 feet MSL -

1. Area A. That airspace extending upward from the surface within the Chicago, Ill. (O'Haro International Airport), control zone, including that airspace within 2 miles northwest of the centerline of Runway 4 extended and 2 miles southeast of the centerline of the proposed Runway 4R extended, extending from the 5-mile radius control zone to 2 miles southwest of the Pine Outer Marker.

2. Area B. That airspace extending upward from 1,900 feet MSL within a 10.5-mile radius arc of Chicago O'Hare International Airport, excluding Area A and that area bounded on the southeast by a line 2 miles northwest of and parallel to the centerline extended of Runway 22, on the south and southwest by the southwest boundary of Glenview, Ill., control zone, on the north by a 10.5-mile radius arc of the Chicago-O'Hare International Airport, and
excluding Area E described hereinafter.

3. Area C. That airspace extending upward from 3,000 feet MSL within a 20-mile radius arc of Chicago-O'Hare International Airport, excluding Areas A and B, previously described, Areas D and E, described hereinafter, and that airspace within a 1.5-mile radius of Clow Airport (latitude 41°41'40" N., longitude 88°07'38" W.).

4. Area D. That airspace extending upward from 4,000 feet MSL north of Chicago bounded on the south by a line 2 nautical miles south of and parallel to the 093° and 274° radials of the Northbrook VORTAC, on the west by a line 3 miles northeast of and parallel to
the centerline extended of Runway 14L, and on the north by the 20-mile radius arc of the Chicago-O'Hare International Airport. That area southeast of Chicago between the 10.5-mile and 20-mile radius arcs of the Chicago-O'Hare International Airport and bounded
on the north by a line 3 miles south of and parallel to the extended centerline of Runway 27R, and on the southwest by a line 3 miles northeast of and parallel to the extended centerline of Runway 32R.

5. Area E. That airspace northeast of Chicago extending upward from 2,500 feet MSL bounded on the northeast by a 10.5-mile radius arc of Chicago-O'Hare International Airport, on the south by the extended-center-line of Runway 9/27 at NAS Glenview and on the northwest by a line 2 miles northwest of and parallel to the extended centerline of Runway 22 at Chicago-O'Hare International Airport.

Los Angeles, Calif., Terminal Control Area

Primary Airport
Los Angeles International Airport (lat. 33°56'25" N., long. 118°24'10" W.)

Boundaries
That airspace up to and including 7,000 feet MSL.

Area A. That airspace extending upward from the surface to 2,500 feet MSL and from 5,000 feet MSL to and including 7,000 feet MSL bounded on the north by Bolona Creek, on the east by the San Diego Freeway, on the south by Imperial Boulevard, and on the west by the Pacific Ocean shoreline.

Area B. That airspace extending upward from the surface to and including 7,000 feet MSL east of Los Angeles Airport bounded on the east by the Los Angeles, Calif., VORTAC 10-mile radius arc, on the south by the Los Angeles VORTAC 091° radial, on the west by the San Diego Freeway and on the north by the Los Angeles VORTAC 061° radial; and that airspace west of Los Angeles Airport bounded on the east by the Pacific Ocean shoreline, on the southeast by the Los Angeles VORTAC 207° radial, on the west by the Los Angeles VORTAC 11-mile radius arc, and on the north by the Santa Monica VOR 270° radial and the Ventura, Calif., VORTAC 107° radial.

Area C. That airspace extending upward from 2,000 feet MSL to and including 7,000 feet MSL east of Los Angeles between the 10- and 15-mile radii of the Los Angeles VORTAC bounded on the north by the Los Angeles VORTAC 061° radial and on the south by the Santa Monica VOR 112° radial; and that airspace west of Los Angeles bounded on the east by the Los Angeles VORTAC 11-mile radius arc and the Los Angeles VORTAC 207° radial, and the south by the Seal Beach, Calif., VORTAC 266° radial, on the west by the Los Angeles VORTAC 20-mile radius arc, and on the north by the Santa Monica VOR 270° radial.

Area D. That airspace extending upward from 2,500 feet MSL to and including 7,000 feet MSL east and northeast of Los Angeles Airport bounded by a line beginning at the intersection of the Los Angeles VORTAC 061° radial and the San Diego Freeway, thence northwest along the San Diego Freeway to and northeast along the Los Angeles VORTAC 024° and the Santa Monica VOR 057° radials to and east along the Ontario, Calif., VORTAC 288° and the Pomona VORTAC 266° radials to and south along the Los Angeles VORTAC 20-mile radius arc to and west along the Ontario VORTAC 268° radial to and north along the Los Angeles VORTAC 15-mile radius arc to and southwest along the Los Angeles VORTAC 061° radial to the point of beginning.

Area E. That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL east of Los Angeles bounded on the east by the Los Angeles VORTAC 25-mile radius arc, on the south by the Ontario VORTAC 268° radial, on the west by the Los Angeles VORTAC 20-mile radius arc, and on the north by the Pomona VORTAC 266° radial; that airspace bounded on the east by the Los Angeles VORTAC 180° radial, on the south by the Seal Beach VORTAC 266° radial, and on the northwest by the Los Angeles VORTAC 207° radial; and that airspace northwest of Los Angeles bounded on the northeast by the Los Angeles VORTAC 320° radial, on the south by the Santa Monica VOR 270° radial and the Ventura VORTAC 107° radial, on the west by the Los Angeles VORTAC 20-mile radius arc, and on the north by the Ventura VORTAC 090° radial.

Area F. That airspace extending upward from 5,000 feet MSL to and including 7,000 feet MSL north of Los Angeles bounded by a line beginning at the intersection of the Ventura VORTAC 090° radial and the Santa Monica VOR 057° radial, thence southwest along the Santa Monica VOR 057° radial to the Los Angeles VORTAC 024° radial, thence southwest along the Los Angeles VORTAC 024° radial to Bolona Creek, thence southwest along Bolona Creek to the Pacific Ocean shoreline, thence northwest along the Los Angeles VORTAC 320° radial to the Ventura 090° radial, thence east along the Ventura 090° radial to the point of beginning; and that airspace southeast of Los Angeles bounded on the southeast by the Los Angeles VORTAC 12-mile radius arc, on the south by the Seal Beach VORTAC 266° radial, on the west by the Los Angeles VORTAC 180° radial and on the north by Areas A, B, and C.

Area G. That airspace extending upward from 6,000 feet MSL to and including 7,000 feet MSL southeast of Los Angeles bounded on the southeast by the Los Angeles VORTAC 25-mile radius arc, on the southwest by the Seal Beach VORTAC 330°/150° radials, and on the north by the Ontario 268° radial.

New York, N. Y., Terminal Control Area

Primary Airports
Kennedy International Airport (lat. 40°38'20" N., long. 73°47'10" W.).

NEW YORK TERMINAL CONTROL AREA CONTINUED

V 38-1 JAN 3 73 XUM

Area B. That airspace extending upward from above 500 feet MSL to and including 7,000 feet MSL within an 8-mile radius
circle of JFK VORTAC south of a line beginning at the intersection of the JFK VORTAC 237° radial and the Atlantic Ocean shoreline, thence east along the shoreline to its intersection with the JFK VORTAC 5-mile DME fix, thence north along the 5-mile DME arc to and east along the JFK VORTAC 094° radial to the 8-mile radius circle of JFK VORTAC; that airspace within a 6-mile radius circle of LGA VORTAC bounded by a line beginning at the intersection of the 6-mile radius circle and the LGA VORTAC 039° radial, thence southwest along the LGA VORTAC 039° radial to and south along the Bronx shoreline to the north stanchion of the Throgs Neck Bridge, thence direct to the intersection of the LGA VORTAC 071° radial and the 6-mile radius circle of LGA VORTAC, thence counterclockwise along the 6-mile radius circle to the point of beginning; and that airspace between the 4-mile and the 6.5-mile radial of a circle centered at lat. 40°41'30" N., long. 74°10'00" W.; excluding the airspace within and below Areas C, D and J hereinafter described.

Area C. That airspace extending upward from above 800 feet MSL to and including 7,000 feet MSL within a 6.5-mile radius circle centered at latitude 40°41'30" N., longitude 74°10'00" W., and bounded by a line beginning at the point where the 6.5-mile radius circle intersects U. S. Highway No. 1, thence northeast along U. S. Highway No. 1 to its point of intersection with a 4-mile radius circle centered at latitude 40°41'30" N., longitude 74°10'00" W., at the Esso Research Center, thence direct to the Public Service powerplant, thence direct to the Staten Island Expressway at its point of intersection with the 4-mile radius circle, thence east via the Staten Island Expressway to Richmond Avenue, thence south along Richmond Avenue to the 6.5-mile radius circle, thence clockwise along the 6.5-mile radius circle to the point of beginning.

Area D. That airspace extending upward from above 1,100 feet MSL to and including 7,000 feet MSL within the 6-mile radius circle of LGA VOR west of the east bank of the Hudson River; that airspace between the east and west banks of the East River southwest of the north end of Welfare Island; and that airspace within the 6.5-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., east of the Colts Neck VORTAC 012° radial.

Area E. That airspace extending upward from 1,500 feet MSL to and including 7,000 feet MSL within the area bounded by a line beginning at the intersection of the 20-mile radius circle of JFK VORTAC and the JFK VORTAC 208° radial, thence counterclockwise along the 20-mile arc to its intersection with the Long Island shoreline, thence southwest along the Long Island shoreline to and counterclockwise along the 13-mile radius circle of JFK VORTAC to and counterclockwise along the 11-mile radius circle of LGA VORTAC to the LGA VORTAC 351° radial, thence direct to the LGA VORTAC 283° radial at the LGA VORTAC 17-mile DME fix, thence counterclockwise along a 10-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., to its intersection with the Colts Neck VORTAC 005° radial, thence direct to the intersection of the Colts Neck VORTAC 034° radial and the New Jersey shoreline at Sandy Hook, thence south along the New Jersey shoreline to the point of beginning; and that airspace within 2 miles each side of the Newark ILS Runway 4L localizer course, extending from the Chelsea outer marker to 6 miles southwest of the outer marker, and that airspace within a 6-mile radius circle of the LGA VORTAC east of a line beginning at the intersection of the LGA VORTAC 071° radial and the 6-mile arc of LGA VORTAC, thence direct to the Kennedy VORTAC 340° radial at the Kennedy VORTAC 10-mile DME fix, thence via the Kennedy VORTAC 340° radial to the Kennedy VORTAC 9-mile DME fix, thence direct to the intersection of the LGA VORTAC 104° radial and the LGA VORTAC 6-mile radius circle; excluding the airspace within Areas A, B, C, and D previously described; and excluding the airspace within and below Areas F and J hereinafter described.

Area F. That airspace extending upward from 1,800 feet MSL to and including 7,000 feet MSL within an area bounded by a line beginning at the intersection of the LGA VOR 337° radial and the Erie Lackawanna Railroad tracks, thence south along the railroad tracks to the east branch of the Hackensack River, thence south and west along the river to the LGA VOR 299° radial, thence direct to the intersection of the 6-mile radius circle of LGA VOR and the LGA VOR 264° radial, thence south along the west bank of the Hudson River to its intersection with, then counterclockwise along the 6.5-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., to and southwest along New Jersey Highway Route No. 22 to and clockwise along a 10-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., to LGA VOR 283° radial, thence direct to the point of beginning.

Area G. That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL within a 20-mile radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., within a 20-mile radius circle of JFK VORTAC; and within a 20-mile radius circle of LGA VORTAC, excluding the airspace within Areas A, B, C, D, E and F previously described and excluding the airspace within and below Areas H and J hereinafter described.

Area H. That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL between the 13- and 20-mile radii circles of JFK VORTAC bounded on the north by the JFK VORTAC 050° radial and on the south by the Long Island shoreline.

Area J. That airspace extending upward from above 1,200 feet MSL to and including 7,000 feet MSL within a 6.5-mile radius circle centered at latitude 40°41'30" N., longitude 74°10'00" W., and bounded by a line beginning at the intersection of the 6.5-mile radius circle and the tracks of the Central Railroad of New Jersey, thence eastward along the railroad tracks to their point of intersection with the 4-mile radius circle centered at latitude 40°41'30" N., longitude 74°10'00" W., thence counterclockwise along the 4-mile radius circle to U. S. Highway No. 1, thence southwest along U. S. Highway No. 1 to the 6.5-mile radius circle, thence clockwise along the 6.5-mile radius circle to the point of beginning.

AMENDMENTS 6/22/72 37 F. R. 8440 (Changed)
PENDING AMENDMENT CONTINUED ON THE NEXT PANEL.

PENDING AMENDMENT
The New York, N. Y., Terminal Control Area is amended to read as follows:

Area A. That airspace extending upward from the surface to and including 7,000 feet MSL within an 8-mile radius circle of Kennedy (JFK) VORTAC; within a 4-mile radius circle centered at Lat. 40°41'30" N., Long. 74° 10'00" W.; and within a 6-mile radius circle of La Guardia (LGA) VOR; excluding the airspace within and below Areas B, D and J hereinafter described and excluding that airspace east of Flushing Airport bounded by a line beginning at the point of intersection of the LGA VOR 071° radial and the 6-mile arc of the LGA VOR, thence clockwise along the LGA VOR 6-mile arc to and counterclockwise along the 8-mile arc of the JFK VORTAC to and north along the Clearview Expressway to the north stanchion of the Throggs Neck Bridge, thence to the point of beginning.

Area B. That airspace extending upward from above 500 feet MSL to and including 7,000 feet MSL within an 8-mile radius circle of JFK VORTAC south of a line beginning at the intersection of the JFK VORTAC 237° radial and the Atlantic Ocean shoreline, thence easterly along the shoreline to its intersection with the JFK VORTAC 125° radial 5-mile DME fix, thence northerly along the 5-mile DME arc to and easterly along the JFK VORTAC 094° radial to the 8-mile radius circle of JFK VORTAC; that airspace within a 6-mile radius circle of LGA VOR bounded by a line beginning at the intersection of the 6-mile radius circle and the LGA VOR 039° radial, thence southwesterly along the LGA VOR 039° radial to and southerly along the Bronx shoreline to the north stanchion of the Throggs Neck Bridge, thence direct to the intersection of the LGA VOR 071° radial and the 6-mile radius circle of LGA VOR, thence counterclockwise along the 6-mile radius circle to the point of beginning; and that airspace between the 4-mile and the 6.5-mile radii of a circle centered at Lat. 40°41'30" N., Long. 74°10'00" W.; excluding that airspace within and below Areas C, D and J hereinafter described.

Area C. That airspace extending upward from above 800 feet MSL to and including 7,000 feet MSL within a 6.5-mile radius circle centered at Lat. 40°41'30" N., Long. 74°10'00" W., and bounded by a line beginning at the point where the 6.5-mile radius circle intersects U. S. Highway No. 1, thence northeast along U. S. Highway No. 1 to its point of intersection with a 4-mile radius circle centered at Lat. 40°41'30: N., Long. 74°10'00" W., at the Esso Research Center, thence direct to the public service powerplant, thence direct to the Staten Island Expressway at its point of intersection with the 4-mile radius circle, thence east via the Staten Island Expressway to Richmond Avenue, thence south along Richmond Avenue to the 6.5-mile radius circle, thence clockwise along the 6.5-mile radius circle to the point of beginning.

Area D. That airspace extending upward from above 1,100 feet MSL to and including 7,000 feet MSL within the 6-mile radius circle of LGA VOR west of the east bank of the Hudson River; that airspace between the east and west banks of the East River southwest of the north end of Welfare Island; and that airspace within the 6.5-mile radius circle centered at Lat. 40°41'30" N., Long. 74°10'00" W., east of the Colts Neck VORTAC 012° radial.

Area E. That airspace extending upward from 1,500 feet MSL to and including 7,000 feet MSL within the area bounded by a line beginning at the intersection of the 20-mile radius circle of JFK VORTAC and the JFK VORTAC 208° radial, thence counterclockwise along the 20-mile arc to its intersection with the Long Island shoreline, thence southwest along the Long Island shoreline to and counterclockwise along the 13-mile radius circle of JFK VORTAC to and counterclockwise along the 11-mile radius circle of LGA VOR to the LGA VOR 351° radial, thence direct to the LGA VOR 283° radial at the LGA VOR 17-mile DME fix, thence counterclockwise along a 10-mile radius circle centered at Lat. 40°41'30" N., Long. 74°10'00" W., to its intersection with the Colts Neck VORTAC 005° radial, thence direct to the intersection of the Colts Neck VORTAC 034° radial and the New Jersey shoreline at Sandy Hook, thence south along the New Jersey shoreline to the point of beginning; and that airspace within 2 miles each side of the Newark ILS Runway 4L localizer course, extending from the Chelsea outer marker to 6 miles southwest of the outer marker, excluding that airspace within and below Areas A, B, C, and D previously described; and excluding the airspace within and below Areas F and J hereinafter described.

Area F. That airspace extending upward from 1,800 feet MSL to and including 7,000 feet MSL within an area bounded by a line beginning at the intersection of the LGA VOR 337° radial and the Erie Lackawanna Railroad tracks, thence south along the railroad tracks to the east branch of the Hackensack River, thence south and west along the river to the LGA VOR 299° radial, thence direct to the intersection of the six-mile radius circle of LGA VOR and the LGA VOR 264° radial, thence south along the west bank of the Hudson River to its intersection with, then counterclockwise along the 6.5-mile radius circle centered at Lat. 40°41'30" N., Long. 74°10'00" W., to and southwest along the New Jersey Highway Route No. 22 to and clockwise along a 10-mile radius circle centered at Lat. 40°41'30" N., Long. 74°10'00" W., to LGA VOR 283° radial, thence direct to the point of beginning.

Area G. That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL within a 20-mile radius circle centered at Lat. 40°41'30" N., Long. 74°10'00" W., within a 20-mile radius circle of JFK VORTAC; and within a 20-mile radius circle of LGA VOR, excluding the airspace within and below Areas A, B, C, D, E, and F previously described and excluding the airspace within and below Areas H and J hereinafter described.

Area H. That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL between the 13- and 20-mile radii circles of JFK VORTAC bounded on the north by the JFK VORTAC 050° radial and on the south by the Long Island shoreline, excluding that airspace north of Hempstead Turnpike and west of the Seaford-Oyster Bay Expressway.

Boundaries

Area A. That airspace extending upward from the surface to and including 8,000 feet MSL within a 7-mile radius of the San Francisco (SFO) VOR extending clockwise from the SFO VOR 247° radial to the SFO VOR 127° radial and within a 5-mile radius of the SFO VOR extending clockwise from the SFO VOR 127° radial to the SFO VOR 247° radial, excluding that airspace within a 3-mile radius of the Oakland VORTAC and excluding that airspace west of the Pacific coast shoreline.

Area B. That airspace extending upward from 1,500 feet MSL to and including 8,000 feet MSL bounded on the northwest by a 5-mile radius arc of the SFO VOR, on the southeast by a 10-mile radius arc of the SFO VOR, on the northeast by the SFO VOR 107° radial, and on the southwest by the SFO VOR 137° radial, excluding that airspace within Area A.

Area C. That airspace extending upward from 2,500 feet MSL to and including 8,000 feet MSL bounded on the northwest by a 10-mile radius arc of the SFO VOR, on the southeast by a 15-mile radius arc of the SFO VOR, on the northeast by the SFO VOR 107° radial, and on the southwest by the SFO VOR 137° radial.

Area D. That airspace extending upward from 4,000 feet MSL to and including 8,000 feet MSL bounded by a line beginning at the 5-mile DME point on the SFO VOR 137° radial thence southeast along the 137° radial to and counterclockwise along a 15-mile DME arc of the SFO VOR to and east along the SFO VOR 107° radial to and clockwise along the 20-mile radius DME arc of the SFO VOR to and northwest along the SFO VOR 167° radial to and counterclockwise along the 5-mile radius DME arc of the SFO VOR to the point of beginning.

Area E. That airspace extending upward from 6,000 feet MSL to and including 8,000 feet MSL bounded by a line beginning at the 5-mile DME point on the SFO VOR 167° radial thence southeast along the 167° radial to and counterclockwise along the 20-mile DME arc of the SFO VOR to and east along the SFO VOR 107° radial to and clockwise along the 25-mile DME arc of the SFO VOR to and northwest along the Point Reyes VORTAC 161° radial to and northeast along the SFO VOR 217° radial to and counterclockwise along the 5-mile DME arc of the SFO VOR to the point of beginning.

Area F. That airspace extending upward from 2,100 feet MSL to and including 8,000 feet MSL bounded by a line beginning at the 10-mile DME point on the SFO VOR 247° radial thence clockwise along the 10-mile DME arc to and west along the SFO VOR 107° radial to and counterclockwise along the 7-mile DME arc of the SFO VOR to and clockwise along the 3-mile DME arc of the Oakland VORTAC to and counterclockwise along the 7-mile DME arc of the SFO VOR to and southwest along the SFO VOR 247° radial to the point of beginning.

Area G. That airspace extending upward from 3,000 feet MSL to and including 8,000 feet MSL between the 10- and 15-mile radii of the SFO VOR from the SFO VOR 247° radial clockwise to the SFO VOR 107° radial, excluding the airspace southwest of the Point Reyes VORTAC 161° radial.

Area H. That airspace extending upward from 4,500 feet MSL to and including 8,000 feet MSL bounded by a line beginning at the intersection of the Sausalito VORTAC 052° radial and the Oakland VORTAC 305° radial thence northeast along the Sausalito VORTAC 052° radial to and clockwise along the 20-mile DME arc of the SFO VOR to and southwest along the SFO VOR 072° radial to and counterclockwise along the 15-mile DME arc of the SFO VOR to and northwest along the Oakland VORTAC 305° radial to the point of beginning.

Area I. That airspace extending upward from 6,000 feet MSL to and including 8,000 feet MSL between the 20- and 25-mile radii of the SFO VOR from the Sausalito VORTAC 052° radial clockwise to the SFO VOR 072° radial, excluding the airspace north of latitude 38°00'00" N.

SAN FRANCISCO TERMINAL CONTROL AREA CONTINUED

Area J. V 38 - 1 JAN 3 73 XUM

Subpart A -- General

§ 73.1 Applicability.

The airspace that is described in Subpart B and Subpart C of this part is designated as special use airspace. These parts prescribe the requirements for the use of that airspace.

§ 73.3 Special use airspace.

(a) Special use airspace consists of airspace of defined dimensions identified by an area on the surface of the earth wherein activities must be confined because of their nature, or wherein limitations are imposed upon aircraft operations that are not a part of those activities, or both.
(b) The vertical limits of special use airspace are measured by designated altitude floors and ceilings expressed as flight levels or as feet above mean sea level.
(c) The horizontal limits of special use airspace are measured by boundaries described by geographic coordinates or other appropriate references that clearly define their perimeter.
(d) The period of time during which a designation of special use airspace is in effect is stated in the designation.

§ 73.5 Bearings; radials; miles.

(a) All bearings and radials in this part are true from point of origin.
(b) Unless otherwise specified, all mileages in this part are stated as statute miles.

Subpart B -- Restricted Areas

§ 73.11 Applicability.

This subpart designates restricted areas and prescribes limitations on the operation of aircraft within them.

§ 73.13 Restrictions.

No person may operate an aircraft within a restricted area between the designated altitudes and during the time of designation, unless he has the advance permission of
(a) The using agency described in § 73.15; or
(b) The controlling agency described in § 73.17.

§ 73.15 Using agency.

(a) For the purposes of this subpart, the following are using agencies:
(1) The agency, organization, or military command whose activity within a restricted area necessitated the area being so designated.
(2) In the case of a Restricted Area/Military Climb Corridor that does not have a designated controlling agency, the Military Air Traffic Control facility that may be contacted for permission for transit through the climb corridor.
(b) Upon the request of the FAA, the using agency shall execute a letter establishing procedures for joint use of a restricted area by the using agency and the controlling agency, under which the using agency would notify the controlling agency whenever the controlling agency may grant permission for transit through the restricted area in accordance with the terms of the letter.
(c) The using agency shall --
(1) Schedule activities within the restricted area;
(2) Authorize transit through, or flight within, the restricted area as feasible; and
(3) Contain within the restricted area all activities conducted therein in accordance with the purpose for which it was designated.

§ 73.17 Controlling agency.

For the purposes of this part, the controlling agency is the FAA facility that may authorize transit through or flight within a restricted area in accordance with a joint-use letter issued under § 73.15.

§ 73.19 Reports by using agency.

(a) Each using agency shall report once a year, in duplicate, to the Director, Air Traffic Service, Federal Aviation Agency, Washington 25, D. C., on each restricted area for which it is the using agency. The report must reach the Director not later than January 31 and shall cover the 12-month period ending with the preceding September 30.
(b) In its report under this section the using agency shall --
(1) State the name and number of the restricted area as published in this part;
(2) State the period covered by the report;
(3) List in detail the activities carried on in the area by all organizations using it for the restricted area purposes;
(4) State the time that daily operations are normally scheduled to begin and end;
(5) State the average number of hours the area is actually used each day, and in addition, for a restricted area used for aircraft operations the total number of aircraft hours of actual use during the reporting period;
(6) State the number of days each week, weeks each month, and months each year (as appropriate) that the area is used for actual operations;
(7) State whether or not radar is used during operations;
(8) State the number and type of aircraft, if any, normally involved in the activities for which the area was restricted;
(9) List the altitudes used in daily operations of aircraft, including for each activity the altitudes used and the number of hours at each of those altitudes;
(10) Include a chart of the area (of optional scale and design) showing --
(i) The approximate location, and the representative pattern (if any), for firing runs (if any), for bombing runs (if any), the place where runs begin, where firing (if any), begins and ends, and the release point pullup point; and
(ii) The location of impact areas, if any;
(11) State the maximum ordinate of surface firing (expressed in feet, mean sea level altitude) used for required operations;
(12) State the daily number of hours or nimutes, or both, that the maximum ordinate altitudes are normally used in surface to surface firing operations;
(13) List the altitudes normally used for daily surface to surface firing operations;
(14) Include a chart of the area (of optional scale and design) showing --
(i) The location of firing points and impact areas, if any; and
(ii) The perimeter of the firing fan for each weapon used, if any; and
(15) Include a brief statement of any other pertinent facts concerning the current use of the restricted area and requirements for future use of the area or part of it.
(c) This section does not apply to restricted areas established for climb corridors.

Subpart C -- Prohibited Areas

§ 73.81 Applicability.

This subpart designates prohibited areas and prescribes limitations on the operation of aircraft therein.

§ 73.83 Restrictions.

No person may operate an aircraft within a prohibited area unless authorization has been granted by the using agency.

§ 73.85 Using agency.

For the purpose of this subpart, the using agency is the agency, organization or military command that established the requirements for the prohibited area.
Note: Sections 73.87 through 73.99 are reserved for descriptions of designated prohibited areas.
